*Teacher Education and Cultural Change* James Lynch, H. Dudley Plunkett, 2025-09-01 First published in 1973 *Teacher Education and Cultural Change* analyses significant issues in the reform of teacher education on the evidence of up to date official and academic source materials and direct investigation It contributes to the comparative sociology of education by highlighting the question as to whether teacher education policies are geared primarily to educational and social conservation or change Features of teacher education are classified according

to a scheme comprising four linked themes cultural perceptions of teaching the process of becoming a teacher curricula the organization of teacher education Attention is given to cultural and social factors acting to democratize educational philosophies and structures Reform oriented policies are evaluated for their coherence and sociological realism Differences in the three systems are found to reflect their histories and their socio economic and political contexts but a common movement is discerned towards democratic systems responding to person rather than to institution centred values The book should help to fill a serious gap in comparative studies of teacher education and should be of interest to students academics and administrators concerned with the study and development of educational systems      *Rethinking Family-school Relations* Maria Eulina de Carvalho,2000-10 This book addresses the complications and implications of parental involvement as a policy through an exploratory theoretical approach including historical and sociological accounts and personal reflection This approach represents the author s effort to understand the origins meanings and effects of parental involvement as a prerequisite of schooling and particularly as a policy solution for low achievement and even inequity in the American educational system Most of the policy and research discourse on school family relations exalts the partnership ideal taking for granted its desirability and viability the perspective of parents on specific involvement in instruction and the conditions of diverse families in fulfilling their appointed role in the partnership De Carvalho takes a distinct stance She argues that the partnership parental ideal neglects several major factors It proclaims parental involvement as a means to enhance and perhaps equalize school outcomes but disregards how family material and cultural conditions and feelings about schooling differ according to social class thus the partnership parental involvement ideal is more likely to be a projection of the model of upper middle class suburban community schooling than an open invitation for diverse families to recreate schooling Although it appeals to the image of the traditional community school the pressure for more family educational accountability really overlooks history as well as present social conditions Finally family school relations are relations of power but most families are powerless De Carvalho makes the case that two linked effects of this policy are the gravest the imposition of a particular parenting style and intrusion into family life and the escalation of educational inequality *Rethinking Family School Relations A Critique of Parental Involvement in Schooling* a carefully researched and persuasively argued work is essential reading for all school professionals parents and individuals concerned with public schooling and educational equality

*Aspirations, Education and Social Justice* Caroline Sarojini Hart,2012-12-27 Highlights and explores key challenges for society in the light of new findings on the nature of aspirations and personal development      *Education, Social Structure and Development* Bill Williamson,1979-05-31      *Equity and Inclusion in Physical Education and Sport* Gary Stidder,Sid Hayes,2013 This volume sets out and critically evaluates the key principles for inclusion and the expectations derived from them and looks closely at the practical issues involved in devising and implementing an inclusive PE curriculum

**Feminism And Social Justice In Education** Kathleen Weiler,2005-08-04 After more than twenty years of feminist education research policy development and innovative school practice it seems appropriate to evaluate the impact and significance of this world wide struggle for social justice in education At the same time the recent restructuring of educational provision whether in the name of sexual equality or the ideologies of the New Right also requires a considered response from Those Committed To Promoting Greater Social Equality This Collection offers a unique opportunity to host an international forum on contemporary thinking and practice not just within different national contexts but for feminism more generally In adopting a critical feminist approach the chapters re establish such egalitarian traditions as radical feminism black feminism and socialist feminism and address such themes as the interrelation between social class race and gender and the ways these articulate with feminist educational practice In gathering together leading educators from five different countries all committed to the project of social transformation this book represents the shifting concerns of the feminist theoretical debate and helps formulate feminist educational agendas more suited to the political and economic conditions which prevail in the 1990s

Theory and Resistance in Education Henry A. Giroux,2024-12-26 Reissued with a new introduction from Henry A Giroux this classic work provides theoretical and political tools for addressing how pedagogy knowledge resistance and power can be analyzed within and across a variety of cultural spheres including but not limited to the schools The time for radical social change has never been so urgent since the fate of an entire generation of young people if not democracy itself is at stake Giroux argues that challenge gives new meaning to the importance of resistance the relevance of pedagogy and the significance of political agency In a time of growing fascism Giroux argues that resistance is not an option but a necessity The book includes a foreword by Paulo Freire and a preface by Stanley Aronowitz

The State, Schooling and Identity Kari Kantasalmi, Gunilla Holm,2016-12-22 This

book offers insights into the relationship between nation state and education by problematizing and analyzing the assumed straightforwardness of the role of education and schooling Placing the issue in very contemporary contested nation state structures like Scotland Catalonia Ukraine and Belgium These conflict situations and contested power relations are in a way some of Europe s internal North South struggles In addition the particular Nordic North South example of the Saami with their status as indigenous people recognized in international law is viewed in terms of their educational struggle for better consideration of their cultural features in Saami land crossing the Nordic states The book focuses on the Nordic countries often viewed as globally exemplary in their educational arrangements but casts deeper insight into Nordic education and points to problematic schooling issues in Northern Europe This volume presents somewhat unexpected views on European educational arrangements with regard to the European growing diversity
