Education The Next Decade A Personal View:

Education C. B. Cox, 1981 The Future of Education in India: A Vision for NEP 2030 KHRITISH SWARGIARY, 2024-09-01 The Future of Education in India A Vision for NEP 2030 is an insightful and forward thinking academic exploration into the evolution of India s education system beyond the implementation of the National Education Policy NEP 2020 The book delves into the challenges successes and missed opportunities of the NEP 2020 era while offering concrete data driven proposals for the new education policy that could take shape by 2030 **Health Promotion** Robin Bunton, Gordon MacDonald, Gordon Macdonald, 2005-09-23 Health promotion is an increasingly central tenet in health professionals lives It has come into the public eye as the subject of party politics and policy but where does the movement come from This book brings together views from a range of subjects some not always associated with health promotion such as marketing or communication theory Others such as social policy of psychology may have obvious connections to make here the implications for practice are discussed fully for the first time The volume adds up to a timely reflection on the state of health promotion today and will provide practitioners and academics alike with a clearer understanding of a discipline at the frontier of contemporary policy and practice **The Mathematics Education for the Future Project - Proceedings of the 14th International Conference** Alan Rogerson, Janina Morska, 2017-07-01 This volume contains the papers presented at the International Conference on Challenges in Mathematics Education for the Next Decade held from September 10 15 2017 in Balatonf red Hungary The Conference was organized by The Mathematics Education for the Future Project an international educational project founded in 1986 **The Management of Educational Institutions** H. L. Gray, 2018-05-11 Originally published in 1982 This book is a collection of specially commissioned papers by writers who are closely involved in education management as practitioners researchers and trainers It provides readers with an insight to some of the major theoretical considerations in managing educational institutions It offers some guidelines for rethinking the nature of education management and the development of an appropriate rationale and philosophy Readers will obtain a knowledge of humanistic approaches to education management and gain an understanding of how the complex organizations called schools and colleges etc can be sensitively managed Industrial perspectives are more sensitive to the needs of education than is often thought frequently more insightful and concerned than those of theorists who have only educational experience **Higher Education in the Next Decade** , 2021-05-25 This volume is already the 50th in the book series Global Perspectives on Higher Education In this book the editors and authors paid special attention to this important anniversary The 50th volume in the book series Global Perspectives on Higher Education offers a stimulating and thoughtful assessment of higher education from a global perspective which addresses the challenges and prospects for the next decade The challenges now faced by higher education and its likely future prospects and patterns are examined in terms of policy papers and case studies Five broad topics are considered the situation of academic faculty the demand for access the role of

the university in society and its governance funding trends and higher education's international dimensions The volume brings together as authors fourteen of the thirty participants of the Fulbright New Century Scholars 2005-2006 program whose research addressed the topic of Higher Education in the 21st Century Global Challenge and National Response and was published in a volume edited by the program leaders Philip G Altbach and Patti McGill Peterson Higher Education in the New Century Global Challenges and Innovative Ideas 2007 The present book not only continues the examination and assessment of current global trends in higher education but also bears witness to the enduring power of Senator Fulbright's vision of furthering mutual international understanding and offering collaborative study opportunities which extend the frontiers of knowledge

The Curriculum of the Future Michael F. D. Young, 2002-01-04 In this important book the author looks back on the knowledge question What knowledge gets selected to be validated as school knowledge or as part of the school curriculum and why is it selected Looking forward Young discusses how most developed countries have high levels of participation in post compulsory education but still use curricula designed for a time when only the elite pursued further education He argues the need to rethink post 16 education to shift focus onto vocational education school work issues and lifelong learning
