Five Hundred Delinquent Women

Sheldon Glueck, Eleanor Glueck

Five Hundred Delinquent Women:

Five Hundred Delinquent Women Sheldon Glueck, Eleanor Glueck, 1934 **Five Hundred Delinquent Women** Sheldon Glueck, Eleanor Touroff Glueck, 1934 A description of the growth of the Massachusetts institution for female offenders Shows that many years of effort much constructive imagination and a good deal of faith in the reformability of delinquent women have gone into the difficult task of transforming a prison into a reformatory Introduction *Five Hundred Delinquent Women, by Sheldon and Eleanor T. Glueck, with an Introd. by Roscoe Pound* Sheldon Glueck, 1965

Institutional Treatment of Delinquent Boys, 1936 **The History, Evolution, and Current State of Female Offenders** Alana Van Gundy, Shauntey James, 2022-01-20 The History Evolution and Current State of Female Offenders Recommendations for Advancing the Field summarizes what the field has learned about females and crime details the status of legislation and criminological research focused on female criminality and provides recommendations for advancing the field Van Gundy and James present the material from a gendered approach with the goal of analyzing the current understanding of the relationship between gender and crime Tracing the intellectual history of feminist criminology from its foundations to the present time the authors follow four primary themes What do we know about the relationship between gender and crime What special needs do female offenders have What works and doesn't work for female offenders What can or should we do from here Reaching back to Carol Smart's seminal 1976 book *Women Crime and Criminology A Feminist Critique* available through Routledge Revivals the authors note that in some ways modest progress has been made but large gaps in research and policy still exist This much needed book provides an overarching view of the history and evolution of the understanding of the relationship between gender and crime detailed analysis of seminal work and criminological studies an exploration of incarceration reentry and programing and concrete recommendations for future research These recommendations focus on the importance of creating and utilizing theoretical models that measure the role of gender and identity inclusion of female specific variables when examining and responding to criminality and the necessity of policymakers and legislators to address female criminality from a gendered lens The book will appeal to those who are interested in females and criminality race and ethnicity policy and evaluation criminal behavior criminology and students in courses in sociology psychology women and gender studies social justice black world studies gerontology and criminology criminal justice as well as policymakers and practitioners in the field It will inspire researchers to ask the kinds of questions that will advance the field of feminist criminology in the future **Criminalizing Women, 2nd Edition** Gillian Balfour, Elizabeth Comack, 2021-01-10T00:00:00Z Criminalizing women has become all too frequent in these neo liberal times Meanwhile poverty racism and misogyny continue to frame criminalized women's lives Criminalizing Women introduces readers to the key issues addressed by feminists engaged in criminology research over the past four decades Chapters explore how narratives that construct women as errant females prostitutes street gang associates and symbols of moral

corruption mask the connections between women's restricted choices and the conditions of their lives. The book shows how women have been surveilled, disciplined, managed, corrected, and punished, and it considers the feminist strategies that have been used to address the impact of imprisonment and to draw attention to the systemic abuses against poor and racialized women. In addition to updating material in the introductions and substantive chapters, this second edition includes new contributions that consider the media representations of missing and murdered women in Vancouver's Downtown Eastside, the gendered impact of video surveillance technologies, CCTV, the role of therapeutic interventions in the death of Ashley Smith, the progressive potential of the Inside Out Prison Exchange Program, and the use of music and video as decolonizing strategies.

Women, Crime and Criminology (Routledge Revivals) Carol Smart, 2013-10-14. First published in 1977. *Women, Crime and Criminology* presents a feminist critique of classical and contemporary theories of female criminality. It addresses the issue that criminology literature has throughout history been predominantly male oriented, always treating female criminality as marginal to the proper study of crime in society. Carol Smart explores a new direction in criminology and the sociology of deviance by investigating female crime from a committed feminist position. Examining the types of offences committed by female offenders, Smart points to the fallacies inherent in a reliance on official statistics and shows the deficiencies of the popular argument that female emancipation has caused an increase in female crime rates. She deals with studies of prostitution and rape and considers the treatment of women as offenders and victims by the criminal law, the police, and courts, and the penal system. Particular attention is given to the question of lenient treatment for female offenders, with the conclusion that women and girls are in some important instances actually discriminated against in our legal and penal systems. The relationship between female criminality and mental illness is discussed, and the author concludes by dealing with some of the problems inherent in developing a feminist criminology.

Hearings United States. Congress. Senate, 1943.

The Statutes of California California, 1919. Women and Crime Stacy L. Mallicoat, Connie Ireland, Connie Estrada Ireland, 2013-04-30. This text provides a comprehensive and unique view into the world of women interacting with the criminal justice system.

Five hundred delinquent women, by S. and E.T. Glueck, with an introduction by Roscoe Pound Sheldon Glueck, Eleanor Touroff Glueck, Oral History and Delinquency James Bennett, 1988-01-15. From Henry Mayhew's classic study of Victorian slums to Studs Terkel's presentations of ordinary people in modern America, oral history has been used to call attention to social conditions. By analyzing the nature and circumstances of the production of such histories of delinquency, James Bennett argues that oral history is a rhetorical device consciously chosen as such and is to be understood in terms of its persuasive powers and aims. Bennett shows how oral or life histories of juvenile delinquents have been crucial in communicating the human traits of offenders within their social context to attract interest in resources for programs to prevent delinquency. Although life history helped to establish the discipline of sociology, Bennett suggests concepts for understanding oral histories generated in many fields.

Statutes of California California, 1919. **Statutes**

of California Passed at the ... Session of the Legislature California,1921 *Comparative Criminology* Hermann Mannheim,1965 First Published in 1998 Routledge is an imprint of Taylor Francis an informa company Wartime Health and Education.(78-2) United States. Congress. Senate. Education and Labor,1944 *Wartime Health and Education* United States. Congress. Senate. Committee on Education and Labor,1944 *Institutional Treatment of Delinquent Boys* Alida C. Bowler,Ruth S. Bloodgood,1936 **Handbook of Crime Correlates** Lee Ellis,Kevin M. Beaver,John Wright,2009-05-07

Over the past two centuries many aspects of criminal behavior have been investigated Finding this information and making sense of it all is difficult when many studies would appear to offer contradictory findings The Handbook of Crime Correlates collects in one source the summary analysis of crime research worldwide It provides over 400 tables that divide crime research into nine broad categories Pervasiveness and intra offending relationships Demographic factors Ecological and macroeconomic factors Family and peer factors Institutional factors Behavioral and personality factors Cognitive factors Biological factors Crime victimization and fear of crime Within these broad categories tables identify regions of the world and how separate variables are or are not positively or negatively associated with criminal behavior Criminal behavior is broken down into separate offending categories of violent crime property crime drug offenses sex offenses delinquency general and adult offenses and recidivism Accompanying each table is a description of what each table indicates in terms of the positive or negative association of specific variables with specific types of crime by region This book should serve as a valuable resource for criminal justice personnel and academics in the social and life sciences interested in criminal behavior

Offending Girls Gilly Sharpe,2013-08-15 Offending Girls challenges simplistic representations of bad girls in the twenty first century and argues that the interventionist thrust which characterizes the contemporary youth justice system has had a particularly pernicious impact on girls
