Fire and Ashes John N. Maclean, 2003-06-02 An expert's report from the front lines where wildland fires keep getting hotter bigger and more dangerous to the men and women who fight them In 2002 more than seven million acres were burned at a fire fighting cost of over a billion dollars Are wilderness fires now a tragic and enduring feature of the American landscape John N Maclean author of the acclaimed *Fire on the Mountain* offers a view from the front lines combining action packed storytelling with moving insights about firefighters and informed analysis of firefighting strategy past and present Beginning with a riveting account of the worst case of arson in wildfire history the 1953 Rattlesnake Fire in Mendocino National Forest which claimed the lives of fifteen firefighters Maclean explains the mysterious dynamics of fire and the courage and techniques required to combat it One such mystery underlines the life threatening 1999 Sadler Fire in Nevada when a line of flames suddenly blew up trapping six firefighters mistakenly placed in harm's way For the final story Maclean returns to Mann Gulch the site of his father's classic *Young Men and Fire* to interview the last survivor of the worst disaster in the history of smoke jumping From it we understand why fatal fires burn for generations Offering a prescient view of the inevitable conflict between people property and nature *Fire and Ashes* presents a riveting and emotional story one that in many ways John Maclean was destined to tell

Blazing Heritage Hal K. Pyne, 2015-10-15 From a fire policy of prevention at all costs to today s restored burning *Between Two Fires* is America s history channeled through the story of wildland fire management Stephen J Pyne tells of a fire revolution that began in the 1960s as a reaction to simple suppression and single agency hegemony and then matured into more enlightened programs of fire management It describes the counterrevolution of the 1980s that stalled the movement the revival of reform after 1994 and the fire scene that has evolved since then Pyne is uniquely qualified to tell America s fire story The author of more than a score of books he has told fire s history in the United States Australia Canada Europe and the Earth overall In his earlier life he spent fifteen seasons

with the North Rim Longshots at Grand Canyon National Park In *Between Two Fires* Pyne recounts how after the Great Fires of 1910 a policy of fire suppression spread from America's founding corps of foresters into a national policy that manifested itself as a costly all out war on fire After fifty years of attempted fire suppression a revolution in thinking led to a more pluralistic strategy for fire's restoration The revolution succeeded in displacing suppression as a sole strategy but it has failed to fully integrate fire and land management and has fallen short of its goals Today the nation's backcountry and increasingly its exurban fringe are threatened by larger and more damaging burns fire agencies are scrambling for funds firefighters continue to die and the country seems unable to come to grips with the fundamentals behind a rising tide of megafires Pyne has once again constructed a history of record that will shape our next century of fire management *Between Two Fires* is a story of ideas institutions and fires It's America's story told through the nation's flames **Jeff Herman's Guide to Book Publishers, Editors and Literary Agents 2006** Jeff Herman, 2005-10 Now updated for 2008 this annual edition of the classic bestselling directory provides everything working writers need to find the most receptive publishers editors and agents for their work *Mudslingers* Tim Sheehy, 2023-12-12 The unique history of aerial firefighting as seen through the eyes of a pilot former Navy SEAL and current owner of one of the most successful aerial firefighting companies in the world Blending historical context and first person narrative *Mudslingers* tells the dramatic and colorful story of aerial firefighting in America as seen through the eyes of a decorated former Navy SEAL US Naval Academy graduate firefighting pilot and businessman who founded Montana based Bridger Aerospace one of the most successful aerial firefighting teams in the world Part narrative nonfiction part memoir *Mudslingers* is a riveting account of one person's journey from the battlefields of Afghanistan and Iraq to the front lines of a different but no less important battle on the home front the war against the escalating threat of wildfire From the early days of the B 17 to the modern fleets of the twenty first century Tim Sheehy will take you on a ride through the history of aerial firefighting the most hazardous and demanding aviation mission in the world *Mudslingers* is a rollicking read an enlightening journey and a call to action for anyone who believes wildfires are not only one of the greatest threats facing modern civilization but a threat that has long been underestimated misunderstood and poorly addressed despite repeated examples of bravery and innovation by those who choose to do battle with the flames Indeed save for a few historic military engagements in the twentieth century there is not a sustained aviation mission anywhere that comes close to encompassing the danger precision and unforgiving nature of aerial firefighting In telling this story Sheehy takes readers into the cockpit and into the lives of his fellow pilots past and present as they struggle with the seemingly never ending threat of wildfires One hundred percent of author proceeds from this book are donated to the Wildland Firefighter Foundation and the United Aerial Firefighters Association **Auerbach's Wilderness Medicine E-Book** Paul S.
