Fit Furs Leben 2:

Learning How to Learn, Learning How to Understand Wolfgang Fries, 2020-03-16 Well I was sent to school and I was told to learn But nobody ever took the time to tell me how to learn and worse nobody explained to me how understanding worked So it was up to me to find out what learning was all about and to find out how understanding worked Indeed there are tools with which this work can be done a thinking grid of how to understand No matter how you may choose to apply this knowledge I wish you success in whatever you hope to achieve There are countless books for teachers on how to teach and for students on how to learn but *Learning How to Learn* stands alone in the clear practical approach it takes in providing teachers students parents administrators and government officials the knowledge and skills needed to succeed in today's diverse educational settings It is more than just a philosophy of education It is a guide of incomparable value for students of all ages who aspire to be autonomous learners and for others experienced or novice who may be charged with planning programming and executing educational curricula and programs The many illustrative examples add to its exceptional readability and the book can be read in its entirety or used as a desk reference for specific topics Francis C Pengitore Ed D Adjunct Assistant Professor of Higher Education Administration [Philosophy of Life - The Book of Basics](#) Wolfgang Fries, 2022-11-22 Philosophy should give the human being a mental basis that will allow man to lead a happy life and solve the problems of the now Philosophy does not consist of making things complicated and incomprehensible like today's degenerate philosophies do In this book no philosophical phrases are discussed in order to play mental soccer This book gives basics about life which one can apply to lead to a fulfilled happy existence Basic questions about life itself are solved What is life What is man Is it that a creature arose from mud by chance as science tells you Or is it that matter is motivated by a soul as the priest makes you believe Why does man think the way he thinks What is the goal of existence *What it Means to Be Human* Wolfgang Fries, 2020-11-18 What It Means to Be Human What is a Human Is it as science wants you to believe a creature that arose from mud or as the priest tells you a being of soul motivated flesh What and who are you One thing for sure dead matter doesn't think In this book Wolfgang Fries critically examines the age old philosophical question of what it means to be human using straight talk and common sense One thing is certain You are alive and try to live a life as a human being You have your notions of how to live your life but your ideas regarding life are countered by certain intentions which make life a difficult and complicated task So we have these two things your notions and counter intentions which give you a frame of living To subsist in life a certain amount of knowledge and understanding is necessary But to establish understanding knowledge has to be evaluated with respect to right and wrong important and unimportant The author maintains that only by understanding the complex issues that present themselves today will the human being be able to achieve personal goals and survive in this world He covers such timely topics as coping with stress fake news the influence of the media big pharma big government rampant materialism illnesses and the novel coronavirus No prior knowledge of moral

A Happy Relationship Wolfgang Fries,2021-05-08 A Happy Relationship I love you What does the person mean when he says I love you He sees the other and knows this feeling But is it a physical matter or a mental one Is it the person himself Does not the person with his thoughts play the greatest role and decide What are the basics for a happy relationship What are the rules of this game It is the individual who wants to enter into a connection with another individual Thus the basis of a relationship is the individual It is of no use just to carry the feeling of love for the other in oneself because there are things that promote the relationship with one another and things that are detrimental to a relationship Some speak of love and being in love such that when one is in love the feeling of love is the strongest but this feeling subsides over time But why is that so and what can be done about it Learn the basics of a happy partnership so that your relationship is blessed with happiness and longevity
