*Inside Stories* Kathleen B. deMarrais,2012-12-06 Although articles reporting research studies are helpful in acquainting students with methodological approaches they often make the process look so straightforward clean and effortless It is rare to find an article that tells the real story behind the finished product By having real researchers tell their own stories of mucking around with methodological and ethical issues in qualitative research we get a more realistic human story of the process This is a collection of such stories Authors were asked to describe their own experiences with methodological and ethical

struggles as they engaged in their work Each of the essays offers insight into the research approach used as well as particular issues which became apparent during the research process Key issues raised by the authors include early learnings gaining entry overlapping conflicting roles and the boundaries of these roles differential power relationships who tells the story and whose story is told ethical concerns related to confidentiality and the influence of a researcher s particular philosophy or theoretical framework on his or her research Throughout the book we see scholars whose personal stories or autobiographies intersect closely with their research projects deMarrais introduces a unique framework to help students gain an overview of qualitative research methods and the underpinnings and processes in these approaches This framework is centered on the ways we understand phenomena using qualitative research approaches that engage archival knowledge narrative knowledge or observational knowledge

**Grand Plans** Judith Sealander, 2021-12-14 Scholars may have widely differing views of the Progressive Era but all see business as holding the key to the reforms of that period In this new book Judith Sealander amplifies our understanding of the relationship between business leaders and reform through a detailed examination of Dayton and the Miami Valley of Ohio She focuses specifically on four progressive projects that made this nine county region nationally known as a center for reform activism The four projects include an extensive program of employee benefits instituted at the National Cash Register Company the creation in the Miami Conservancy District of a massive flood prevention system the institution of a new businesslike city manager government in Dayton and a new experimental approach to education in the region s public and private schools Well grounded in the scholarly literature on progressivism and drawing from a rich trove of local manuscript sources Judith Sealander has provided an integrated analysis of the role of business leadership in these four reform areas that corrects the exaggerated treatment business has often received She shows how this one group of businessmen functioned as reformers the grand plans they had for changing society their merger of scientific engineering business management and moral fervor and the benefits and costs of their kind of progressivism *Grand Plans* contributes new insights into the Progressive Era and will interest scholars of that period as well as historians of American business urban affairs and reform
