Non-Western Cultures Helaine Selin,1997-07-31 The Encyclopaedia fills a gap in both the history of science and in cultural
stud ies Reference works on other cultures tend either to omit science completely or pay little attention to it and those on the
history of science almost always start with the Greeks with perhaps a mention of the Islamic world as a trans lator of Greek
scientific works The purpose of the Encyclopaedia is to bring together knowledge of many disparate fields in one place and to
legitimize the study of other cultures science Our aim is not to claim the superiority of other cultures but to engage in a
mutual exchange of ideas The Western aca demic divisions of science technology and medicine have been united in the
Encyclopaedia because in ancient cultures these disciplines were connected This work contributes to redressing the balance
in the number of reference works devoted to the study of Western science and encourages awareness of cultural diversity
The Encyclopaedia is the first compilation of this sort and it is testimony both to the earlier Eurocentric view of academia as
well as to the widened vision of today There is nothing that crosses disciplinary and geographic boundaries dealing with both
