Economic Development In Iran 1900 1970:

Economic Development in Iran, 1900-1970 Julian Bharier, 1971 *Labour History and the Economy in Iran* Mary Yoshinari, Serhan Afacan, 2025-02-20 Iran underwent major economic changes in the twentieth century but these have to date largely been studied in the context of oil centralization and revolutions This book examines Iran's economic development and the people who made it possible from the late Qajar period to the Revolution of 1979 Containing a wide spectrum of historical viewpoints and methodologies the book uses previously understudied Iranian archives to examine the economic and labour history of Iran together By doing so the chapters in the book show that Iranian workers had distinct experiences depending on the sector and decade of their employment Other topics covered include the private sector the emergence of social security the effects of economic development on traditional workers and the role of other local economic actors particular to Iran in development family businesses international trade relations worker histories and events in the provinces It will be of appeal to scholars and students of the history economics labour sociology and politics of Iran and the Middle East *The Economic Development of Iran* Robert E. Looney, 1973 Monograph on the economic development and evolution of economic policy in Iran Islamic Republic examines economic growth monetary policy fiscal policy tax reform the balance of payments petroleum exports industrial development industrial policy the decentralization of manufacturing activities etc and includes projections to 1981 Bibliography pp 194 to 199 references and statistical tables **Society, Politics and Economics in Mazandaran, Iran 1848-1914** Mohammad Ali Kazembeyki, 2013-07-04 This book is the first major study of provincial history in the Qajar period Drawing extensively on unpublished Iranian and British documents it explores the history of Mazandaran a province in the Caspian region during 1848 1914 when the province as a part of Iran was exposed to the policies of rival great powers particularly Tzarist Russia While showing socio economic characteristics of Mazandaran and its potential for development the book examines in detail the transformation of the traditional provincial community and economy in the course of the 19th and early 20th centuries *The Foreign Relations of Iran* Sepehr Zabih, Shahram Chubin, 2023-11-15 This study of the foreign relations of a small state in a zone of Great Power conflict focuses on the evolution of Iranian foreign policy from a struggle for national survival to the achievement of preponderance in an otherwise unstable region The topic is of special interest because of the continuing proliferation of new actors on the international stage and the paucity of published studies of their foreign affairs It is also particularly timely because of the increasing importance of the Persian Gulf and of oil in world politics Recognizing that international politics exercises a major influence on the diplomacy of a small state by imposing constraints as well as offering options the author argue that the success of Iranian diplomacy in achieving a balanced international posture and a strong regional policy is primarily a result of two factors the gradual transformation of Soviet policy toward Iran from expansionism to accommodation and Iran's enhanced economic and political capabilities A perceptive interpretation of the international political environment and a realistic

recognition of the constraints and opportunities involved have redounded to the advantage of Iran. Consequently Iran has been able to use its proximity to a Great Power with a long history of expansionist aspirations in order to pursue a posture of de facto nonalignment without abandoning a generally pro Western orientation. The authors have designed their book to provide a detailed case study of Iranian foreign policy within an analytical framework conducive to theorizing about the foreign policy of other comparable small states. Previous treatments of the subject have ignored insights afforded by contemporary international relations and have been largely historical and descriptive. The present volume taking a different approach should serve both the specialist on Iranian affairs and the student of international relations and comparative foreign policy. This study of the foreign relations of a small state in a zone of Great Power conflict focuses on the evolution of Iranian foreign policy from a struggle for national survival to the achievement of preponderance in an otherwise unstable region. The topic

The Political Economy of Iran Under the Qajars Hooshang Amirahmadi, 2012-06-28 The political economy of Iran underwent the fundamental transition from feudalism to modernity from the early 19th to the 20th century a period which was a vital watershed in Iran's historical development. This book provides a critical analysis of Iran's economic, social and political development and shows how the path to modernity far from smooth was hindered by both internal and international factors. These included a powerful monarchy with little interest in administrative and economic reform, a large aristocracy frequently holding vital provincial governorships and frustrating effective central government and a failure to create a modern civil service, military, banking, finance or communications, the essential infrastructure for economic development. Reformers were marginalised and business suffered. And the all powerful ulema were a further brake on modernisation. On the international front the rivalry of Britain and Russia compounded the problems both acting to control Iran and to further their own interests. Hooshang Amirahmadi explores the roots of present day challenges to modernisation and progress and using a wealth of primary sources and original research has produced a work which is invaluable for students of modern Iranian history, politics and Iran's political economy.

A History of Slavery and Emancipation in Iran, 1800-1929 Behnaz A. Mirzai, 2017-05-16 The first history of slavery in this key Middle Eastern country and how it shaped the nation's unique character. Slavery in the Middle East is a growing field of study but the history of slavery in a key country Iran has never before been written. This history extends to Africa in the west and India in the east to Russia and Turkmenistan in the north and to the Arab states in the south. As the slave trade between Iran and these regions shifted over time it transformed the nation and helped forge its unique culture and identity. Thus a history of Iranian slavery is crucial to understanding the character of the modern nation. Drawing on extensive archival research in Iran, Tanzania, England and France as well as fieldwork and interviews in Iran, Behnaz A. Mirzai offers the first history of slavery in modern Iran from the early nineteenth century to emancipation in the mid twentieth century. She investigates how foreign military incursion, frontier insecurity, political instability and economic crisis altered the patterns of enslavement as well as the ethnicity of the

slaves themselves Mirzai s interdisciplinary analysis illuminates the complex issues surrounding the history of the slave trade and the process of emancipation in Iran while also giving voice to social groups that have never been studied enslaved Africans and Iranians Her research builds a clear case that the trade in slaves was inexorably linked to the authority of the state During periods of greater decentralization slave trading increased while periods of greater governmental autonomy saw more freedom and peace This is a major contribution to the study of enslavement in Iran which will doubtlessly become a must read for any future studies of Middle Eastern and Islamic enslavement and abolition as well as for any work on Iranian history in general Ehud R Toledano Tel Aviv University author of *As If Silent and Absent Bonds of Enslavement in the Islamic Middle East* While this book will be revelatory to scholars of Iran it also promises to engage with theoretical trends in the study of slavery elsewhere It frames many research questions broadly to engage with scholars of slavery in other Muslim lands as well as slavery elsewhere Kamran Scot Aghaie University of Texas at Austin coeditor of *Rethinking Iranian Nationalism and Modernity* *Iranian Intellectuals in the Twentieth Century* Ali Gheissari,2010-01-01 Since the middle of the nineteenth century Iranian intellectuals have been preoccupied by issues of political and social reform Iran s relation with the modern West and autocracy or arbitrary rule Drawing from a close reading of a broad array of primary sources this book offers a thematic account of the Iranian intelligentsia from the Constitutional movement of 1905 to the post 1979 revolution Ali Gheissari shows how in Iran as in many other countries intellectuals have been the prime mediators between the forces of tradition and modernity and have contributed significantly to the formation of the modern Iranian self image His analysis of intellectuals response to a number of fundamental questions such as nationalism identity and the relation between Islam and modern politics sheds new light on the factors that led to the Iranian Revolution the twentieth century s first major departure from Western political ideals and helps explain the complexities surrounding the reception of Western ideologies in the Middle East *The Middle East* Barry Rubin,2015-03-17 The Middle East is an area of great importance globally yet misperceptions abound Events have made it a region of special interest to the West and so the search for understanding gains momentum This publication is intended to clarify the region s complex history and issues In developing this project the contributors set out to explore seven significant themes that are usually not found in other sources While many books focus on political history and conflicts this two volume work deals specifically with culture religion women economics governance and media as well as the role that the region s modern history has played in shaping its society and worldview **Iran (RLE Iran D)** Robert Graham,2012-04-27 The sudden increase of oil prices in 1973 meant that the foreign revenues of Iran quadrupled in just over two months As the first OPEC member to begin disbursing this extra revenue on a significant scale Iran offers the first complete example of the social economic and political problems this caused This book examines the cycle of the boom and the years that led up to it from the rural and essentially backward nature of the country to the euphoria of 1973 when the Shah seriously talked of Iran reaching the Great Civilisation where by the 1990s Iran would be the world s

fifth power And then finally through to the loss of control over expenditure the cancellation of ambitious projects and eventual disillusionment with all the attendant problems of expectations and increased social and political tension A comprehensive analysis of the system of government in Iran is provided in Part Three of the book demonstrating that this has created a repressed stability incapable of promoting social and economic progress The Formation of Modern Kurdish Society in Iran Marouf Cabi, 2021-11-04 Although the Kurds have attracted widespread international attention Iranian Kurdistan has been largely overlooked This book examines the consequences of modernity and modernisation for Iran's Kurdish society in the 20th century Marouf Cabi argues that while state led modernisation integrated the Kurds in modern Iran the homogenisation of identity and culture also resulted in their vigorous pursuit of their political and cultural rights Focusing on the dual process of state led modernisation and homogenisation of identity and culture Cabi examines the consequences of modernity and modernisation for the socioeconomic cultural and political structures as well as for gender relations It is the consequences of this dynamic dual process that explains the modern structures of Iran's Kurdish society on the one hand and its intimate relationship with Iran as a historical geographical and political entity on the other Using Persian Kurdish and English sources the book explores the transformation of Kurdish society between the Second World War and the 1979 Iranian Revolution with a special focus on the era of the White Revolution during the 1960s and 1970s **The Modernization of Inner Asia** Cyril Edwin Black, 1991 Inner Asia in premodern times the little known land of nomads and semi nomads has moved to the world's front page in the 20th century as the complex struggles for the future of Afghanistan Soviet Central Asia Tibet and other territories make clear But because Inner Asia as a whole is divided among several states politically and among area specialists academically broad perspectives on recent events are difficult to find This work treats the region as a single unit providing both an account of the region's past and an analysis of its present and its prospects in a thematic rather than a strictly country by country manner Social Origins of the Iranian Revolution Misagh Parsa, 1989 Misagh Parsa develops a structural theory of the causes and outcomes of revolution applying the theory in particular to Iran He focuses on the ends and means of various groups of Iranians before during and after the revolution For Parsa revolution is not a direct result of ideologies which may be less important than structural factors such as the nature of the state and the economy as well as each group's interests capacity for mobilization autonomy and solidarity structures Existing theories of revolution explain earlier revolutions better than the Iranian revolution In Iran most of the protest was in urban areas the peasants never played a major role and power was transferred to the clergy not to an intelligentsia In the 1970s oil revenues increased the economy developed rapidly but unevenly and the state's expanded intervention undermined market forces and politicized capital accumulation Systematic repression of workers aid to the upper class and attacks on secular and religious opposition showed that the state was serving the interests of particular groups When the state tried to check high inflation by imposing price controls on bazaaris merchants shopkeepers artisans their protests forced the state to introduce reforms

providing an opportunity for industrial workers white collar workers intellectuals and the clergy to mobilize against the state Thus structural features rendered the state vulnerable to challenge and attack Parsa s thorough explanation of the collective actions of each major group in Iran in the three decades prior to the revolution shows how a coalition of classes and groups using mosques as safe gathering places and led by a segment of the clergy brought down the monarch of 1979 In the years since the revolution the conflicts that existed before the revolution seem to be reemerging in slightly altered form The clergy now has control and the state has become centrally and powerfully involved in the economy of the country

Post-revolutionary Iran Hooshang Amirahmadi, Manoucher Parvin, 2019-06-04 Originally published in 1998 More than half of the chapters were originally presented at the 1985 conference of the Center for Iranian Research and Analysis CIRA held at Rutgers The State University of New Jersey as well as additional content The primary purpose of this book is to analyze transformations in the ideological political and soc The Unthinkable Revolution in Iran Charles

Kurzman, 2005-09-06 The shah of Iran Mohammad Reza Pahlavi would remain on the throne for the foreseeable future This was the firm conclusion of a top secret CIA analysis issued in October 1978 One hundred days later the shah despite his massive military fearsome security police and superpower support was overthrown by a popular and largely peaceful revolution But the CIA was not alone in its myopia as Charles Kurzman reveals in this penetrating work Iranians themselves except for a tiny minority considered a revolution inconceivable until it actually occurred Revisiting the circumstances surrounding the fall of the shah Kurzman offers rare insight into the nature and evolution of the Iranian revolution and into the ultimate unpredictability of protest movements in general As one Iranian recalls The future was up in the air Through interviews and eyewitness accounts declassified security documents and underground pamphlets Kurzman documents the overwhelming sense of confusion that gripped pre revolutionary Iran and that characterizes major protest movements His book provides a striking picture of the chaotic conditions under which Iranians acted participating in protest only when they expected others to do so too the process approaching critical mass in unforeseen and unforeseeable ways Only when large numbers of Iranians began to think the unthinkable in the words of the U S ambassador did revolutionary expectations become a self fulfilling prophecy A corrective to 20 20 hindsight this book reveals shortcomings of analyses that make the Iranian revolution or any major protest movement seem inevitable in retrospect **Fragile Resistance** John
