*Aircraft Carriers* David Jordan, 2002-09 Profiles aircraft carriers and their evolution from the early 1920s through to the present provides first hand accounts of missions and includes seven gatefold illustrations **Leveraging America's Aircraft Carrier Capabilities** John Gordon, 2006 As the United States seeks ways to stretch its defense dollars pursue the Global War on Terrorism and meet other national security challenges it is highly likely that policymakers will increase their reliance on aircraft carriers using them more often and in more situations than they have in the past especially if the vessels have the additional capabilities to respond appropriately The current and expected use of aircraft carriers led the United States Navy in fall 2004 to commission RAND to explore new and nontraditional ways that the United States might be able to employ aircraft carriers in pursuit of traditional and emerging military and homeland defense missions Over six months RAND created and convened two Concept Options Groups COGs small groups of experienced military and civilian experts defense analysts and potential users who work together to identify promising ways to employ military might in nontraditional ways to explore possible nontraditional roles for aircraft carriers One COG explored and identified new ways that aircraft carriers could be used in combat operations the second COG examined ways that the vessels could be used in noncombat homeland security missions or to help the nation recover from terrorist attacks or natural disasters in U S territories Among the combat recommendations to come from the COG insights are that abilities need to be enhanced to reconfigure carrier air wings among noncombat recommendations are that the availability of nonready carriers to respond to unforeseen crises needs to be improved This monograph summarizes the activities findings and recommendations of both carrier COGs It should be of special interest to the Navy and to uniformed and civilian decisionmakers with responsibilities related to naval and carrier operations maritime domain awareness or homeland security **Navy Aircraft Carriers** United States. General Accounting Office, 1998 **Navy aircraft carriers costeffectiveness of conventionally and nuclearpowered carriers : report to congressional requesters** , American Carrier Air Power at the Dawn of a New Century Benjamin S. Lambeth, 2006-05-22 In the Afghanistan war U S carrier based fighters substituted almost entirely for land based theater air forces The Navy s carriers again played a key role in conducting around the clock operations against Saddam Hussein s forces in Iraq American carrier air power is now able to conduct coordinated deep strike missions well beyond coastal reaches The Navy s performance over Afghanistan and Iraq showed how the nation s carrier force can provide around the clock target coverage consistently accurate target attack and multiple successful target attacks per sortie **Evolution of Aircraft Carriers** Scot MacDonald, 1964 *Navy Carrier Battle Groups* United States. General Accounting Office, 1993 **The U.S. Aircraft Carrier Industrial Base Force Structure, Cost, Schedule, and Technology Issues for CVN 77** , 1998 This report documents the methods and findings of RAND research on the adequacy of the defense industrial base to support further construction of aircraft carriers and on the cost schedule and technology issues associated with building the

next carrier designated CVN 77 If the current carrier force size of 12 ships is to be maintained and if a decay in the quality of basic capabilities is to be avoided CVN 77 cannot be started more than a year or so beyond the currently planned date of 2002 The earlier CVN is started the less it will cost Increasing the build duration from the planned 6 5 years to 8 5 years will also reduce costs However timing should not greatly affect the survival of suppliers of carrier components The report recommends beginning ship fabrication before 2002 which could save hundreds of millions of dollars ordering contractor furnished equipment in advance of shipyard start a savings of tens of millions and investment in R D directed toward adapting production processes and engineering improvements that could reduce the cost of carrier construction operation and maintenance and manning In fact the costs involved in building and operating carriers are so huge that the Navy should consider establishing a stable annual R D funding level for these ships *U.S. Aircraft Carriers in Action* Robert Stern,1991
