Economic Recovery In Africa The Paradox Of Financial Flows:

Economic Recovery in Africa V. Makhan, 2002-05-17 African countries have experienced modest economic recovery during the 1990s But these countries are caught in a vicious circle in which the existing economic structure cannot generate enough savings and export earnings needed to finance their development and mount a sustained assault on widespread poverty Yet foreign aid has been cut back sharply and the continent receives only a trickle of foreign investment flows New policy regimes are now in place creating the right environment for external financing to make a major difference Development finance is one of the foremost challenges facing African countries and the international community in the new century

South Asia and Africa After Independence Bernard Waites, 2012-01-17 Post colonial South Asia and Africa invite comparison along with their political boundaries they inherited from colonial regimes administrative languages a cluster of sovereign state institutions and modern economic nuclei When they became independent South Asian and African states were for all their diversity thrust into a common position in the international system and embarked on a common history as emergent non aligned developing nations This is the first book to offer a single volume comparative history of postcolonial South Asia and sub Saharan Africa in the first generation since independence South Asia and Africa After Independence draws together the political and economic history of these two regions assessing the colonial impact establishing breaks and continuities and highlighting their diversity and interplay Waites sets out a framework for analysing the first generation of post colonial history offering an interpretation of post colonialism as a historical phenomenon and provocatively challenging us to re think this term in relation to South Asian and African history This book is an important reference for the study of global world African and South Asian history

O'Manique, 2004-05-13 O Manique critically examines the evolution of the policy response to AIDS in Sub Saharan Africa through a feminist political economy lens focusing on the relationship between neo liberalism the spread of AIDS and the hegemonic policy response It explores the ways in which AIDS has been constructed as a development problem and how AIDS knowledges and institutions have evolved and have shaped interventions in the AIDS sector Central to the analysis is a historical case study of Uganda

Laakso, 2016-01-13 This collection offers comprehensive insights into pivotal areas of concern regarding developments in Zimbabwe since its independence By disclosing the intra elite competition assessing the performance of Zimbabwe s economy and explaining how the country s natural resources have been managed we can better understand the ruling ZANU PF s increasing reliance on the so called war veterans and the land reform issue for its political survival

African Studies Review , 2003

The Potentiality of 'developmental States' in Africa Pamela Mbabazi, Ian Taylor, 2005 The Potentiality of Developmental States in Africa investigates the potential role of the state in Africa in promoting development in this era of globalisation Using Botswana and Uganda as case studies the volume argues that it is not the amount of state involvement in the economy that matters but the quality This set of original studies compares and contrasts issues that distinguish the two countries development record and style of activity of the state in promoting development Written by a collection of researchers drawn mainly from Botswana and Uganda this book argues that there are some elements of the developmental state model in both countries These elements have arguably contributed to some of the relative successes in the two states Contextualising the

case studies within the history and political economy of the respective countries the book is a valuable addition to the on going debate on the role nature and character of states in Africa A must read for students researchers politicians and development practitioners Book jacket **Choice** ,2002 **Transnational Democracy in Critical and Comparative Perspective** Bruce Morrison,2003 This book brings together two themes of enormous current intellectual and emotional impact democracy and its institutional forms and the globalization of economic social and cultural affairs The volume pursues the meaning of transnational democracy through an examination of the sources of novel democratic potential at multiple levels from the local to the global To a very great extent this task depends upon a critical analysis of state and nation formation state level democratization and transnational social movement emergence In engaging these complex issues the authors find themselves drawn into intellectual and geographic territories as diverse as European institutional and intellectual history North American and European trade agreements Canadian constitutionalism African state society relations and debates regarding the democratic peace While the coverage is global in its attention to transnational institutions and international non governmental organizations for instance it is also genuinely regional as it seeks out and critically assesses the potential building blocks for a more appropriately democratic future in the varied forms that the institutionalization of globalization assumes around the world **The Third World in the Global Governance System** Martin Hvidt,Morten Ougaard,2003 **Africa in World Politics** John W.
