Finding Places, Grade 1 D. C. Heath Canada, Limited, Houghton Mifflin Company (School Division), Sandra MacCarone, 1983-04-01      *Official Textbook Adoption List* ,1982      The Reading Crisis Jeanne Sternlicht CHALL, Vicki A. Jacobs, Luke E. Baldwin, Jeanne Sternlicht Chall, 2009-06-30 How severe is the literacy gap in our schools Why does the nine year old child from a culturally disadvantaged background so often fall victim to the fourth grade slump Although the cognitive abilities of these children at risk may be consistent with the norm their literacy development lags far behind that of other children In *The Reading Crisis* the renowned reading specialist Jeanne Chall and her colleagues examine the causes of this disparity and suggest some remedies Using Chall s widely applied model of reading development the authors examine the strengths and weaknesses in the reading writing and language development of children from low income families in an attempt to identify the onset of their difficulties They show how in the transition from learning the medium to understanding the message the demands on children s reading skills become significantly more complex The crucial point is fourth grade when students confront texts containing unfamiliar words and ideas that are beyond the range of their own experience According to Chall s findings the lack of specific literacy skills not cognitive factors explains the deceleration in the reading and writing development of low income children The authors outline an active role for the schools in remedying weaknesses in literacy development and give suggestions for the home and the community Their recommendations address both practical issues in instruction and the teacher student dynamic that fosters literacy development Table of Contents Preface Acknowledgments 1 Literacy and Language among Low Income Children 2 The Children Their Schools and Their Families 3 Reading Development 4 Writing Development 5 Language Development 6 Interrelations among Reading Writing and Language 7 Classroom Instruction and Literacy Environments 8 Home Influences on Literacy and Language 9 Influences on the Lower and Higher Grades 10 Where Do We Go from Here Epilogue Persistent Questions Appendix A Samples of Narrative Writing Representing Average Holistic Ratings and Production Students Handwriting Appendix B Samples of Expository Writing Representing Average Holistic Ratings and Production Students Handwriting References Index Reviews of this book An important study for wide academic and professional attention Suzanne W Wood Library Journal      The Texas Outlook ,1981      Primary Education ,1927      **Handbook of Orthography and Literacy** R. Malatesha Joshi, P.G. Aaron, 2013-05-13 Until about two decades ago the study of writing systems and their relationship to literacy acquisition was sparse and generally modeled after studies of English language learners This situation is now changing As the worldwide demand for literacy continues to grow researchers from different countries with different language backgrounds have begun examining the connection between their writing systems and literacy acquisition This text which derives from a NATO sponsored conference on orthography and literacy brings together the research of 70 scholars from across the world the largest assemblage of such experts to date Their findings are grouped into three parts as follows Part I Literacy Acquisition

in Different Writing Systems describes the relationship between orthography and literacy in twenty five orthographic systems This section serves as a handy reference source for understanding the orthographies of languages as diverse as Arabic Chinese English Icelandic Kannada and Kishwahili Part II Literacy Acquisition From a Cross Linguistic Perspective makes direct comparisons of literacy acquisition in English and other orthographic systems The overall conclusion that emerges from these eight chapters is that the depth of an orthographic system does influence literacy acquisition primarily by slowing down the acquisition of reading skills Even so studies show that dyslexic readers can be found across all orthographic systems whether shallow or deep which shows that dyslexia also has internal cognitive and biological components Part III Literacy Acquisition Instructional Perspectives explores literacy acquisition from developmental and instructional perspectives and ends with a look into the future of literacy research This Handbook is appropriate for scholars researchers and graduate students in such diverse fields as cognitive psychology psycholinguistics literacy education English as a second language and communication disorders
