Twentieth-Century Ireland (New Gill History of Ireland 6) Dermot Keogh, 2005-09-27 Professor Dermot Keogh's *Twentieth Century Ireland* the sixth and final book in the *New Gill History of Ireland* series is a wide ranging informative and hugely engaging study of the long twentieth century surveying politics administrative history social and religious history culture and censorship politics literature and art It focuses on the consolidation of the new Irish state over the course of the twentieth century Professor Keogh highlights the long tragedy of emigration its effect on the Irish psyche and on the under performance of the Irish economy He emphasises the lost opportunities for reform of the 1960s and early 70s Membership of the EU had a diminished impact due to short term and sectionally motivated political thinking and an antiquated government structure Professor Keogh looks at how the despair of the 1950s revisited the country in the 1980s as almost an entire generation felt compelled to emigrate very often as undocumented workers in the United States Professor Keogh also argues that the violence in Northern Ireland from the late 1960s was an Anglo Irish failure which was turned around only when Britain acknowledged the role of the Irish government in its resolution He extends his analysis of the twentieth century to include a wide ranging survey of the most contentious events financial corruption child sexual abuse scandals in the Catholic Church between 1994 and 2005

Irish Catholicism Since 1950 Louise Fuller, 2004 Louise Fuller sets the Church's role in its historical perspective before considering the triumphant institution of the 1950s It was a Church of piety and ritual mass attendance church building processions pilgrimages the erection of crosses statues and grottos the widespread dissemination of devotional literature and the cult of indulgences were its distinguishing characteristics The rising prosperity of the 60s plus the effects of the Vatican Council began the liberalisation of Irish society The bishops reacted defensively Their conservatism stimulated the emergence of a Catholic intelligentsia propagating more liberal attitudes and championing the new theology The 70s and 80s saw a Church more open to liberation theology to ecumenism and to issues of justice and peace generally albeit change was gradual and piecemeal The real revolution did not come until the 1990s when a succession of clerical sexual scandals fatally subverted the unique moral authority of the Church which had been its greatest strength
