DNA of the Gods Chris H. Hardy,2014-03-21 An in depth study of humanity s Anunnaki origins and the Anunnaki battle for an intelligent versus enslaved humanity Explains the genetic engineering of humanity by an Anunnaki scientist Ninmah Shows how the concepts of sin and the inferiority of women arose from Enlil s will to keep humanity underdeveloped clashing with Enki s and Ninmah s plan to make us equal in intelligence Reveals how humanity s long history of conflict was shaped by the battle between Enki and his brother Enlil Further developing the revolutionary work of Zecharia Sitchin Chris Hardy shows that the gods of ancient myth visitors from the planet Nibiru created us using their own divine DNA first through DNA extraction from their own ribs marrow and later by direct relations with early human females Drawing upon multiple sacred texts Hardy details the genetic engineering of humanity by Anunnaki scientist Ninmah with the help of Enki and Hermes She reveals how Ninmah s first female human creation Tiamat Eve contained more alien DNA than the earlier male one Adamu and how the biblical Noah represents the perfection of her work Examining the war between Anunnaki brothers Enki and Enlil Hardy reveals how the concepts of sin and the inferiority of women were born out of Enlil s attempts to enslave and then wipe out humanity repeatedly thwarted by Enki and Ninmah The author further explains how the sacred sexuality taught to humans still seen in Tantric practice became suppressed millennia later by the patriarchal concept of original sin and how innocent Eve took the blame for the expulsion from Eden and fall from Grace Showing that the god who created us was not the same god who expelled us from Eden Hardy explains that there will be no apocalypse because the Good Evil duality has never truly existed it has been only enemy gods fighting and implicating humanity in the wake of their own competition for power With a full psychological understanding of how the ancient gods have shaped humanity s ongoing history of conflict we can move beyond the framework of my Good versus your Evil imposed by Enlil and begin to steer our own planetary destiny

Magicians of the Gods Graham Hancock, 2015-11-10 The evidence revealed in this book shows beyond

reasonable doubt that an advanced civilization that flourished during the Ice Age was destroyed in the global cataclysms between 12 800 and 11 600 years ago But there were survivors known to later cultures by names such as the Sages the Magicians the Shining Ones and the Mystery Teachers of Heaven They travelled the world in their great ships doing all in their power to keep the spark of civilization burning They settled at key locations Gobekli Tepe in Turkey Baalbek in the Lebanon Giza in Egypt ancient Sumer Mexico Peru and across the Pacific where a huge pyramid has recently been discovered in Indonesia Everywhere they went these Magicians of the Gods brought with them the memory of a time when mankind had fallen out of harmony with the universe and paid a heavy price A memory and a warning to the future Provided by publisher *Antichrist Osiris: the History of the Luciferian Conspiracy* Chris Relitz,2012-06-01 The Legends of many cultures claim that the world was once destroyed in a cataclysmic flood Many cultures also claim that someday the world will again be destroyed in a similar fashion In the Bible we are told that the disciples once asked Jesus if there would be a warning sign prior to this destructive event He said that there would indeed a sign Jesus said that whatever was happening in the Days of Noah will happen again before the end of this age The Bible has only a few verses about Noah s Flood So we are forced to turn to the ancient flood legends of over 350 other cultures to learn more about this prophecy But Noah s days did not end with the flood he lived for many years afterward He saw the creation of a tower in Babylon This is interesting because the Freemasons claim that their Order originated here Here is the most thorough examination of Freemasonry ever undertaken using their own texts to solve the Days of Noah prophecy **Mythologizing the Past** Sean Rafferty,2024-12-27 This book examines the origins development and current state of myths surrounding lost civilizations and more importantly how these myths contribute to modern political ideologies By examining the myths legends and scientific record concerning Atlantis the Vikings the Anglo Saxons and the Celts pre Contact North America and the Aryans this book reveals the faulty science logical fallacies anti intellectualism and outright racism motivating the recurrent interest in them It delineates the development of pseudohistory from its allegorical Classical origins through renaissance and enlightenment literature to nineteenth century popular writing and finally to modern pseudoscience It describes how at every stage pseudohistory has been used to reinforce and reproduce dominant ideologies by marginalizing subordinate groups in favor of social elites This book is ideal not only for the general reader interested in world history but also for courses across the humanities including pseudoarcheology historiographic and scientific methods and classics Metamorphosis through Conscious Living Ingo B. Jahrsetz,Lindy McMullin,2017-08-21 Metamorphosis the theme of this book derives from the Ancient Greek language and refers to a transformative process that often includes disintegration and reintegration on the route to conscious living with self community and the world This collection proposes that engagement with the sacred is what makes research and practice transpersonal the sacred other that lives both within and beyond us as individuals and unique cultures The transpersonal approach is distinctive in that it regards the potential metamorphosis of all those involved in research and professional

practice a core value This volume engages the audience in professional practical as well as inquiry related topics that reflect the diverse nature of the transpersonal studies field and extend an experience of metamorphosis to the reader The book moves scholarship forward in an innovative and creative way with relevant themes that not only honour the sacred but lend a transpersonal paradigm to scientific and professional methods and models
