the presence of nonconstant structure What problems should be anticipated in applying these tools and models Some 50 experts mainly statisticians or econometricians from about 15 countries came together in Lodz Poland May 1985 Berlin GDR June 1986 and Sulejov Poland September 1986 to present and discuss their findings This volume contains a selected set of those conference contributions as well as several specially invited chapters Symmetry and Economic Invariance Ryuzo Sato,Rama V.
