*Five Centuries of Women & Gardens* Sue Bennett, National Portrait Gallery (Great Britain), 2000 Sue Bennett charts the relationship between women and gardens from Elizabethan times to the present day This study is packed with portraits garden plans engravings watercolours and photographs

**Wives and Daughters** Joanna Martin, 2004-07-16 Told through the stories journals and personal letters of the women of the powerful Fox family *Wives and Daughters* is a window into the daily lives and experiences of women of eighteenth century aristocratic society and the country houses that symbolized the power and taste of eighteenth century Britain Combining personality with historical setting and detail Joanna Martin traces the lives of fifteen individual women in their four country houses through several generations in society and at home Taking an intimate and personal look at courtship marriage childbirth education houses and gardens reading hobbies travel and health this book is an engrossing account of woman s lives in this fascinating time

**A History of Women in the Garden** Twigs Way, 2005-01-01 From the early misfortunes of Eve condemning her descendants to a dubious reputation for fruit management to the acclaimed successes of plant breeders such as the eccentric Ellen Willmott who combined bankruptcy with iris breeding the fortunes of the female gardener have been as varied as their roles Telling the tales of the sixteenth century housewife who neatly sidestepped accusations of herbal witchcraft while working her plot and the unconventional Ladies of Llangollen who eloped together and created their gothic garden and many other women besides *A History of Women in the Garden* showcases female horticulturists through the centuries An enlightening and entertaining read that will allow the reader to gain fresh enthusiasm for even the most menial of garden tasks and realise that hundreds of women have trod the garden path before

**Women and Their Gardens** Catherine Horwood, 2012-04 From the golden age in English history to today s gardeners and designers this volume recognizes women s contributions to gardening in Britain and around the worldspanning more than four centuries Despite growing vegetables for their kitchens tending herbs for their medicine cupboards and teaching other women about the craft before agricultural schools officially existed women have been mere footnotes in the horticultural annals for specimens collected abroad These pioneers influence on the style of gardens in the present day is illustrated here in a style both accessible and scholarly Presenting a rare bouquet this collection shares the stories of more than 200 women who have been involved with garden design plant collecting flower arranging botanical art garden writing and education

**First Ladies of Gardening** Heidi Howcroft, 2015-03-05 The English Garden is the universal measure of all things related to garden design It is in the UK that the great garden designers live and work and where a major gardening movement has developed over the last few decades influencing the rest of the world with its ideas and vision This book introduces the grandes dames of contemporary English garden design and includes the great names of the garden world which have emerged since the 1950s from Vita Sackville West and Beth Chatto to Beatrix Havergal It also presents outstanding women gardeners of the present day who have likewise had a substantial influence on the development of

contemporary garden design Heidi Howcroft has discovered these women's gardening secrets and writes sensitively and informatively about the individual women and their influence on the English country garden. The individual gardens' charm and design are captured in photos by Marianne Majerus. Elizabeth von Arnim Isobel Maddison, 2016-04-29 In the first book-length treatment of Elizabeth von Arnim's fiction Isobel Maddison examines her work in its historical and intellectual contexts demonstrating that von Arnim's fine comic writing and complex and compelling narrative style reward close analysis. Organised chronologically and thematically Maddison's book is informed by unpublished material from the British and Huntington Libraries including correspondence between von Arnim her publishers and prominent contemporaries such as H G Wells Bertrand Russell and her cousin Katherine Mansfield whose early modernist prose is seen as indebted to von Arnim's earlier literary influence. Maddison's exploration of the novelist's critical reception is situated within recent discussions of the middlebrow and establishes von Arnim as a serious author among her intellectual milieu countering the misinformed belief that the author of such novels as *Elizabeth and Her German Garden* *The Caravaners* *The Pastor's Wife* and *Vera* wrote light-hearted fiction removed from gritty reality. On the contrary various strands of socialist thought and von Arnim's wider political beliefs establish her as a significant author of British anti-invasion literature while weighty social issues underpin much of her later writing. **Rosemary Verey** Barbara Paul Robinson, 2012-08-30 The biography of the inspiring woman who found late in life success as a powerhouse of British garden design. Booklist Rosemary Verey was a great English gardening legend. Although she embraced gardening late in life she quickly achieved international renown. She was the acknowledged apostle of the English style on display at her home at Barnsley House the must-have adviser to the rich and famous including Prince Charles and Elton John and a wildly popular lecturer in America. Born between the two World Wars she could have easily lived a predictable and comfortable life but a devastating accident changed everything. Then with her architect husband she went on to create the gardens at their home that became a mandatory stop on every garden tour in the 1980s and 1990s. At sixty-two she wrote her first book followed by seventeen more in twenty years. By force of character hard work and determination she tirelessly promoted herself and her garden lessons traveling worldwide to lecture sell books and spread her message. She was a natural teacher encouraging her American fans to believe that they were fully capable of creating beautiful gardens while validating their quest for a native vernacular. She also re-introduced the English to their own gardening traditions. Drawing from garden history and its literature she developed a language of classical formal design embellished with her exuberant planting style. Rosemary Verey in her life as in her work was the very personification of the English garden style. This book is for anyone who believes a garden makes one small part of this earth a little more beautiful.

*Edith Wharton in Context* Laura Rattray, 2012-10-08 This collection of essays examines the various social cultural and historical contexts surrounding Edith Wharton's popular and prolific literary career. **Hertfordshire Garden History** Anne Rowe, 2007 This volume contains original research into aspects of garden history in Hertfordshire. **Green Retreats**

Stephen Bending, 2013-06-06 *Green Retreats* presents a lively and beautifully illustrated account of eighteenth century women in their gardens in the context of the larger history of their retirement from the world whether willed or enforced and of their engagement with the literature of gardening Beginning with a survey of cultural representations of the woman in the garden Stephen Bending goes on to tell the stories through their letters diaries and journals of some extraordinary eighteenth century women including Elizabeth Montagu and the Bluestocking circle the gardening neighbours Lady Caroline Holland and Lady Mary Coke and Henrietta Knight Lady Luxborough renowned for her scandalous withdrawal from the social world The emphasis on how gardens were used as well as designed allows the reader to rethink the place of women in the eighteenth century and understand what was at stake for those who stepped beyond the flower garden and created their own landscapes **Virtus** H. Ronnes, N.H. Bijleveld, J.C.C.F.M. van den Borne, 2016 *Cultures of Colour* Chris

Horrocks, 2012-06-01 Colour permeates contemporary visual and material culture and affects our senses beyond the superficial encounter by infiltrating our perceptions and memories and becoming deeply rooted in thought processes that categorise and divide along culturally constructed lines Colour exists as a cultural as well as psycho physical phenomenon and acquires a multitude of meanings within differing historical and cultural contexts The contributors examine how colour becomes imbued with specific symbolic and material meanings that tint our constructions of race gender ideal bodies the relationship of the self to others and of the self to technology and the built environment By highlighting the relationship of colour across media and material culture this volume reveals the complex interplay of cultural connotations discursive practices and socio psychological dynamics of colour in an international context **The Secret Life of the Georgian**

**Garden** Kate Felus, 2016-12-09 Georgian landscape gardens are among the most visited and enjoyed of the UK's historical treasures The Georgian garden has also been hailed as the greatest British contribution to European Art seen as a beautiful composition created from grass trees and water a landscape for contemplation But scratch below the surface and history reveals these gardens were a lot less serene and in places a great deal more scandalous Beautifully illustrated in colour and black white this book is about the daily life of the Georgian garden It reveals its previously untold secrets from early morning rides through to evening amorous liaisons It explains how by the eighteenth century there was a desire to escape the busy country house where privacy was at a premium and how these gardens evolved aesthetically with modestly sized far flung temples and other eye catchers to cater for escape and solitude as well as food drink music and fireworks Its publication coincides with the 2016 tercentenary of the birth of Lancelot Capability Brown arguably Britain's greatest ever landscape gardener and the book is uniquely positioned to put Brown's work into its social context **Milton and Gender** Catherine

Gimelli Martin, 2005-01-06 Milton's contempt for women has been accepted since Samuel Johnson's famous *Life of the poet* Subsequent critics have long debated whether Milton's writings were anti or pro feminine a problem further complicated by his advocacy of divorce on demand for men *Milton and Gender* re evaluates these claims of Milton as anti feminist pointing

out that he was not seen that way by contemporaries but espoused startlingly fresh ideas of marriage and the relations between the sexes The first two sections of specially commissioned essays in this volume investigate the representations of gender and sexuality in Milton's prose and verse In the final section the responses of female readers ranging from George Eliot and Virginia Woolf to lesser known artists and revolutionaries are brought to bear on Milton's afterlife and reputation Together these essays provide a critical perspective on the contested issues of femininity and masculinity marriage and divorce in Milton's work

*Margins of Desire* Lynne Hapgood, 2005-05-06 Who said that the suburbs are boring The suburban trick is to look ordinary and be extraordinary as Lynne Hapgood's absorbing discussion of the suburbs in fiction from 1880-1925 reveals

**Lady Gardeners** Francesca Orestano, Michael Vickers, 2023-10-12 The Lady Gardeners are those women who from the eighteenth century to the present day have been working in a garden from imagining and creating it to sowing planting pruning painting and photographing plants and moving from garden design to more urgent themes such as landscape conservation and environmental issues

**Feminist Collections**, 2003 [The Victorian Gardener](#) Caroline Ikin, 2014-02-10 Over the course of the nineteenth century gardening came to be considered a respectable profession providing a means to an education a good chance of advancement and decent working conditions The hierarchy of the garden staff became just as regimented as that of domestic servants and progression was attained by hard work self improvement and ambition Training courses and apprenticeships prepared young gardeners for their trade and horticulture became recognised as a skilled profession with the head gardener commanding a position of influence and respect and women overcoming social barriers to join their peers on equal terms This book explores the gardening profession within the complexities of Victorian society and the advances in science and technology that pushed the gardener further into the limelight

*A Woman's Will* Viki Holton, 2023-07-15 Unearths the lives of British women over 1 000 years using the rich historical record of their wills and legacies

**Cultivating Victory** Cecilia Gowdy-Wygant, 2013-04-25 A compelling study of the sea change brought about in politics society and gender roles during World Wars I and II by campaigns to recruit Women's Land Armies in Great Britain and the United States to cultivate victory gardens Cecilia Gowdy-Wygant compares and contrasts the outcomes of war in both nations as seen through women's ties to labor agriculture the home and the environment She sheds new light on the cultural legacies left by the Women's Land Armies and their major role in shaping national and personal identities
