Cook, 2012-10-17 Life after Death Row examines the post incarceration struggles of individuals who have been wrongly convicted of capital crimes sentenced to death and subsequently exonerated Saundra D Westervelt and Kimberly J Cook present eighteen exonerees stories focusing on three central areas the invisibility of the innocent after release the complicity of the justice system in that invisibility and personal trauma management Contrary to popular belief exonerees are not automatically compensated by the state or provided adequate assistance in the transition to post prison life With no time and little support many struggle to find homes financial security and community They have limited or obsolete employment skills and difficulty managing such daily tasks as grocery shopping or banking They struggle to regain independence self sufficiency and identity Drawing upon research on trauma recovery coping and stigma the authors weave a nuanced fabric of grief loss resilience hope and meaning to provide the richest account to date of the struggles faced by people striving to reclaim their lives after years of wrongful incarceration The Spectacle of Death Kristin Boudreau, 2006-04-04 In 1787 Benjamin Rush cautioned that public punishments were dangerous to the social and legal authority of the new nation For Rush irrepressible human sentiments all but guaranteed that public punishments would turn spectators against the institutions responsible for the punishments Although public executions of criminals ended early in the 19th century debate over the morality of capital punishment has continued to this day In this unique and fascinating glimpse into public reactions to prominent executions from colonial times to the 1990s Kristin Boudreau focuses on the central role of populist often ephemeral literary forms in shaping attitudes toward capital punishment Surveying popular poems ballads plays and novels she shows that at key times of social unrest in American history many Americans have felt excluded by the political and legal processes and have turned instead to inexpensive literary forms of expression in an attempt to change the course of history Among the significant capital cases that the author discusses are the Haymarket anarchist trial of 1886 the lynching of Leo Frank in 1914 the murder of Emmett Till in 1955 and its effects on the Civil Rights movement Norman Mailer s treatment of the Gary Gilmore case in the 1979 novel The Executioner's Song and the 1998 execution of Karla Faye Tucker a convicted murderer who became a born again Christian on death row In the concluding chapter Boudreau examines contemporary writers musicians actors and other artists who are using their artistic media to influence official policies of states that permit capital punishment By examining these neglected texts Boudreau brings to light a compelling story about ordinary Americans fighting an entrenched legal system at times of great national crisis Euthanasia, Abortion, Death Penalty and Religion - The Right to Life and its Limitations Hans-Georg Ziebertz, Francesco Zaccaria, 2018-11-16 This book considers how the termination of life might be accepted in the view of a general obligation to protect life It features more

than 10 papers written by scholars from 14 countries that offer international comparative empirical research Inside readers will find case studies from such areas as India Chile Germany Italy England Palestine Lithuania Nigeria and Poland The papers focus on three limitations of the right to life the death penalty abortion and euthanasia The contributors explore how young people understand and evaluate the right to life and its limitations. The book presents unique empirical research among today s youth and reveals that among other concepts religiosity matters. It provides insight into the acceptance perception and legitimation of human rights by people from different religious and cultural backgrounds This investigation rigorously tests for interindividual differences regarding political and judicial rights on religious grounds while controlling for other characteristics It will help readers better understand the many facets of this fundamental yet controversial philosophical question The volume will be of interest to students researchers as well as general readers searching for Beyond the Usual Beating Andrew S. Baer, 2020-04-10 The malign and long lasting influence of Chicago police answers commander Jon Burge cannot be overestimated particularly as fresh examples of local and national criminal justice abuse continue to surface with dismaying frequency Burge's decades long tenure on the Chicago police force was marked by racist and barbaric interrogation methods including psychological torture burnings and mock executions techniques that went far beyond the usual beating After being exposed in 1989 he became a symbol of police brutality and the unequal treatment of nonwhite people and the persistent outcry against him led to reforms such as the abolition of the death penalty in Illinois But Burge hardly developed or operated in a vacuum as Andrew S Baer explores to stark effect here He identifies the darkness of the Burge era as a product of local social forces arising from a specific milieu beyond the nationwide racialized reactionary fever of the 1960s and 1970s Similarly the popular resistance movements that rallied in his wake actually predated Burge s exposure but cohered with unexpected power due to the galvanizing focus on his crimes and abuses For more than thirty years a shifting coalition including torture survivors their families civil rights attorneys and journalists helped to corroborate allegations of violence free the wrongfully convicted have Burge fired and incarcerated and win passage of a municipal reparations package among other victories Beyond the Usual Beating reveals that though the Burge scandal underscores the relationship between personal bigotry and structural racism in the criminal justice system it also shows how ordinary people held perpetrators accountable in the face of intransigent local power 50/50: Finding Life's Balance for All Human Beings Gregory L. Whitehead, 2025-03-31 Help for Questioning Christians by John Whitehead is a guide for Christians to recent scholarly writing on key moral issues such as the Prosperity Gospel abortion euthanasia homosexual sexual activity physician assisted suicide the death penalty and Christian nationalism While many official church documents assert that several of these issues are immoral and sinful there are theologians and other scholars who offer positions that justify such actions based on lack of biblical support or a different line of theological reasoning This book explains these approaches and compares them to traditional answers The book does not endorse positions but leaves it to each reader to try to make an informed decision **Condemned to Die** Robert Johnson, 2018-12-07 Condemned to Die is a book about life under sentence of death in American prisons The great majority of condemned prisoners are confined on death rows before they are executed Death rows typically feature solitary confinement a harsh regimen that is closely examined in this book Death rows that feature solitary confinement are most common in states that execute prisoners with regularity which is to say where there is a realistic threat that condemned prisoners will be put to death Less restrictive confinement conditions for condemned prisoners can be found in states where executions are rare Confinement conditions matter especially to prisoners but a central contention of this book is that no regimen of confinement under sentence of death offers its inmates a round of activity that might in any way prepare them for the ordeal they must face in the execution chamber when they are put to death In a basic and profound sense all condemned prisoners are warehoused for death in the shadow of the executioner Human warehousing seen most clearly on solitary confinement death rows violates every tenet of just punishment no legal or philosophical justification for capital punishment demands or even permits warehousing of prisoners under sentence of death The punishment is death There is neither a mandate nor a justification for harsh and dehumanizing confinement before the prisoner is put to death Yet warehousing for death of an empty and sometimes brutal nature is the universal fate of condemned prisoners The enormous suffering and injustice caused by this human warehousing rendered in the words of the prisoners themselves is the subject of this book The Global Decline of the Mandatory Death Penalty Andrew Novak, 2016-03-16 Historically at English common law the death penalty was mandatory for the crime of murder and other violent felonies Over the last three decades however many former British colonies have reformed their capital punishment regimes to permit judicial sentencing discretion including consideration of mitigating factors Applying a comparative analysis to the law of capital punishment Novak examines the constitutional jurisprudence and resulting legislative reform in the Caribbean Sub Saharan Africa and South and Southeast Asia focusing on the rapid retreat of the mandatory death penalty in the Commonwealth over the last thirty years The coordinated mandatory death penalty challenges which have had the consequence of greatly reducing the world's death row population represent a case study of how a small group of lawyers

can sponsor human rights litigation that incorporates international human rights law into domestic constitutional jurisprudence ultimately harmonizing criminal justice regimes across borders This book is essential reading for anyone interested in the study and development of human rights and capital punishment as well as those exploring the contours of comparative criminal justice
