The Queer Politics of Television Samuel A. Chambers, 2009-07-30 The Queer Politics of Television is a radical book which brings together the fields of political theory and television studies In one of the first books to do so Samuel A Chambers exposes and explores the cultural politics of television by treating television shows including Six Feet Under Buffy the Vampire Slayer Desperate Housewives The L Word and Big Love as serious important texts and reading them in detail through the lens of queer theory Chambers makes the case for the profound significance of the cultural politics of television the way in which the text of a television show itself engages with the politics of its day He argues for queer theory's essential contribution to any understanding of the political and initiates a larger project of queer television studies treading the same path as queer film studies This book makes an important and fresh contribution to queer theory and to the understanding of television as politics

Appreciating the Art of Television Ted Nannicelli, 2016-09-13 Contemporary television has been marked by such exceptional programming that it is now common to hear claims that TV has finally become an art In Appreciating the Art of Television Nannicelli contends that televisual art is not a recent development but has in fact existed for a long time Yet despite the flourishing of two relevant academic subfields the philosophy of film and television aesthetics there is little scholarship on television in general as an art form This book aims to provide scholars active in television aesthetics with a critical overview of the relevant philosophical literature while also giving philosophers of film a particular account of the art of television that will hopefully spur further interest and debate It offers the first sustained theoretical examination of what is involved in appreciating television as an art and how this bears on the practical business of television scholars critics students and fans namely the comprehension interpretation and evaluation of specific televisual artworks

The Battle for the Bs Blair Davis, 2012-04-06 The emergence of the double bill in the 1930s created a divide between A pictures and B pictures as theaters typically screened packages featuring one of each With the former

considered more prestigious because of their larger budgets and more popular actors the lower budgeted Bs served largely as a support mechanism to A films of the major studios most of which also owned the theater chains in which movies were shown When a 1948 U S Supreme Court antitrust ruling severed ownership of theaters from the studios the B movie soon became a different entity in the wake of profound changes to the corporate organization and production methods of the major Hollywood studios In *The Battle for the Bs* Blair Davis analyzes how B films were produced distributed and exhibited in the 1950s and demonstrates the possibilities that existed for low budget filmmaking at a time when many in Hollywood had abandoned the Bs Made by newly formed independent companies 1950s B movies took advantage of changing demographic patterns to fashion innovative marketing approaches They established such genre cycles as science fiction and teen oriented films think *Destination Moon* and *I Was a Teenage Werewolf* well before the major studios and also contributed to the emergence of the movement now known as underground cinema Although frequently proving to be multimillion dollar box office draws by the end of the decade the Bs existed in opposition to the cinematic mainstream in the 1950s and created a legacy that was passed on to independent filmmakers in the decades to come

Performance and Popular Music Ian Inglis, 2017-07-05 Since the emergence of rock n roll in the early 1950s there have been a number of live musical performances that were not only memorable in themselves but became hugely influential in the way they shaped the subsequent trajectory and development of popular music Each in its own way introduced new styles confronted existing practices shifted accepted definitions and provided templates for others to follow Performance and Popular Music explores these processes by focusing on some of the specific occasions when such transformations occurred An international array of scholars reveal that it is through the often disruptive dynamics of performance and the interaction between performer and audience that patterns of musical change and innovation can best be recognised Through multi disciplinary analyses which consider the history place and time of each event the performances are located within their social and professional contexts and their immediate and long term musical consequences considered From the Beatles and Bob Dylan to Michael Jackson and Madonna from Woodstock and Monterey to Altamont and Live Aid this book provides an indispensable assessment of the importance of live performance in the practice of popular music and an essential guide to some of the key moments in its history

News and Politics Stephen Cushion, 2015-03-24 News and Politics critically examines television news bulletins still the primary source of information for most people and asks whether the wider pace and immediacy of 24 hour news culture has influenced their format and style over time Drawing on the concepts of mediatization and journalistic interventionism Stephen Cushion empirically traces the shift from edited to live reporting from a cross national perspective focussing on the two way convention in political coverage and the more interpretive approach to journalism it promotes Challenging prevailing academic wisdom Cushion argues that the mediatization of news does not necessarily reflect a commercial logic or a lowering of journalism standards In particular the rise of live two ways can potentially enhance viewers understanding of public affairs moving reporters beyond their visual backdrops and reliance on political soundbites by asking journalists to scrutinize the actions of political elites interpret competing source claims and to explain the broader context to everyday stories Considering the future of 24 hour news a final discussion asks whether new content and social media platforms including Twitter and BuzzFeed enhance or weaken democratic culture This timely analysis of News and Politics is ideal for students of political communication and journalism studies as well as communication studies media studies and political science
