## **Educational Leadership Culture And Diversity:**

**Educational Leadership** Clive Dimmock, Allan Walker, 2005-06-03 A highly recommendable and powerful work I have found this book to be both a revelatory mirror on past events and an inviting window to future prospects I am certain that it will be of equal or greater value to all those involved and interested in the tangled complexities and inherent rewards of educational leadership particularly within international or cross cultural contexts Daniel H Jarvis International Review of Education Clive Dimmock and Allan Walker's books is a valuable addition to the overcrowded literature on leadership This is a useful and important book because citizenship globalization and the tensions with nationality should be the concern of all who lead any school even monofaith monoethic and monolingual schools Tim Brighouse TES Friday The authors offer a rigorous and systematic analysis based on careful definition illustration and discussion which demonstrates the importance of understanding culture leadership and their interaction in different contexts in doing so they provide a powerful antidote to the simplistic export of ideas and lay foundations for a more sophisticated conceptual framework for the study of educational leadership John West Burnham International Leadership Centre University of Hull This key text in educational leadership focuses on the significance of the context and culture of schools The book addresses the growing recognition of cultural differences between societies and the resultant differences in schooling It also deals with vital issues relating to multicultural education and the leadership of multicultural schools Drawing on their first hand experience the authors explore the differences evident in classroom teaching and learning as well as organizational leadership and management aspects of schools They show how such differences can make over reliance on Anglo American approaches misleading ineffective and restrictive Key features of the book include a methodology to support the emerging field of international and comparative educational leadership and management in depth comparative analysis of Anglo American and Asian schooling and educational management the leadership of multi cultural schools This book is essential reading for professionals and students of educational leadership and management as well as administrators

Veenis, Sylvia Robertson, Jami Royal Berry, 2020-10-01 This volume builds upon emergent understandings about educational leadership and policy in hopes of continuing to refine our understanding of what effective leadership means in linguistically and culturally diverse school contexts The volume seeks to entrench a deeper understanding of the broader leadership policies and practices that promote the success of linguistically and culturally diverse students while also recognizing that effective leadership can be highly dependent on context It offers original empirical research that enhances an understanding of the interdependencies between leadership culture language and policy i e the mechanisms that engender or hinder successful stewardship of linguistic and cultural plurality The confluence of school leadership linguistic diversity and multiculturalism makes this volume unique especially considering the pace at which global migration continues to accelerate coupled with the need to accommodate an array of diverse learning needs in today s schools
