The Economics of Regional Trading Arrangements Richard W. T. Pomfret, 2001 Regionalism became a major issue in international commercial diplomacy during the 1990s The European Union's 1992 program the formation of NAFTA and attempts to form or strengthen regional trading arrangements in South America southern Africa and Southeast Asia were all viewed as challenges to the nondiscrimination principle that had been the cornerstone of the postwar international trading system This book provides a unified analysis of policies which discriminate among trading partners featuring ample treatments of both history and theory as well as a review of empirical studies

Wilbur Schramm and Noam Chomsky Meet Harold Innis Robert E. Babe, 2015-04-21 Wilbur Schramm and Noam Chomsky Meet Harold Innis is an original critical in depth analysis of the media and communication thought of Canada's most highly acclaimed scholar Harold Adams Innis Even in Canada however Innis's writings until now have been only partially cited and interpreted Innis is usually stereotyped as being merely an economic historian fixated on previous civilizations whereas in fact he was an astute analyst whose main concerns were with present problems and future trajectories In the United States meanwhile Innis's media and communication writings have been quite neglected and even denigrated Drawing on Innis's less frequently cited work including his long neglected Political Economy in the Modern State Robert Babe opens up Innis's media scholarship as

a whole unfolding it in startling critical yet ultimately appreciative ways By comparing Innis s media scholarship with Wilbur Schramm s and Noam Chomsky s moreover Babe tests the claims positions and modes of analysis not only of Innis but also of the other two celebrated scholars as well casting new light on their works and allowing the reader to imagine what sort of discourses might have been possible had the three been in conversation together Wilbur Schramm and Noam Chomsky Meet Harold Innis provides comparative insight into foundational media scholarship in the United States and Canada and explores in some detail the relevance of Innis for twenty first century digitized society Continentalizing Canada Gregory J. Inwood,2005-01-01 Free trade has been a highly contentious issue since the Conservative government of Brian Mulroney negotiated the first deal with the United States in the 1980s Tracing the roots of Canada s contemporary involvement in North American free trade back to the Royal Commission on the Economic Union and Development Prospects for Canada in 1985 also known as the Macdonald Commission Gregory J Inwood offers a critical examination of the commission and how its findings affected Canada s political and economic landscape including its present day reverberations Using original research including content analysis interviews archival information and surveys of relevant literature Inwood argues that the Macdonald Commission created an atmosphere and political discourse that made the continentalization of Canada possible by way of free trade agreements with the U S and Mexico Through the use of a suspect research program and with the aid of a select oligarchy within the Commission and the government bureaucracy opposition to continentalism from both the majority of the Canadian population and even several commissioners was ignored Accessible to readers interested in Canadian politics policy or economy Continentalizing Canada offers a thorough examination into the Macdonald Commission and the resulting discourse in the Canadian political economy
