Flavor Chemistry Of Ethnic Foods:

Flavor Chemistry of Ethnic Foods Fereidoon Shahidi, Chi-Tang Ho, 2012-12-06 Ethnic and international foods have gradually been integrated into the daily diet in North America. However, the existing literature of flavor characteristics and chemistry of such foods remains fragmentary and diverse. This book presents a summary of the current status of knowledge in this area. Fermented Beverage Production Andrew G.H. Lea, John R. Piggott, 2012-12-06 Fermented Beverage Production Second Edition is an essential resource for any company producing or selling fermented alcoholic beverages. In addition, it would be of value to anyone who needs a contemporary introduction to the science and technology of alcoholic beverages. This authoritative volume provides an up-to-date practical overview of fermented beverage production focusing on concepts and processes pertinent to all fermented alcoholic beverages as well as those specific to a variety of individual beverages. The second edition features three new chapters on sparkling wines, rums, and Latin American beverages such as tequila, as well as thorough updating of information on new technologies and current scientific references. **Flavor Development for Functional Foods and Nutraceuticals** M. Selvamuthukumar, Yashwant V Pathak, 2019-09-23 In a finished nutraceutical product, flavors play an integral role. Flavor Development for Functional Foods and Nutraceuticals is about the crucial role added flavors play in any nutraceutical product. It describes the various extraction techniques that are being adopted for manufacturing flavors from natural raw materials. Yield and retention of aromatic components during several extraction methods and flavor encapsulation techniques for thermal degradable food components are discussed. Advanced methods of flavor extraction techniques like supercritical CO₂ extraction are emphasized. The safety and quality aspects of flavor incorporation in food processing industries are reviewed with respect to international regulations. The importance of flavor in the nutraceuticals industry is also discussed. In addition, the book stresses the functional value and organoleptic acceptability towards product optimization formulation. Features: Explains how flavors play an integral role in a finished nutraceutical product. Describes the various extraction techniques that are being adopted for manufacturing flavors from natural raw materials. Covers flavor encapsulation techniques for thermal degradable food components. Provides an introduction to the history of how some natural flavor ingredients, botanicals, and extracts were used in ancient times in Ayurveda and herbal medicine. This is an ideal reference book for the flavor chemists, food scientists, nutraceutical formulators, and students and academicians who are working in the area of nutraceutical supplement and functional food development and provides very useful information to help them select appropriate flavors for their products.
