Fitneb And Health Education:

Physical Best Jackie Conkle, 2019-03-27 Physical educators play a critical role in shaping the health and fitness of America's youth and *Physical Best* Fourth Edition is the resource that will help them achieve success in that role. *Physical Best*, developed by experts identified by SHAPE America, has long been the standard in the field for health-related fitness education, and this latest rendition is the best and most complete package yet. A comprehensive three-in-one resource, the entire *Physical Best* program was previously spread over three books: *Physical Education for Lifelong Fitness*, *Physical Best Activity Guide Elementary Level*, and *Physical Best Activity Guide Middle and High School Levels*. It now is offered in one all-inclusive resource to reinforce the scope and sequence of the program so teachers can see what comes before and after the grade levels they teach. Updated material to address standards: All chapters and activities are updated to address SHAPE America's National Standards and Grade Level Outcomes for K-12 Physical Education. Teachers can be confident they are measuring student progress effectively. New or revised chapters: Teachers will benefit from the new information on the latest research, technology, power training, professional development, best practices, and more. An attractive four-color layout: The text now features four color illustrations. A web resource that includes K-12 activities: With previous editions, the activities were housed in two separate books, one for elementary teachers and one for middle and secondary teachers. Now all activities are on the accompanying web resource where teachers can sort the activities by standard, grade, outcome, and skill, and then use them on a mobile device or download and print them. Most activities are supported by ready-to-use reproducible forms such as handouts, assessments, posters, and worksheets. Other useful web ancillaries include an instructor guide to help teachers deliver effective lessons, a test package that teachers can use to create various types of tests and quizzes, and a presentation package that offers slides with key points and graphics from the book. *Physical Best* meets needs on many levels. For veteran teachers, it outlines strategies for emphasizing health-related fitness in their existing programs. New teachers will benefit from the specific examples from master teachers and be able to use this guidance for creating an effective fitness education program. For teacher education programs, it provides an overview of current research trends and best practices in health-related fitness. And for district coordinators, it reinforces professional development training and continued education. This latest edition of the official SHAPE America resource is organized into four parts. Part I offers an in-depth look at physical activity behavior and motivation and explores basic training principles. An expanded chapter on nutrition covers the foundations of a healthy diet and reflects the most up-to-date USDA guidelines. Part II examines health-related fitness concepts: cardiorespiratory endurance, muscular strength, muscular endurance, power, flexibility, and body composition. The text supplies tips for addressing each fitness component within a program. Part III presents strategies for integrating health-related fitness education throughout the curriculum, employing best teaching practices, and being inclusive in the gym, on the field, and in the classroom. In part IV, readers study assessment and learn assessment strategies for effective teaching and

health related programming They discover how to collect and use assessment results and how to assess fitness concept knowledge Physical Best helps teachers impart the skills and knowledge that students need to become physically literate the first step to leading healthier less stressful and more productive lives It details best practices provides current content and shows how to integrate health related fitness education into an existing curriculum It helps students meet standards and grade level outcomes It can help spark student interest in lifelong physical activity And it will help teachers be the best physical educators they can be as they shape the future health of the nation Human Kinetics is proud to publish this book in association with SHAPE America the national organization that defines excellence for school based health and physical education professionals across the United States Health Opportunities Through Physical Education Charles B. Corbin, Karen E. McConnell, Guy C. Le Masurier, David E. Corbin, Terri D. Farrar, 2014-05-28 This innovative new textbook with a full suite of related resources has been created to support student development and enhancement of healthy behaviors that influence their lifestyle choices and fitness health and wellness A key feature of this curriculum is the complete integration of physical education and health concepts and skills to maximize student interest learning and application This objective was accomplished by combining the expertise of our author teams from two related textbooks Fitness for Life Sixth Edition and Health for Life This is not just a health textbook with a few physical education concepts thrown in School systems that want a single textbook to help them address both physical education and health education standards will find that this book provides them a unique and cost effective option Health Opportunities Through Physical Education is available in print and digital formats including an iBooks interactive version for iPads plus other e book formats that students can use across a variety of platforms Part I Fitness for Life will help students become physically literate individuals who have the knowledge skills and confidence to enjoy a lifetime of healthful physical activity The book will guide students in becoming informed consumers on matters related to lifelong physical activity and fitness taking responsibility for setting individualized goals and making their own plans for active living To accomplish this overarching goal they learn a variety of self management skills including self assessment The program is based on established educational theory which is outlined in the teacher web resources And they learn all of this through a combination of classroom and physical activity lessons that meet national state and local physical activity guidelines and help instill a love for lifetime fitness activities Part I also enables students to achieve the following goals Meet college and career readiness standards by learning and using critical thinking decision making and problem solving skills Use the Stairway to Lifetime Fitness concept created by author Chuck Corbin to encourage higher order learning move from dependence to independence Perform self assessments including all tests in the Fitnessgram battery and the Presidential Youth Fitness Program Part I includes many features that actively engage students by allowing them to Assess their own fitness and other health and wellness factors to determine personal needs and assess progress resulting from healthy lifestyle planning Use Taking Charge and Self Management features to learn self

management skills e g goal setting self monitoring self planning for adopting healthy lifestyles Learn key concepts and principles higher order information and critical thinking skills that provide the basis for sound decision making and personal planning Do reading and writing assignments as well as calculations that foster college and career readiness Try out activities that are supported by lesson plans offered in the teacher web resources and that can help students be fit and active throughout their lives Take part in real life activities that show how new information is generated by using the scientific method Become aware of and use technology to learn new information about fitness health and wellness and learn to discern fact from fiction Use the web and the unique web icon feature to connect to relevant and expanded content for essential topics in the student web resource Find Academic Connections that relate fitness topics to other parts of the curriculum such as science language arts and math Use other features such as fitness quotes consumer corner Fit Facts and special exercise features including exercise and self assessment videos that promote higher order learning Focus their study time by following cues from Lesson Objectives and Lesson Vocabulary elements in every chapter Use the chapter ending review questions to test their understanding of the concepts and use critical thinking and project assignments to meet educational standards including college and career readiness standards Part II Health for Life teaches high school students the fundamentals of health and wellness how to avoid destructive habits and how to choose to live healthy lives This text covers all aspects of healthy living throughout the life span including preventing disease and seeking care embracing the healthy lifestyles choices of nutrition and stress management avoiding destructive habits building relationships and creating healthy and safe communities Part II also has an abundance of features that help students connect with content Lesson Objectives Lesson Vocabulary Comprehension Check and Chapter Review help students prepare to dive in to the material understand it and retain it Connect feature spurs students to analyze various influences on their health and wellness Consumer Corner aids students in exploring consumer health issues Healthy Communication gets students to use and expand their interpersonal communication skills as they share their views about various health topics Skills for Healthy Living and Making Healthy Decisions help students learn and practice self management so they can make wise choices related to their health and wellness Planning for Healthy Living assists students in applying what they ve learned as they set goals and establish plans for behavior change Self Assessment offers students the opportunity to evaluate their health habits and monitor improvement in health behaviors Find Academic Connections that relate fitness topics to other parts of the curriculum such as science language arts and math Take It Home and Advocacy in Action prepare students to advocate for health at home and in their communities Health Science and Health Technology focus on the roles of science and technology as they relate to health and where science and technology intersect regarding health issues Living Well News challenges students to integrate health literacy math and language skills to better understand a current health issue
