Reynolds-Feighan,2012-12-06 1 1 A Brief History of U S Commercial Aviation Regulation and Deregulation The U S commercial aviation industry was regulated by the government for a period of 40 years beginning in 1938 with the passing of the Federal Aviation Act and ending in October 1978 when President Carter signed into law the Airline Deregulation Act ADA There were 16 airlines in existence when the Federal Aviation Act was passed in 1938 the so called trunk lines The Act established the Civil Aeronautics Authority CAA as the industry s regulatory body The Act was passed principally because it was felt that the free market if allowed to continue unregulated for much longer would put many of these firms into bankruptcy It is possible therefore to view the CAA of 1938 re organized into the Civil Aeronautics Board CAB in 1940 as a response to a potential market failure at the time In the 1930s few air traffic markets could have efficiently supported more than one airline operating in the market Panzar 1980 Competition among the carriers was cut throat and it was felt that the near bankruptcy of the airlines in the period was caused principally by the competitive bidding system used by the Post Office in allotting airmail subsidies Keeler 1972 Caves 1962 **Principles of Airport Economics** Senguttuvan,2016-11 Index of Conference Proceedings Received British Library.
