Finding A Replacement For The Soul Mind And Meaning In Literature And Philosophy:

Finding a Replacement for the Soul Brett Bourbon, 2004-06-17 Bourbon asserts that our complex and variable relation with language defines a domain of meaning and being misconstrued and missed in philosophy in literary studies and in our ordinary understanding of what we are and how things make sense He seeks to demonstrate how the study of literature gives us the means to understand this relationship

Finding a Replacement for the Soul Brett Bourbon, 2009-06-30
Approaching the study of literature as a unique form of the philosophy of language and mind as a study of how we produce nonsense and imagine it as sense this is a book about our human ways of making and losing meaning Brett Bourbon asserts that our complex and variable relation with language defines a domain of meaning and being that is misconstrued and missed in philosophy in literary studies and in our ordinary understanding of what we are and how things make sense Accordingly his book seeks to demonstrate how the study of literature gives us the means to understand this relationship The book itself is framed by the literary and philosophical challenges presented by Joyce s Finnegans Wake and Wittgenstein s Philosophical Investigations With reference to these books and the problems of interpretation and meaning that they pose Bourbon makes a case for the fundamental philosophical character of the study of literature and for its dependence on theories of meaning disguised as theories of mind Within this context he provides original accounts of what sentences fictions non fictions and poems are produces a new account of the logical form of fiction and of the limits of interpretation that follow from it and delineates a new and fruitful domain of inquiry in which literature philosophy and science intersect Table of Contents Preface Note on Abbreviations Introduction What Are We When We Are Not Part I The Surface of Language and the Absence of Meaning 1 From Soul Making to Person Making 2 The Logical Form of Fiction 3 The Emptiness of Literary Interpretation 4 To Be But Not To Mean 5 How Do Oracles Mean Part II Senses and Nonsenses Joyce s Finnegans Wake and Wittgenstein s Philosophical Investigations 6 A Twitterlitter of Nonsense Askesis at Finnegans Wake 7 The Analogy between Persons and Words 8 The Human Body Is the Best Picture of the Human Soul 9 The Senses of Time 10 Being Something and Meaning Something Bibliography Acknowledgments Index This is an adventurous and unusual book Bourbon moves back and forth between literary and philosophical contexts with ease showing in multifarious ways how the one can often in unexpected ways illuminate the other Throughout these wide ranging explorations Bourbon uncovers a good deal about both the nature of literary meaning and our distinctive if tellingly irreducible relations to literary texts Garry L Hagberg author of Art as Language Wittgenstein Meaning and Aesthetic Theory and Meaning and Interpretation Wittgenstein Henry James and Literary Knowledge

Buddhist Literature as Philosophy, Buddhist Philosophy as Literature Rafal K. Stepień, 2020-11-01
Can literature reveal reality Is philosophical truth a literary artifice How does the way we think affect what we can know Buddhism has been grappling with these questions for centuries and this book attempts to answer them by exploring the relationship between literature and philosophy across the classical and contemporary Buddhist worlds of India Tibet China

Japan Korea and North America Written by leading scholars the book examines literary texts composed over two millennia ranging in form from lyric verse narrative poetry panegyric hymn and koan to novel hagiography secret autobiography autofiction treatise and sutra all in sustained conversation with topics in metaphysics ethics aesthetics and the philosophies of mind language literature and religion Interdisciplinary and cross cultural this book deliberately works across and against the boundaries separating three mainstays of humanistic pursuit literature philosophy and religion by focusing on the multiple relationships at play between content and form in works drawn from a truly diverse range of philosophical schools literary genres religious cultures and historical eras Overall the book calls into question the very ways in which we do philosophy study literature and think about religious texts It shows that Buddhist thought provides sophisticated responses to some of the perennial problems regarding how we find create and apply meaning on the page in the mind and throughout our lives

Early Modern Communi(cati)ons Kinga Földváy,Erzsébet Stróbl,2013-02-14 As suggested by the title Early Modern Communi cati ons the volume demonstrates that the connections and common points of reference within early modern studies bind Elizabethan and Jacobean cultural studies and Shakespearean investigations together in an unexpected number of ways and this diversity of ties has been used as the main theme around which the thirteen essays have been organised While the first group of essays deals with early modern culture presenting the socio historical context necessary for any in depth literary investigation as exemplified through analyses of outstanding literary achievements from the period the second part of the volume focuses on the oeuvre of the most famous representative of the age William Shakespeare with individual chapters creating a tangible continuum moving from the cultural and literary context that informs his works to their interpretation in present day performances and their theoretical backgrounds In the same way as the volume comprises writings on a diverse but still coherent range of topics the authorial team is equally representative of diversity and continuity at the same time The authors include several senior scholars working in the Hungarian academic community representing all significant research centres in the field from all over the country A number of essays have been contributed by promising young talents as well

Skepticism and Impersonality in Modern Poetry V. Joshua Adams,2025-06-12 Modern literature is often described in terms of its impersonality What is the significance of this fact In *Skepticism and Impersonality* V Joshua Adams follows the history of impersonality in modern poetry from Mallarm and Eliot through to the present engaging with work by major poets and critics but also contemporary philosophers Rather than seeing impersonality exclusively as a literary historical phenomenon Adams argues that we should understand it as an attempt to address skeptical problems arising from the limitations of first person experience Defending impersonality as a response to skeptical problems including doubts about the publicity of our experiences our knowledge of other minds the capacity of our language to describe the world the relationship between mind and body and the fictionality and continuity of our sense of self Adams analyzes what he calls experiments in impersonality as means of working through skeptical doubt The writers discussed transform this doubt

into art whilst also ironizing it as corrosive and self defeating Ultimately this leads Adams to reinterpret literary impersonality as a therapeutic philosophical project Skepticism and Impersonality promises a new theoretical justification for our practical interest in literary texts to renovate our conception of how those texts might do philosophical work and to expand our sense of what a philosophical poem can be

Everyday Poetics Brett Bourbon,2022-02-24 Locating poetry in a philosophy of the everyday Brett Bourbon continues a tradition of attention to logic in everyday utterances through Wittgenstein Austin Quine and Cavell arguing that poems are events of form not just collections of words which shape everyone's lives Poems taught in class are formalizations of the everyday poems we live amidst albeit unknowingly Bourbon resurrects these poems to construct an anthropology of form that centers everyday poems as events or interruptions within our lives Expanding our understanding of what a poem is this book argues that poems be understood as events of form that may depend on words but are not fundamentally constituted by them This line of thought delves into a poem's linguistic particularity to ask what a poem is and how we know By reclaiming arenas previously ceded to essayists and literary writers Bourbon reveals the care and attention necessary to uncovering the intimate relationship between poems life reading and living A philosophical meditation on the nature of poetry but also on the meaning of love and the claim of words upon us

Everyday Poetics situates the importance of everyday poems as events in our lives

Modernist Fiction and Vagueness Megan Quigley,2015-02-02 Modernist Fiction and Vagueness marries the artistic and philosophical versions of vagueness linking the development of literary modernism to changes in philosophy This book argues that the problem of vagueness language's unavoidable imprecision led to transformations in both fiction and philosophy in the early twentieth century Both twentieth century philosophers and their literary counterparts including James Eliot Woolf and Joyce were fascinated by the vagueness of words and the dream of creating a perfectly precise language Building on recent interest in the connections between analytic philosophy pragmatism and modern literature Modernist Fiction and Vagueness demonstrates that vagueness should be read not as an artistic problem but as a defining quality of modernist fiction

Why the Humanities Matter Frederick Luis Aldama,2022-02-24 This wide ranging study of the influence of postmodernism on contemporary culture offers a trenchant and uplifting defense of the humanities Is there life after postmodernism Many claim that it sounded the death knell for history art ideology science possibly all of Western philosophy and even the concept of reality itself Responding to essential questions regarding whether the humanities can remain politically and academically relevant amid this twenty first century uncertainty Why the Humanities Matter offers a guided tour of the modern condition calling upon thinkers in a variety of disciplines to affirm essential concepts such as truth goodness and beauty Through a lens of new humanism Frederick Aldama provides a liberating examination of the current cultural repercussions of assertions by such revolutionary theorists as Said Foucault Lacan and Derrida as well as Latin Americanists such as Sommer and Mignolo Emphasizing pedagogy and popular culture with equal verve Aldama presents an enlightening way to explore what culture

actually does who generates it and how it shapes our identities and the role of academia in sustaining it The Age of Atheists Peter Watson, 2014-02-18 Examines atheism as a modern intellectual achievement that has motivated individuals to pursue invention and self reliance citing the accomplishments of secular philosophers scientists and artists who have worked in the absence of religious belief **Literature and Philosophy** D. Rudrum, 2006-07-31 A collection of essays grounded in state of the art research that explores contemporary debates at the interface between literature and philosophy It brings together diverse schools of thought and provides both a useful overview and an examination of one of the most fascinating cross disciplinary encounters in the humanities today Worldly Acts and Sentient Things Robert A. Chodat, 2018-07-05 Ants ghosts cultures thunderstorms stock markets robots computers this is just a partial list of the sentient things that have filled American literature over the last century From modernism forward writers have given life and voice to both the human and the nonhuman and in the process addressed the motives behaviors and historical pressures that define lives or things both everyday and extraordinary In Worldly Acts and Sentient Things Robert Chodat exposes a major shortcoming in recent accounts of twentieth century discourse What is often seen as the death of agency is better described as the displacement of agency onto new and varied entities Writers as diverse as Gertrude Stein Saul Bellow Ralph Ellison and Don DeLillo are preoccupied with a cluster of related questions Which entities are capable of believing something saying something desiring hoping hating or doing Which things in turn do we treat as worthy of our care respect and worship Drawing on a philosophical tradition exemplified by Ludwig Wittgenstein and Wilfrid Sellars Chodat shows that the death of the Cartesian ego need not entail the elimination of purposeful action altogether Agents do not dissolve or die away in modern thought and literature they proliferate some in human forms some not Chodat distinguishes two ideas of agency in particular One locates purposes in embodied beings persons the other in disembodied entities presences Worldly Acts and Sentient Things is a an engaging blend of philosophy and literary theory for anyone interested in modern and contemporary literature narrative studies psychology ethics and cognitive science *Organized Skepticism in the Age of Misinformation* Brett Bourbon, Renita Murimi, 2025-03-12 Drawing from philosophy information theory and network science *Organized Skepticism in the Age of Misinformation* Surviving the Kingdom of Gossip offers a novel conceptual framework that views information as a form of gossip This book challenges the idea that truthfulness is a necessary or even a relevant condition of information Instead this book develops a conceptual framework in which information is understood as gossip which fits within a more general account of information and knowledge as constrained but contingent social practices Using this framework this book provides a nuanced understanding of the grammar of gossip that permeates both online and real world environments and sheds light on the often overused and confused terms of our time information misinformation and knowledge This book offers a fundamental reconfiguration of the evolving virtual interdependence of humans and information technology It is a key resource for students and scholars in areas relating to social media information diffusion human computer interface and computational

social science *Jane Austen and the Ethics of Description* Brett Bourbon,2022-11-30 Jane Austen and the Ethics of Description demonstrates that Elizabeth Bennet and her creator are misunderstood and often unrecognized geniuses of moral philosophy but not simply because of their virtue or wit or natural skills in game theory The engine driving the moral judgement and growth of Austen s protagonists consists of a particular and not well understood ability to reason by description a skill which we moderns must recover and remaster in order to negotiate the complexities of contemporary life The forms of rational description this book derives from Austen will be of great interest not only to literary critics and theorists but also to philosophers and anyone interested in ethics the dynamics of power and practical reasoning Written in a clear style the book is for those who love Austen and for those who want to understand how we should reason about our lives how we should understand power social conflict and our own motives and prejudices It is a literary analysis a philosophical argument and a practical guide to ethical thinking Thinking with Words Brett Bourbon,Miguel Tamen,2024-12-13 Thinking with Words A Literary Groundwork provides a unique foundational introduction to the depths and glories of literature and its study It is a book about why literature matters and why it always will Readers will explore the roots of literature and art in the interplay between life and language actions and events and culture and texts This is not a book about theories it is a book about our complex engagement with language and literature from which theories interpretations and insight arise As this is a groundwork confusions are dissolved and analytical tools for thinking are developed and honed Readers will discover that their ways of talking about literature can powerfully contribute to their ways of talking about life The book resituates literary studies within fundamental arguments about language knowledge and ethics Thinking with Words is essential reading for anyone interested not just in literature but in art culture and language **American Book Publishing Record** ,2003 Mysticism and the Mind Colleen Marie Pauza,2009 *Oedipus Against Freud* Bradley W. Buchanan,2010-01-01 Sigmund Freud s interpretation of the Oedipus myth that subconsciously every man wants to kill his father in order to obtain his mother s undivided attention is widely known Arguing that the pervasiveness of Freud s ideas has unduly influenced scholars studying the works of Modernist writers Bradley W Buchanan re examines the Oedipal narratives of authors such as D H Lawrence T S Eliot W B Yeats Virginia Woolf and James Joyce in order to explore their conflicted attitudes towards the humanism that underpins Freud s views In the alternatives to the Freudian version of Oedipus offered by twentieth century authors Buchanan finds a complex examination of the limits of human understanding Following the analyses of philosophers such as G W F Hegel and Frederick Nietzsche and anticipating critiques by writers such as Jacques Derrida and Gilles Deleuze British Modernists saw Oedipus as representative of the embattled humanist project Closing with the concept of posthumanism as explored by authors such as Zadie Smith *Oedipus Against Freud* demonstrates the lasting significance of the Oedipus story Annual Bibliography of English Language and Literature Modern Humanities Research Association,2004 Includes both books and articles *Catholic Nostalgia in Joyce and*

Company Mary Lowe-Evans, 2008 In this study Lowe Evans explores Joyce's complicated response to the Catholic Church and looks at Joyce's influence on the Catholic thinking of subsequent writers including F. Scott Fitzgerald, Flannery O'Connor and Thomas Merton *Bibliographie de la philosophie*, 2005
