Fire Salt Peace Intentional Christian Communities Alive In North America:

Fire, Salt, and Peace David Janzen, 1996 Here in one volume you can gain a bird's eye view of communities that survived the 80s Part directory part anthology and part introduction to communal living this is probably the best guide to Christian communities in the US and Canada on the market The main body of the text is based on survey material sent to the editor from the groups he chose to feature which allows the reader to hear community members themselves Includes several insightful essays on communal living and on the probable roots of community failure and success [The Intentional Christian Community Handbook](#) David Janzen, 2012-11-01 This is a book that we've needed for a long long time This is a book for people who long for community and for people who've found it for young seekers and for old radicals Like a farmer's almanac or a good cookbook it's a guide that doesn't tell you what to do but rather gives you the resources you need to find your way together with friends in the place where you are We couldn't be more grateful to have a book like this And we couldn't be happier to share it with you Shane Claiborne and Jonathan Wilson Hartgrove In the 21st century a new generation of Spirit energized people are searching for a new yet ancient way of life together David Janzen a friend of the New Monasticism movement with four decades of personal communal experience has visited scores of communities both old and new The Intentional Christian Community Handbook shares his wisdom as well as the experience of intentional Christian communities across North America over the last half century *The Church on the Margins* Mary R. Sawyer, 2003-07-24 Examines the state of the American Christian community from a cross cultural perspective **Imagine Nation** Peter Braunstein, Michael William Doyle, 2013-07-04 Amidst the recent flourishing of Sixties scholarship Imagine Nation is the first collection to focus solely on the counterculture Its fourteen provocative essays seek to unearth the complexity and rediscover the society changing power of significant movements and figures [Communes in America, 1975-2000](#) Timothy Miller, 2019-03-26 *Communes in America 1975-2000* is the final volume in Miller's trilogy on the history of American intentional communities Providing a comprehensive survey of communities during the last quarter of the twentieth century Miller offers a detailed study of their character scope and evolution Between 1975 and 2000 the American communal experience evolved dramatically in response to social and environmental challenges that confronted American society as a whole Long accepted social norms and institutions family religion medicine and politics were questioned as the divorce rate increased interest in spiritual teachings from Asia grew and alternative medicine gained ground Cohousing flourished as a response to an increasing sense of alienation and a need to balance community and private lives At the same time Americans became increasingly concerned with environmental protection and preservation of our limited resources In the face of these social changes communal living flourished as people sought out communities of like minded individuals to pursue a higher purpose Organized topically each chapter in the volume provides basic information about various types of communities and detailed examples of each type from ecovillages and radical Christian communities to pagan communes and cohousing

experiments Miller also takes a step back to look at the prevalence of communal living in American life over the twentieth century Based on exhaustive research Miller s final volume provides an indispensable survey and guide to understanding utopianism s enduring presence in American culture *Exploring the Future of Christian Monasticisms* Greg Peters,2020-01-15 The institution of monasticism in the Christian Church is in general decline at least in so called first world nations Though there are many reasons for this monastic leaders are confronted by the reality of fewer communities monks and nuns nonetheless At the same time many younger Christians are rediscovering the rich heritage of the monastic tradition Though they themselves might not be called to join a traditional monastery they are eager to appropriate monastic practices in their own lives This had led to a movement known as the new monasticism or secular monasticism Despite lacking a unified vision and any central organization these new secular monastics are attempting in their own ways to carry on the tradition and practices of Christian monasticism As well there is a movement within historical Christian monasteries to pour new wine into old wineskins Traditional forms of monasticism are also generally flourishing in developing nations breathing new life into monasticism This volume looks at the current monastic landscape to assess where monasticism stands and to imagine ways in which it will grow in the future leading not only to a renewed Christian monasticism but to new monasticisms **Spiritual and Visionary Communities** Timothy Miller,2016-04-01 Exploring religious and spiritual intentional communities active in the world today *Spiritual and Visionary Communities* provides a balanced introduction to a diverse range of communities worldwide Breaking new ground with its focus on communities which have had little previous academic or public attention the authors explore a part of contemporary society which is rarely understood Communities studied include Israeli kibbutzim Mandarom the Twelve Tribes The Farm and the Camphill movement Written from a range of perspectives this collection includes contributions from members of the groups themselves former members and academic observers and as such will offer a unique and invaluable discussion of religious and spiritual communities in the U S Europe and beyond *Once Upon a Time There Was a Three-Year-Old Grandpa* David Janzen,2024-07-18 This eccentric title recalls a collection of tales first told to grandchildren at bedtime Each chapter begins with a fun to read farmer boy story from the 1940s an era before industrial farming when horses cows and chickens were still members of the family These anecdotes each launch a theme that splashes down with further development in later decades of life Diverse topics include imaginative play construction crew humor animal intelligence contemplative prayer and journal writing rural and urban farming communal wisdom and affordable housing along with a few serious pranks and the prophetic mischief that follows This memoir is also a confession in the pattern of Augustine reflecting on God s in breaking initiatives and the writer s emerging sense of calling in lifelong conversation with Jesus Its stories offer a series of curiosity driven on ramps into eight decades of transformative experiences for curious souls to ponder an open eyed faith and a communal way of life for the long haul

Missional Fidelity of MoveIn Micah Kim,2023-03-06 How can the church go beyond mere social services to having an

incarnational evangelistic impact on unreached urban immigrants This work explores how MoveIn a global prayer movement of regular lay Christians has become a model for how the church can authentically and radically share the gospel with unreached neighbors *The Rise and Fall of Synanon* Rod Janzen,2023-10-03 The definitive account of Synanon On a fall day in 1978 Los Angeles attorney Paul Morantz reached into his mailbox to collect his mail and was nearly killed He was bitten by the four foot long rattlesnake that had been put there by members of a cultlike group called Synanon Chuck Dederich a former Alcoholics Anonymous member who coined the phrase Today is the first day of the rest of your life established Synanon as an innovative drug rehabilitation center near the Santa Monica beach in 1958 Synanon quickly evolved into an experimental commune and religion that attracted thousands of members and was strongly committed to social justice and progressive education Twenty years later when Dederich was arrested for the Morantz attack Synanon had devolved into a paranoid community that followed its egomaniacal leader in whatever direction he chose to take Based on extensive primary sources and interviews with former members *The Rise and Fall of Synanon* explores how the group arose in the context of American social political and economic trends Historian Rod Janzen argues that Synanon s downfall resulted from members giving too much power to Synanon s charismatic founder The subject of a new documentary and podcast this community serves as a mesmerizing case study of how alternative societies can change over time and how the general public s reactions to such societies can shift from tolerance to fear and opposition **Hospitality and Community After**

Christendom Andrew Francis,2012-09-01 This book aims to show how nurturing hospitality in the discipleship community leads to growth It seeks to re examine the challenge biblically and in radical Christian movements presented by the pre Christendom church in its patterns of hospitality and community to so re work these to be more effective in mission personally and corporately after Christendom The book re examines Jesus intentions the wider biblical material and congregational practices of sharing Communion as well as drawing on radical church history to demonstrate that despite increasing marginalization hospitality and community are essential to the church s nature well being and mission It goes on to use many practical examples as well as leadership strategies to enable congregations to restore hospitality and community to its necessary place It also provides an accessible theology as well as some original liturgies to underpin Christian life as we move forward after Christendom Spiritual and Visionary Communities Professor Timothy Miller,2013-03-28 Exploring religious and spiritual intentional communities active in the world today *Spiritual and Visionary Communities* provides a balanced introduction to a diverse range of communities worldwide Breaking new ground with its focus on communities which have had little previous academic or public attention the authors explore a part of contemporary society which is rarely understood Communities studied include Israeli kibbutzim Mandarom the Twelve Tribes The Farm and the Camphill movement Written from a range of perspectives this collection includes contributions from members of the groups themselves former members and academic observers and as such will offer a unique and invaluable discussion of religious

and spiritual communities in the U S Europe and beyond **Seasons of Love** Eleanor Sampeck,2004 Twenty five years ago an extended family made a return to nature move to the country This magical book is the record of their struggles and growth The book achieves its vividly realistic tone by covering the family s lived experience from joy to sorrow life and death and lofty to such mundane details as manure for the garden Its pages are populated by four generations unusual in a time when the nuclear family is everything Although the work is supported by sound theological and psychological theory it never lingers too long in these realms but continues to continue the daily drama of one family s risky living of the gospel **Rich Christians in an Age of Hunger** Ronald J. Sider,2005-04-10 Do you want to make a true difference in the world Dr Ron Sider does He has since before he first published *Rich Christians in an Age of Hunger* in 1978 Despite a dramatic reduction in world hunger since then 34 000 children still die daily of starvation and preventable disease and 1 3 billion people worldwide remain in abject poverty So the professor of theology went back to re examine the issues by twenty first century standards Finding that Conservatives blame morally reprehensible individual choices and Liberals blame constrictive social and economic policy Dr Sider finds himself agreeing with both sides In this new look at an age old problem he offers not only a detailed explanation of the causes but also a comprehensive series of practical solutions in the hopes that Christians like him will choose to make a difference *The Routledge Companion to Alternative Organization* Martin Parker,George Cheney,Valérie Fournier,Chris Land,2014-01-03 Despite the Great Recession slightly different forms of global capitalism are still portrayed as the only game in town by the vast majority of people in power in the world today Unbridled growth trade liberalisation and competition are advocated as the only or best ways of organizing the contemporary world Unemployment yawning gaps between rich and poor political disengagement and environmental devastation are too often seen as acceptable side effects of the dominance of neo liberalism But the reality is that capitalism has always been contested and that people have created many other ways of providing for themselves This book explores economic and organizational possibilities which extend far beyond the narrow imagination of economists and management theorists Chapters on co operatives community currencies the transition movement scrounging co housing and much more paints a rich picture of the ways in which another world is not only possible but already taking shape The aim of this companion is to move beyond complaining about the present and into exploring this diversity of organisational possibilities Our starting point is a critical analysis of contemporary global capitalism is merely the opening for thinking about organizing as a form of politics by other means and one that can be driven by the values of solidarity freedom and responsibility This comprehensive companion with an international cast of contributors gives voice to forms of organizing which remain unrepresented or marginalised in organizational studies and conventional politics yet which offer more promising grounds for social and environmental justice It is a valuable resource for students activists and researchers interested in alternative approaches to economy and society in a variety of disciplinary and interdisciplinary fields **Making Room, 25th anniversary edition** Christine D.

Pohl, 2024-01-16 Hospitality is the heart of Christian ministry To the early Christians hospitality was central to the gospel mission This hospitality did not consist of entertaining neighbors but welcoming the stranger especially those who could not return the favor Yet despite urgent need hospitality has fallen by the wayside Christine Pohl's classic work *Making Room* first spoke to this issue in 1999 And it is just as relevant today with the refugee crisis the rise in homelessness and growing loneliness and isolation This revitalized edition with a new foreword and afterword by the author introduces the theology of hospitality to a new generation Pohl combines rich biblical and historical research with experience in contemporary Christian communities including the Catholic Worker L Abri Good Works Inc and others Pragmatic and thoughtful Pohl deals frankly with both the blessings and the boundaries of hospitality Readers will find a wealth of wisdom to revive authentic hospitality in their ministry

Finding Community Diana Leafe Christian, 2007-05-01 Finding community is as critical as obtaining food and shelter since the need to belong is what makes us human The isolation and loneliness of modern life have led many people to search for deeper connection which has resulted in a renewed interest in intentional communities These intentional communities or ecovillages are an appealing choice for like minded people who seek to create a family oriented and ecologically sustainable lifestyle a lifestyle they are unlikely to find anywhere else However the notion of an intentional community can still be a tremendous leap for some deterred perhaps by a misguided vision of eking out a hardscrabble existence with little reward In fact successful ecovillages thrive because of the combined skills and resources of their members Finding Community presents a thorough overview of ecovillages and intentional communities and offers solid advice on how to research thoroughly visit thoughtfully evaluate intelligently and join gracefully Useful considerations include Important questions to ask of members and of yourself Signs of a healthy and not so healthy community Cost of joining and staying Common blunders to avoid Finding Community provides intriguing possibilities to readers who are seeking a more cooperative sustainable and meaningful life Diana Leafe Christian is the author of *Creating a Life Together* and editor of *Communities* magazine She lives at Earthhaven Ecovillage in North Carolina
