source material Butterworth encourages the reader to rediscover and reappraise the actors magicians wainwrights and wheelwrights pyrotechnists and in modern terms the special effects people and event managers who brought these early texts to theatrical life on busy city streets and across open arenas The chapters variously explore and analyse the important backwaters of material culture that enabled facilitated and shaped performance yet have received scant scholarly attention It is here among the itemised payments to carpenters and chemists the noted requirements of mechanics and wheelwrights or tucked away among the marginalia of suppliers of staging and ingenious devices that Butterworth has made his stamping ground This is a fascinating introduction to the very nuts and bolts of early theatre Staging Playing Pyrotechnics and Magic Conventions of Performance in Early English Theatre is a closely argued celebration of stagecraft that will appeal to academics and students of performance theatre history and medieval studies as well as history and literature more broadly It constitutes the eighth volume in the Routledge series Shifting Paradigms in Early English Drama Studies and continues the valuable work of that series of which Butterworth is a general editor in bringing significant and expert research articles to a wider audience CS 1105 Pyrotechnics Alexander Paul Hardt,2001 **Selected Pyrotechnic Publications of K.
