Summary of Jim Rohn's The Five Major Pieces to the Life Puzzle Everest Media, 2022-05-09T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 Our personal philosophy is formed from what we know and the process of how we came to know all that we currently know We are constantly in the process of checking our preexisting beliefs for accuracy or confirmation in the light of new information 2 The way we choose to set our sail determines where we end up The major difference between those who achieve their goals and those who do not is their personal philosophy If we can develop a strong personal philosophy that helps us navigate life's challenges we can change the course of our income bank account lifestyle and relationships 3 The learning process plays a major role in determining our personal philosophy We can't live without the information that surrounds us making an impact on how we think The only way to eliminate these mental barriers is to review refine and revise our personal philosophy 4 The only way to change our thinking habits is to input new information We must get the information that success and happiness require and we must get it accurately Otherwise we will inevitably drift into ignorance becoming deluded by our power prestige and possessions
