Economics and the Idea of Mankind Bert Frank Hoselitz, Council for the Study of Mankind, 1965 Essays concerning production distribution and consumption on a world scale Economics and the Idea of Mankind. Edited by Bert F. Hoselitz. [By Various Authors.]. Bert Frank Hoselitz, 1965 **Economics and the Idea of Mankind** Bert F. Hoselitz, Edrt F. Hoselitz, 1965

Humanity and Nature in Economic Thought Gábor Bíró, 2021-11-29 Humanity and Nature in Economic Thought Searching for the Organic Origins of the Economy argues that organic elements seen as incompatible with rational homo economicus have been left out of or downplayed in mainstream histories of economic thought The chapters show that organic aspects that is aspects related to sensitive cognitive or social human qualities were present in the economic ideas of a wide range of important thinkers including Hume Smith Malthus Mill Marshall Keynes Hayek and the Polanyi brothers Moreover the contributors to this thought provoking volume reveal in turn that these aspects were crucial to how these key figures thought about the economy This stimulating collection of essays will be of interest to advanced students and scholars of the history of economic thought economic philosophy heterodox economics moral philosophy and intellectual history

Economics for Humanity Mitsuaki Okabe, 2024-08-26 Economics is often referred to as the queen of social sciences This is because mainstream economics has been established as an elegant academic discipline by assuming mankind simply to be homo economicus an image of human beings showing interest in only material fulfilment and acting solely in his interest This book challenges this basic perception of human beings By replacing it with a more realistic and multifaceted human motive as supported by research in various academic disciplines the book tries to provide a novel and more plausible picture of human society Specifically the book takes in such human aspects as pursuing well being forming human networks and the realisation of potential of ability Thus if we try to better understand human motives and the society it becomes necessary to replace the conventional two sector market government social model with a more general and theoretically superior social model the three sector model consisting of market government non profit sectors This book demonstrates the validity of this new view by utilising basic principles of economic policy and social welfare analyses Moreover the book has introduced a newly developing practical philosophy in Japan over the last 50 years to achieve both individual well being and better human society

A History of Economic Thought, 10th Edition Lokanathan V., This book provides a comprehensive coverage of the origin and development of economic thought from the ancient times to the present day It documents the contributions of major thinkers from the time of Hebrews to Maurice Dobb and the perspectives that influenced the economic thought The book also provides an account of the recent trends in Indian economic thought and will be of interest and relevance to all students and scholars of the subject It covers the syllabus of economic thought of major Indian universities Natural Law and the Theory of Economic System Fluidity David Mint, 2013 The debate between the merits of capitalism and socialism has once again moved from the quiet halls of academia to the forum of public discourse While these competing economic systems

choose differing means they both strive to achieve the same end A stateless utopia on earth Natural Law and the Theory of Economic System Fluidity provides the theoretical basis for allowing the strengths of each economic system to peacefully work together to achieve this end and examines both the natural laws which govern economics as well as the moral basis for the existence of the nation state

Human Nature in Modern Economics Anna Horodecka,2022-06-15 Human Nature in Modern Economics offers a precise definition of the concept of human nature in economics something that is so far lacking in the theoretical and methodological literature This book develops tools for the analysis of human nature through the construction of the author s meta model based on anthropological and psychological foundations allowing for comparisons of anthropological assumptions made in economic theories The model demonstrates that the normative functions of human nature may affect the economic reality The chapters argue that the concept of human nature determines our thinking about the economy and economics including fundamental methodologies methods and theories Thus the differences between various economic schools may result from the different assumptions of these schools about human nature Those evolving views of human nature proceed to explain the development of both orthodox mainstream and heterodox economics The book marks a significant addition to the literature on the history of economic thought heterodox economics economic theory and economic methodology For students it is a supplement to standard textbooks as it explains the current state of economics especially in its heterodox branches It will allow scholars to discover the importance of what they assume about human nature and how it may influence their research process

Human Nature and the Discipline of Economics Patricia Donohue-White,2002-01-01 Foundations of Economic Personalism is a series of three book length monographs each closely examining a significant dimension of the Center for Economic Personalism s unique synthesis of Christian personalism and free economic market theory In the aftermath of the momentous geo political and economic changes of the late 1980s a small group of Christian social ethicists began to converse with free market economists over the morality of market activity This interdisciplinary exchange eventually led to the founding of a new academic subdiscipline under the rubric of economic personalism These scholars attempt to integrate economic theory history and methodology with Christian personalism s stress upon human dignity humane social structures and social justice This second volume in the series surveys the anthropological foundations to the disciplines of economics and moral theology The first part of the book presents an overview of the German French and Polish branches of personalist thought Particular attention is given to theological anthropology especially as it is developed by such thinkers as Emmanuel Mounier Max Scheler Gabriel Marcel Karol Wojtyla and Emil Brunner Part two surveys models of human nature that have been espoused by various schools of free market thought including mainstream neoclassical economics In conclusion the authors demonstrate how an expanded understanding of human nature can augment the ability of economic science to model and predict human behavior

A New Education for a New Economy: From Human Capital to Human Flourishing Tal Gilead,2024-06-03 Providing an

in depth novel analysis of education s role in today s economy by scrutinizing its theoretical underpinnings this volume critiques the suitability of the current dominant economic framework for education and for shaping educational policymaking worldwide Critically examining the history and philosophy that underpin our present societal understanding of the link between economics and education the book argues for an urgent redefining of education s role in the economy based on intellectual foundations that significantly differ from our current dominant conceptions Across seven chapters the book posits that the adoption of a new philosophical framework the reshaping of economic and educational aims and the adjustment of our educational system are each necessary to better promote human flourishing Ultimately providing a platform to entirely reconsider the idea that the primary aim of education is to serve the economic system in particular economic growth this book will appeal to scholars researchers and postgraduate students studying educational policy the philosophy of education and the history of education more broadly Education policymakers and academics studying education and the economy may also find this book of interest

Comprehensive Economics XI S. A. Siddiqui,2011-02 *Human Progress Amid Resistance to Change* Joseph E. Pluta,2011-04 In building their profession around carefully selected interpretations of the work of Adam Smith Alfred Marshall and others mainstream economists have embraced such concepts as the invisible hand equilibrium consumer rationality the marginal productivity theory the inevitability of diminishing returns and the fiction of pure competition In contrast the evolutionary economics of Thorstein Veblen and Clarence Ayres challenges all of these concept as unproven and capable of telling us little or nothing about the actual operation of the economy Using the evolutionary framework Human Progress Amid Resistance to Change argues that all cultures since prehistory have faced two opposing forces technology including human knowledge and institutions rooted in ceremonialism The former is dynamic forward looking accepting of change cumulative one discovery builds on another and the major cause of human progress The latter is static and consists of all customs traditions superstitions rituals ceremonies taboos and past

binding religious beliefs that resist change The book illustrates in detail how these competing forces have interacted throughout the history of the human race and how mainstream economics fails to grasp the significance of their combined effects **Homo Novus - A Human Without Illusions** Ulrich J. Frey,Charlotte Störmer,Kai P. Willführ,2010-08-24

Converging evidence from disciplines including sociobiology evolutionary psychology and human biology forces us to adopt a new idea of what it means to be a human As cherished concepts such as free will na ve realism humans as creation s crowning glory fall and our moral roots in ape group dynamics become clearer we have to take leave of many concepts that have been central to defining our humanness What emerges is a new human the homo novus a human being without illusions Leading authors from many different fields explore these issues by addressing a range of illusions and providing evidence for the need despite considerable reluctance to relinquish some of our most cherished ideas about ourselves *Ancient and Medieval Economic Ideas and Concepts of Social Justice* Todd Lowry,Barry Gordon,2023-03-20 On March 17 2015 Brill was informed that the article by Francisco G mez Camacho S J Later Scholastics Spanish Economic Thought in the XVIth and XVIIth Centuries in *Ancient and Medieval Economic Ideas and Concepts of Social Justice* ed S Todd Lowry and Barry Gordon Leiden Brill 1998 pp 503 561 suffers from serious citation problems and that in some cases the original sources are never mentioned at all It goes without saying that Brill strongly disapproves of such practices which represent a serious breach of publication integrity Brill condemns any violation of the authors rights and the copyrights of the publishers and distances itself from these practices As a result Brill cannot stand behind the noted material as originally contained in this volume and for these reasons formally retracts the article by Francisco G mez Camacho and also the volume The volume will no longer be available in its current form Blurb 13 scholars contribute to this survey of past discussions of the workings of economic structures and of justice in interpersonal relations cultural institutions and the social order They investigate the sources in each historic period from the world of the Old Testament and the ancient Greeks through to Spanish scholasticism and its offshoots in the Spanish Americas of the 18th century and relate the ideas of writers from the past to modern discussions

The Evolution of Economic Ideas and Systems Geoffrey Schneider,2018-12-07 In order to fully understand the evolution and future growth of economic systems we must draw on the lessons of economic history The 2008 Financial Crisis for example mirrored past economic meltdowns with uncanny accuracy Just like the Great Depression of the 1930s and the Savings and Loan Crisis of the 1980s it featured deregulated lenders taking incredible risks with other people s money Historical analysis is crucial to understanding trends and patterns that can help us predict the future This text presents a ground breaking pluralistic introduction to economic history and the history of economic thought Tracing the development of economic systems and economic thought the text introduces students to the story from ancient times to contemporary capitalism and also its critics Focusing in particular on Smith Marx Veblen and Keynes the text encourages students to consider which ideas and systems are still relevant in the modern world This book can be used as a standalone text for

relevant classes or as a supplement in any principles course

Sustainable Action in Economy and Society Malte Faber,Reiner Manstetten,Marco Rudolf,Marc Frick,Mi-Yong Becker,2024-09-19 Climate change species extinction energy and raw material shortages are global challenges that are directly linked to our economic activity They affect our very existence and jeopardize our ability to lead a good life today and in the future both as a society and as individuals The range of questions for which we need answers seems limitless and finding the right path for global change increasingly utopian How do we maintain an overview in the face of highly complex interrelationships and interactions How can we distinguish the essential from the non essential What fundamental relationships in nature do we need to take into account What kind of economy is appropriate What is just And under what conditions are people willing to change This book offers orientation It deals with concepts from the natural sciences economics and philosophy including time thermodynamics scarcity responsibility and justice which enable an understanding of the upcoming transformation to sustainability from different perspectives Ideally they serve as guidelines for effective decisions and show how change is possible despite immense challenges The book is aimed at anyone who wants to contribute to the transformation towards sustainability whether in politics business administration or civil society
