Ecology And Design Frameworks For Learning:

Ecology and design Kristina Hill,2002 **Teaching Landscape** Karsten Jørgensen,Nilgöl Karadeniz,Elke Mertens,Richard Stiles,2019-08-30 Teaching Landscape The Studio Experience gathers a range of expert contributions from across the world to collect best practice examples of teaching landscape architecture studios This is the companion volume to The Routledge Handbook of Teaching Landscape in the two part set initiated by the European Council of Landscape Architecture Schools ECLAS Design and planning studio as a form of teaching lies at the core of landscape architecture education They can simulate a professional situation and promote the development of creative solutions based on gaining an understanding of a specific project site or planning area address existing challenges in urban and rural landscapes and often involve interaction with real stakeholders such as municipality representatives residents or activist groups In this way studio based planning and design teaching brings students closer to everyday practice helping to prepare them to create real world problem solving designs This book provides fully illustrated examples of studios from over twenty different schools of landscape architecture worldwide With over 250 full colour images it is an essential resource for instructors and academics across the landscape discipline for the continuously evolving process of discussing and generating improved teaching modes in landscape architecture *Dynamic Patterns* Karen M'Closkey,Keith VanDerSys,2017-03-27 Dynamic Patterns explores the role of patterns in designed landscapes Patterns are inherently relational and the search for and the creation of patterns are endemic to many scientific and artistic endeavors Recent advances in optical tools sensors and computing have expanded our understanding of patterns as a link between natural and cultural realms Looking beyond the surface manifestation of pattern M Closkey and VanDerSys delve into a multifaceted examination that explores new avenues for engagement with patterns using digital media Examining the theoretical implications of pattern making they probe the potential of patterns to conjoin landscape s utilitarian and aesthetic functions With full color throughout and over one hundred and twenty images Dynamic Patterns utilizes work from a wide range of artists and designers to demonstrate how novel modes of visualization have facilitated new ways of seeing patterns and therefore of understanding and designing landscapes Site Matters Andrea Kahn,Carol J. Burns,2020-12-21 In the era of the Anthropocene site matters are more pressing than ever Building on the concepts theories and multi disciplinary approaches raised in the first edition this publication strives to address the changes that have taken place over the last 15 years with new material to complement and re position the initial volume Reaching across design disciplines this highly illustrated anthology assembles essays from architects landscape architects urban designers planners historians and artists to explore ways to physically and conceptually engage site Thoughtful discourse and empirically grounded pieces combine to provide the language and theory to contextualize the meanings of site in the built environment The increasingly complex hybridity of constructed environments today demands new tools for thinking about and working with site Drawing contributions from outside and within the traditional design disciplines this

edition will trace important developments in site thinking with new essays on topics such as climate change landscape as infrastructure shifts from global to planetary urbanization debates and the proliferation of participatory site transformation practices Edited by two leading practitioners and academics Site Matters juxtaposes timeless contributions from individuals including Elizabeth Meyer Robert Beauregard and Robin Dripps with original new writings from Peter Marcuse Jane Wolff Neil Brenner and Thaisa Way amongst others to recontextualize and reignite the debate around site An ideal text for students academics and researchers interested in site and design theory

Landscape Performance Bo Yang, 2018-10-26

Ian McHarg's ecological planning approach has been influential since the 20th century However few empirical studies have been conducted to evaluate the performance of his projects Using the framework of landscape performance assessment this book demonstrates the long term benefits of a renowned McHargian project The Woodlands town development through quantitative and qualitative methods Including 44 black and white illustrations Landscape Performance systematically documents the performance benefits of the environmental social and economic aspects of The Woodlands project It delves into McHarg's planning success in The Woodlands in comparison with adjacent Houston developments which demonstrated urban resilience after Hurricane Harvey in 2017 Lastly it identifies the ingredients of McHarg's ability to do real and permanent good Yang also includes a number of appendices which provide valuable information on the methods of assessing performance in landscape development This book would be beneficial to academics and students of landscape architecture and planning with a particular interest in Ian McHarg

Blue Architecture Brook Muller, 2022-05-10

2023 Finalist PROSE Award in Architecture and Urban Planning A guide to water focused and climate resilient architectural and urban design Le Corbusier famously said A house is a machine for living in We now confront the litany of environmental challenges associated with the legacy of the architectural machine a changing climate massive species die off diminished air and water quality and resource scarcities Brook Muller offers an alternative water centric urban design that fosters sustainability equity and architectural creativity Inspired by the vernacular such as the levadas of Madeira Island and both the arid and drenched places of the American West Muller articulates a hydro logical philosophy in which architects and

planners begin by conceptualizing interactions between existing waterways and the spaces they intend to develop From these interactions and the new technologies and approaches enabling them aesthetic spatial and experiential opportunities follow Not content merely to work around sensitive ecology Muller argues for genuinely climate adapted urban landscapes in which buildings act as ecological infrastructure that actually improve watersheds while delivering functionality and beauty for diverse communities Rich in images and practical examples Blue Architecture will change the way we think about our designed world

ecology environmental engineering landscape contracting and parks and recreation management **The Risk City** Yosef Jabareen, 2015-04-23 Contemporary cities face phenomenal risks and they face particularly high levels of mounting social and environmental risks including social polarization urban conflicts riots terror and climate change threats This book suggests that climate change and its resulting uncertainties challenge the concepts procedures and scope of conventional approaches to planning creating a need to rethink and revise current planning methods Therefore this book suggests a paradigm shift in our thinking interrogation and planning of our cities Based on the contemporary conditions of risk at cities this book conceptualizes the risk city as a construct of three interlinked concepts of risk trust and practice It is a construct of risk and its new evolving conditions and knowledge of uncertainties stem from climate change and other risks and uncertainties As a construct of practices the risk city produces social and political institutional framework and promotes practices accordingly in order to reduce risk and risk possibilities and to increase trust In light of the complex challenges and risks to the human habitat that have emerged in recent years many cities have prepared various types of plans aimed at addressing the challenges posed by climate change Nonetheless despite the importance of these plans and the major public resources invested in their formulation we still know little about them and have yet to begin studying them and assessing their contributions From the innovative perspective of the risk city this book asks critical questions about the nature vision practices and potential impact of the recent climate change oriented plans What kinds of risks do they attempt to address what types of practices do they institute and what types of approaches do they apply Do they adequately address the risks and uncertainties posed How do they contribute to the worldwide effort to reduce greenhouse gas emissions This book uses the methodologically innovative Risk City framework to examine the nature vision outcomes practices and impact of these crucial plans as well as their contribution to the resilience of our cities and to global efforts toward reducing greenhouse gas emissions **Ecology and the Architectural Imagination** Brook Muller, 2014-02-24 By including ecological concerns in the design process from the outset architecture can enhance life Author Brook Muller understands how a designer's predispositions and poetic judgement in dealing with complex and dynamic ecological systems impact the greenness of built outcomes Ecology and the Architectural Imagination offers a series of speculations on architectural possibility when ecology is embedded from conceptual phases onward how notions of function and structure of ecosystems can inspire ideas of architectural space making and order and how the architect's role and contribution can shift through this engagement As an ecological architect working in increasingly dense urban environments you can create diverse spaces of inhabitation and connect project scale living systems with those at the neighborhood and region scales Equipped with ecological literacy critical thinking and collaboration skills you are empowered to play important roles in the remaking of our cities *Healing Natures, Repairing Relationships* Robert L. France, Robert Lawrence France, 2008 Presenting emerging perspectives on environmental restoration this collection of essays by a leading group of environmental scholars combines theoretical

discussion with practical approaches Describing the variety of ways that humans can and should interact with nature this multi disciplinary work shares hands on exercises for engaging urban communities to develop supportive relationships with their surrounding environment These writings define the paradigm of restoration design and the ways that its disciplines and actions can provide humans with a new direction for interrelating with the world in the 21st century **Downsview Park Toronto** Julia Czerniak,2001 This book examines the entries for a competition to create an urban park in Toronto including the winning design by Rem Koolhaas and Bruce Mau The Wiley-Blackwell Encyclopedia of Urban and Regional Studies Anthony M. Orum,2019-04-15 Provides comprehensive coverage of major topics in urban and regional studies Under the guidance of Editor in Chief Anthony Orum this definitive reference work covers central and emergent topics in the field through an examination of urban and regional conditions and variation across the world It also provides authoritative entries on the main conceptual tools used by anthropologists sociologists geographers and political scientists in the study of cities and regions Among such concepts are those of place and space geographical regions the nature of power and politics in cities urban culture and many others The Wiley Blackwell Encyclopedia of Urban and Regional Studies captures the character of complex urban and regional dynamics across the globe including timely entries on Latin America Africa India and China At the same time it contains illuminating entries on some of the current concepts that seek to grasp the essence of the global world today such as those of Friedmann and Sassen on global cities It also includes discussions of recent economic writings on cities and regions such as those of Richard Florida Comprised of over 450 entries on the most important topics and from a range of theoretical perspectives Features authoritative entries on topics ranging from gender and the city to biographical profiles of figures like Frank Lloyd Wright Takes a global perspective with entries providing coverage of Latin America and Africa India and China and the US and Europe Includes biographies of central figures in urban and regional studies such as Doreen Massey Peter Hall Neil Smith and Henri Lefebvre The Wiley Blackwell Encyclopedia of Urban and Regional Studies is an indispensable reference for students and researchers in urban and regional studies urban sociology urban geography and urban anthropology *Handbook on Green Infrastructure* Danielle Sinnett,Nick Smith ,Sarah Burgess,2015-11-27 Green infrastructure encompasses many features in the built environment It is widely recognised as a valuable resource in our towns and cities and it is therefore crucial to understand create protect and manage this resource This Handbook sets the context for green infrastructure as a means to make urban environments more resilient sustainable liveable and equitable Including state of the art reviews that summarise the existing knowledge as well as research findings this Handbook provides current evidence for the beneficial impact of green infrastructure on health environmental quality and the economy It discusses the planning and design of green infrastructure as a strategic network down to the individual features in a neighbourhood and looks at the process of green infrastructure implementation emphasising the importance of collaboration across multiple professions and sectors This comprehensive volume operates at multiple spatial scales from strategic

networks at the regional level to individual features in neighbourhoods with international case studies used throughout to illustrate key examples of good practice This collection of expert contributions will be invaluable to students and academics in the fields of planning urban studies and geography Practitioners and policy makers will also find the policy discussion and examples enlightening
