Fixer-Upper Jenny Schuetz, 2022-02-22 Practical ideas to provide affordable housing to more Americans Much ink has been spilled in recent years talking about political divides and inequality in the United States But these discussions too often miss one of the most important factors in the divisions among Americans the fundamentally unequal nature of the nation's housing systems Financially well off Americans can afford comfortable stable homes in desirable communities Millions of other Americans cannot And this divide deepens other inequalities Increasingly important life outcomes performance in school employment even life expectancy are determined by where people live and the quality of homes they live in Unequal housing systems didn't just emerge from natural economic and social forces Public policies enacted by federal state and local governments helped create and reinforce the bad housing outcomes endured by too many people Taxes zoning institutional discrimination and the location and quality of schools roads public transit and other public services are among the policies that created inequalities in the nation's housing patterns Fixer Upper is the first book assessing how the broad set of local state and national housing policies affect people and communities It does more than describe how yesterday's policies led to

today's problems. It proposes practical policy changes that can make stable, decent quality housing more available and affordable for all Americans in all communities. Fixing systemic problems that arose over decades won't be easy in large part because millions of middle class Americans benefit from the current system and feel threatened by potential changes. But Fixer Upper suggests ideas for building political coalitions among diverse groups that share common interests in putting better housing within reach for more Americans, building a more equitable and healthy country.

The Fixer Upper Judith Arnold, 2012-10-15. As the admissions director for one of Manhattan's finest private schools, Libby Kimmelman is overworked, underpaid, and totally overwhelmed by flowers, chocolates, and other bribes from zealous parents determined to enroll their little Einsteins. The one parent who does intrigue her is Ned Donovan, Vermont rugged carpenter. Sexy, he shows up in her office trying to explain how his ten-year-old genius son applied to the school without his knowledge. A widower with a lust for her marble fireplace, Ned is the kind of man whose natural earthiness seems so deliciously sexy in the city. His knee-melting offer to strip her floors almost makes her forget her annoying ex, her exasperating teenage daughter, and the fact that she is about to lose her magnificent rent-stabilized New York apartment. But is this building renovator, after his son's admission, her old apartment or incredibly her?
