An exciting vision of the future Michael Eric Dyson Everything Is Spiritual is an unexpected and compelling invitation to see your life in a whole new way We have the great moments of our lives the highs those times when we soar when it all makes sense when it feels like it all has purpose and meaning And then there are all those other moments the lows and aches and failures and struggles and experiences that leave us wondering what the point of it all is Are our lives ultimately bits and pieces and fragments you try to find a little peace and hope and then it's over Or is there more going on here In our increasingly polarized and disoriented world Everything Is Spiritual gives us a radical new take on how it all fits together how it works how it's all connected Part memoir part extended riff on the quantum nature of reality part history of the

universe Rob Bell takes us back through the twists and turns and struggles of his story in order to help us see the larger story so that we can reconnect with our story
