Economic History Of Italy 1860 1990 Recovery After Decline:

The Economic History of Italy 1860-1990 Vera Zamagni, 1993-10-28 This book gives a full account of the economic and social history of Italy since unification 1860 with an introduction covering the previous period since the Middle Ages The Economic History of Italy represents a scholarly and authoritative account of Italy's progress from a rural economy to an industrialized nation The book makes a broad division of the period into three parts the take off 1860 1913 the consolidation in the midst of two wars and a world depression 1914 47 and the great expansion 1948 1990 Professor Zamagni traces the growth of industrialization and argues that despite several advanced areas Italy only became an industrialized nation after the Second World War and that during the 1980s the South was still clearly behind the rest of the country Zamagni analyses data both from a macroeconomic position in looking at the growth of the finance sector or the role of the State and from a microeconomic position when she draws conclusions from the changing population structure or from the actions of individual businesses Professor Zamagni reveals that even though the population more than doubled during this time the level of national income rose 19 fold to move Italy from a peripheral status in Europe to a central position as a prosperous country A central theme of the book is Professor Zamagni's argument that the Italian economy has been successful not by any great individuality of its own but by being flexible enough to incorporate the successes of other countries Japan's integrated business network for example or Germany's financial structure She places the industrialization of Italy in the international context by comparing Italy's GDP and other measures of prosperity at different times to the USA Japan the UK France and Germany The book is based on original field work by the author and the many detailed but small scale studies existing in Italian Quantitative trends are described in more than 70 tables of data while the book provides appendices containing chronologies of main events in various sectors and biographies

The Reinterpretation of Italian Economic History

Stefano Fenoaltea, 2011-06-30 Post unification Italy was part of a wider world within which men and money circulated freely it developed to the extent that those mobile resources chose to locate on its soil The economy's cyclical movements reflected conditions in international financial markets and were little affected by domestic policies State intervention restricted the internal and international mobility of goods and limited Italy's development it kept the economy weak reduced Italy's weight in the comity of nations and paved the way for the frustrations and adventurism that would plunge the twentieth century into world war

War, Massacre, and Recovery in Central Italy, 1943-1948 Victoria Belco, 2010-01-01 The Second World War wreaked unprecedented devastation throughout Europe necessitating monumental reconstruction efforts that burdened not only governments but the lives of ordinary citizens War Massacre and Recovery in Central Italy 1943 1948 examines this transitional period in the province of Arezzo by detailing the daily experiences of civilians through the traumas of war and the difficulties of recovery Studying the aftermath of war in a new and insightful way Victoria C Belco shifts the perspective from the national to the local level With this localized focus she provides valuable insight into the ways in which civilians coped

with an overwhelming range of problems from adjusting to Allied occupation and widespread displacement to rampant unemployment and the restructuring of local administrations and institutions after fascism. Recreating the post war atmosphere of disorder, need and political upheaval, Belco shows how the competing community interests caused social fragmentations that impeded change while the unity of a shared past prevented civil war.

Banking and Finance in the Mediterranean John A. Consiglio, Juan Carlos Martinez Oliva, Gabriel Tortella, Monika Pohle Fraser, Iain L. Fraser, 2016-12-05

This volume presents a panoramic picture of the many national and international trends and developments, factors, customs and events that have characterised banking in the Mediterranean area over the past two centuries. During this period, banking in the Mediterranean evolved distinct characteristics, several going well beyond the restricted realities of colonial relations. The range of issues covered by the book is extensive and includes both national banking evolution and pan-regional topics. The chapters touch upon various aspects of Iberian, Italian, French, Greek, Maltese, Moroccan and Ottoman banking history, focusing particularly on issues relating to central banking, numismatics, archival recording and pan-Mediterranean economic dynamics. The history of certain specific institutions is also considered, including the Imperial Ottoman Bank, The Ionian Bank, The Banque d'Etat du Maroc and others. Bringing together papers by leading banking and finance historians, which were first presented at the European Association for Banking History conference held in Malta in June 2007, this volume offers an invaluable insight towards a wider and more detailed understanding of the roles of banking and finance in Mediterranean economic history. Seen in a context of what has hitherto been something of a historical vacuum in terms of the coverage of much writing on European banking and financial history and the importance given to the Mediterranean region's banking history in its own right, this is an innovative book that both contributes towards our knowledge of the subject and establishes a pattern for further work in this important area of European economic history.

Political Institutions in Italy Maurizio Cotta, Luca Verzichelli, 2007

This book addresses a number of themes, paradoxes and problems inherent to Italian politics and considers the relationship between the Italian domestic system and the international system. It focuses on changes that have occurred in the last 10-15 years, contextualised within a longer historical framework including the post-war period.

Catholicism in Modern Italy John Pollard, 2008-06-30

John Pollard's book surveys the relationship between Catholicism and the process of change in Italy from Unification to the present day. Central to the book is the complex set of relationships between traditional religion and the forces of change. In a broad sweep, *Catholicism in Modern Italy* looks at the cultural, social, political and economic aspects of the Catholic church and its relationship to the different experiences across Italy over this dramatic period of change and modernisation.

The Fascist Experience in Italy John Pollard, 2005-07-22

This book examines the development of Italian Fascism and surveys the themes and issues of the movement. It includes fully integrated analysis, extensive notes on sources, a glossary and a useful guide to further reading.

Mass Culture and Italian Society from Fascism to the Cold War David A. Forgacs, Stephen Gundle, 2007

From the 1930s to the 50s in Italy, commercial

cultural products were transformed by new reproductive technologies and ways of marketing and distribution and the appetite for radio films music and magazines boomed This book uses new evidence to explore possible continuities between the uses of mass culture before and after World War II *Conservatives Versus Wildcats* Simone Polillo,2013-04-03 For decades the banking industry seemed to be a Swiss watch quietly ticking along But the recent financial crisis hints at the true nature of this sector As Simone Polillo reveals in *Conservatives Versus Wildcats* conflict is a driving force Conservative bankers strive to control money by allying themselves with political elites to restrict access to credit Barriers to credit create social resistance so rival bankers wildcats attempt to subvert the status quo by using money as a tool for breaking existing boundaries For instance wildcats may increase the circulation of existing currencies incorporate new actors in financial markets or produce altogether new financial instruments to create change Using examples from the economic and social histories of 19th century America and Italy two decentralized polities where challenges to sound banking originated from above and below this book reveals the collective tactics that conservative bankers devise to legitimize strict boundaries around credit and the transgressive strategies that wildcat bankers employ in their challenge to this restrictive stance

Corruption from a Regulatory Perspective Maria De Benedetto,2021-09-23 This book seeks to enrich and in some cases reverse current ideas on corruption and its prevention It is a long held belief that sanctions are the best guard against corrupt practice This innovative work argues that in some cases sanctions paradoxically increase corruption and that controls provide opportunities for corrupt transactions Instead it suggests that better regulation and responsive enforcement not sanctions offer the most effective response to corruption Taking both a theoretical and applied approach it examines the question from a global perspective drawing on in particular a regulatory perspective to provide a model for tackling corrupt practices

Fascism and the Masses Ishay Landa,2018-01-17 Highlighting the mass nature of interwar European fascism has long become commonplace Throughout the years numerous critics have construed fascism as a phenomenon of mass society perhaps the ultimate expression of mass politics This study deconstructs this long standing perception It argues that the entwining of fascism with the masses is a remarkable transubstantiation of a movement which understood and presented itself as a militant rejection of the ideal of mass politics and indeed of mass society and mass culture more broadly conceived Thus rather than massifying society fascism was the culmination of a long effort on the part of the lites and the middle classes to de massify it The perennially menacing mass seen as plebeian and insubordinate was to be drilled into submission replaced by supposedly superior collective entities such as the nation the race or the people Focusing on Italian fascism and German National Socialism but consulting fascist movements and individuals elsewhere in interwar Europe the book incisively shows how fascism is best understood as ferociously resisting what Elias referred to as the civilizing process and what Marx termed the social individual Fascism notably was a revolt against what Nietzsche described as the peaceful middling and egalitarian Last Humans **Accounting for War** Mark Harrison,2002-07-18 In this book Mark Harrison

rebuilds and analyses the Soviet economy's wartime statistical record examining its prewar size and composition and wartime changes in GNP employment the defence burden and the role of foreign aid Complementing classic long run growth studies the book compares the Soviet experience with that of other great powers It emphasises the severity of current costs and capital losses arising from the war which had a negative effect on GNP that persisted well after the end of the war The results are based on a comprehensive analysis of hitherto closed official documents shedding light on the dimensions of the Soviet war effort the comparative economics of the war and its long term impact on the Soviet economy *God's Bankers* Gerald Posner,2015-02-03 Revealing a history of mysterious deaths shady characters and moral and political tensions exposes the inner workings of the Catholic Church to trace how the Vatican evolved from an institution of faith into an extremely wealthy corporate power Publisher's description

The First Outstanding 50 Years of "Università Politecnica delle Marche" Sauro Longhi,Andrea Monteriù,Alessandro Freddi,Giulia Bettin,Silvio Cardinali,Maria Serena Chiucchi,Marco Gallegati,2020-01-03 The book describes significant multidisciplinary research findings at the Università Politecnica delle Marche and the expected future advances It addresses some of the most dramatic challenges posed by today's fast growing global society and the changes it has caused while also discussing solutions to improve the wellbeing of human beings The book covers the main research achievements made in the social sciences and humanities and includes chapters that focus on understanding mechanisms that are relevant to all aspects of economic and social interactions among individuals In line with Giorgio Fu's contribution the interdisciplinary research being pursued at the Faculty of Economics of Università Politecnica delle Marche is aimed at interpreting the process of economic development in all of its facets both at the national and local level with a particular focus on profit and non profit organizations Various disciplines are covered from economics to sociology history statistics mathematics law accounting finance and management *Health Care and Poor Relief in 18th and 19th Century Southern Europe* Ole Peter Grell,2017-07-05 In this volume various aspects of Southern European health care and poor relief are examined Issues of charity and medicine are discussed both in their national and wider European context By studying the crucial transitional period between the parish relief of the late medieval world and the state sponsored provision of the twentieth century much can be learned about how attitudes to the poor and sick changed over time and place Debt and Entanglements Between the Wars Mr.Thomas J Sargent,Mr.George Hall,Mr.Martin Ellison,Mr.Andrew Scott,Mr.Harold James,Ms.Era Dabla-Norris,Mark De Broeck,Mr.Nicolas End,Ms.Marina Marinkov,Vitor Gaspar,2019-11-08 World War I created a set of forces that affected the political arrangements and economies of all the countries involved This period in global economic history between World War I and II offers rich material for studying international monetary and sovereign debt policies Debt and Entanglements between the Wars focuses on the experiences of the United States United Kingdom four countries in the British Commonwealth Australia New Zealand Canada Newfoundland France Italy Germany and Japan offering unique insights into how political and economic interests influenced alliances

defaults and the unwinding of debts The narratives presented show how the absence of effective international collaboration and resolution mechanisms inflicted damage on the global economy with disastrous consequences **Power and the**

Governance of Global Trade Soo Yeon Kim,2011-02-23 In *Power and the Governance of Global Trade* Soo Yeon Kim analyzes the design evolution and economic impact of the global trade regime focusing on the power politics that prevailed in the regime and shaped its distributive impact on global trade Using documents now available from the archives of the General Agreement on Tariffs and Trade GATT Kim examines the institutional origins and critical turning points in the evolution of the GATT as well as preferences of the lesser powers of the developing world that were the subject of heated debate over the International Trade Organization ITO which failed to materialize Using quantitative analysis Kim assesses the impact of the global trade regime on international trade and finds that the rules of trade forged by the great powers resulted in a developmental divide in which industrialized countries benefited from trade expansion but developing countries reaped far fewer gains The findings indicate that a successful conclusion to the Doha Round of the World Trade Organization WTO is urgently needed to mitigate the developmental divide by increasing trade between the industrialized and developing worlds Kim offers a timely reading of the GATT WTO system as a way to think about how trade and globalization more broadly may be governed in this post Cold War century as the global economy contends with a new geopolitical configuration featuring rising powers from the developing world Important trading nations such as China India and other emergent actors in the G 20 countries Kim argues reflect the new power politics that will shape the course of global trade governance in the years to come *Pellagra and Pellagrous Insanity During the Long Nineteenth Century* David Gentilcore,Egidio
