Kidder Smith, 2000-09 This comprehensive and insightful illustrated survey of 500 of America's most distinguished buildings provides a unique overview of the thousand year architectural development of the United States. It examines our nation's architecture from its earliest days to the present ranging from cliff dwellings in Mesa Verde to Frank Lloyd Wright's Robie House in Chicago to James Ingo Freed's Holocaust Museum in Washington. Indispensable in any library it also serves as a general introduction to American architecture or as a splendid guide for tourists. *Documentary Source Book of American History, 1606-1926* William MacDonald, 1926 **A Source-book of Military Law and War-time Legislation** United States. In addition to the chapters on Phonetics Phonology Phonological Alternations Morphology Syntax Sound Change and Historical Reconstruction there are two new chapters one on Semantics and one on Grammatical and Lexical Change. In addition an index of the 93 languages and dialects represented in the book has been added as well as a revised bibliography. The solutions to the exercises have also been revised and expanded. The number of exercises has been increased from 333 to 472. New exercises have been added to most chapters and many exercises have been revised to focus on new issues in linguistics. The text has been completely reset in high quality letterpress with a wide range of phonetic symbols and diacritics. This newly revised edition will continue to be useful as a teaching tool and a source of examples in a variety of linguistic applications. If you've been teaching upper level undergraduate introductions to linguistics without Cowan in the long run if it does for you what it did for me you'll probably wind up just dumping your traditional textbook order.
