John W. Jandora

Flawed Victory The Nineteen Eighty Two War In Lebanon:

Bowker's Law Books and Serials in Print ,1986 **Arabs at War** ,2004-01-01 Kenneth M Pollack formerly a Persian Gulf military analyst at the CIA and Director for Persian Gulf Affairs at the National Security Council describes and analyzes the military history of the six key Arab states Egypt Iraq Jordan Libya Saudi Arabia and Syria during the post World War II era He shows in detail how each Arab military grew and learned from its own experiences in response to the specific objectives set for it and within often constrained political economic and social circumstances This first ever overview of the modern Arab approach to warfare provides a better understanding of the capabilities and limitations of the Arab militaries some of which are the United States most likely adversaries and some of which are our most important allies *Forthcoming Books*

Rose Army,1986 *Victory, Defeat, or Draw* David Rodman,2020-12-09 Three outcomes are possible on the battlefield victory defeat or draw An adversary may defeat or be defeated by its adversary or neither of the two may emerge victorious or vanquished Observers of military history have long tried to identify the variables that determine victory defeat or draw While most would certainly acknowledge that decisions on the battlefield are dictated by a combination of variables rather than by a lone circumstance many observers nevertheless tend to stress a single variable for example the number of fighting men and fighting machines deployed by the adversaries or the operational doctrines employed by the opposing forces as far more significant to the explanations of these decisions than other variables This book in contrast takes a multicausal approach to the question of victory defeat or draw proposing that a combination of six organizational materiel and environmental variables are pivotal to the explanation of decision on the battlefield Using the extensive history of the Israel Defense Forces the book examines a sample of eight battles across the ArabIsraeli conflict from 1948 to 1982 in order to determine the collective impact of the six variables on the outcomes of these battles concluding that this basket of variables captures much of the explanation behind victory defeat or draw on the battlefield at least insofar as concerns the record of the IDF While the research in this book is aimed primarily at military historians and military practitioners it is fully accessible to any layperson interested in Israeli military history in particular or international military history in general **Subject**

Guide to Books in Print ,1993 Books in Print Supplement ,1985 Israel's Way of War Ehud Eilam,2016-01-13 Israel has fought many wars since its founding in 1948 from conventional military conflicts with Arab forces to irregular clashes with guerrilla and terror groups A study of these confrontations reveals strategic and military patterns Written by a former member of the Israel Defense Forces this book compares the wars fought in Lebanon against the Palestine Liberation Organization 1982 and against Hezbollah 2006 and in the Gaza Strip 1956 1967 2008 2009 and 2014 The author draws similarities between Israel and Western nations mainly the United States and Britain in their waging of conventional and irregular warfare and offers a comparison of the Vietnam War to Israel s struggle with Hezbollah in the 1990s **Paths to Peace** Elizabeth A. Stanley,2009-07-28 Paths to Peace begins by developing a theory about the domestic obstacles to making

peace and the role played by shifts in states governing coalitions in overcoming these obstacles In particular it explains how the longer the war the harder it is to end because domestic obstacles to peace become institutionalized over time Next it tests this theory with a mixed methods approach through historical case studies and quantitative statistical analysis Finally it applies the theory to an in depth analysis of the ending of the Korean War By analyzing the domestic politics of the war s major combatants the Soviet Union the United States China and North and South Korea it explains why the final armistice terms accepted in July 1953 were little different from those proposed at the start of negotiations in July 1951 some 294 000 additional battle deaths later Books in Print ,1977 *The U.S. Invasion of Grenada* Philip Kukielski,2020-01-03 In the fall of 1983 arguably the coldest year of the decades long Cold War the world s greatest superpower invaded Grenada a Marxist led Caribbean nation the size of Atlanta Why and how this unlikely one week war was waged was shrouded in secrecy at the time and has remained so ever since This book is an overdue reconsideration of Operation Urgent Fury based on historical evidence that only recently has been revealed in declassified documents oral history interviews and memoir accounts This chronological narrative emphasizes the human dimension of a sudden crisis now regarded as the greatest foreign policy challenge of President Ronald Reagan s first term Because the American intervention was hastily drafted many snafus and accidents marked the chaotic initial days of the operation Inevitably it fell to individual soldiers aviators and sailors to perform heroic acts to make up for faulty intelligence inadequate communication or poor coordination This work recounts their inspiring underreported stories in filling out a more complete portrait of Operation Urgent Fury The final chapter recounts the invasion s aftereffects especially the unexpected role it played in Congressional reform of the military for future combat in the Middle East **The Publishers' Trade List Annual** ,1985 *The Lessons of Modern War: The Arab-Israeli conflicts, 1973-1989* Anthony H. Cordesman,Abraham R. Wagner,1990 This series takes a comprehensive look at five major conflicts in the later part of the 20th century **The Sword And The Olive** Martin Van Creveld,2008-08-06 Combining razor sharp analysis with dramatic narrative vivid portraits of soldiers and commanders with illuminating discussions of battle tactics and covert actions The Sword and the Olive traces the history of the IDF from its beginnings in Palestine to today The book also goes beyond chronology to wrestle with the political and ethical struggles that have shaped the IDF and the country it serves struggles that are manifesting themselves in the recent tragic escalation of the Palestinian Israeli conflict Often revisionist in attitude surprising in many of its conclusions this book casts new light on the struggle for peace in the Middle East The Defense Policies of Nations Douglas J. Murray,Paul R. Viotti,1994 Now in its third edition The Defense Policies of Nations has been thoroughly updated to take into account the dramatic developments of recent years the dissolution of the Soviet Union the resurgence of East Asian powers the emergence of newly independent nations in Eastern Europe the continuing instability of the Middle East and the growing importance of third world nations in global security matters For those dealing with national defense issues on a daily basis or even for those interested in the subject

because of its current relevance The Defense Policy of Nations is must reading Gen Theodore J Conway Military Review American Academy of Political and Social Science **Index of Islamic Literature** ,1988 **Readers' Guide to Periodical Literature** Bertha Tannehill,Anna Lorraine Guthrie,Neltje Marie Tannehill Shimer,1904 An author subject index to selected general interest periodicals of reference value in libraries *Airpower Journal* ,1989 *The Writer's Directory*, 1998-2000 Miranda H. Ferrara,1995 Information on more than 17 500 living authors from English speaking countries

Militarism in Arab Society John W. Jandora,1997-05-12 A much needed reference aid for the academic and national defense communities this book provides a framework for the historical and comparative study of the military culture of Arab society In sections considering warfare in Arab traditions military roles in medieval Islam and Arab armies in the modern age each chapter s bibliography is preceded by a background essay designed to assist researchers who are unfamiliar with the general outline of Arab history or the thematic bent of Arabic historiography The work also includes a glossary and tables of Islamic dynasties Written primarily for professors and students of comparative military history national and service intelligence analysts and students of Arab Islamic or Middle Eastern history this work will also be of use to the generalist historian Host Bibliographic Record for Boundwith Item Barcode 38888110806340 and Others ,2013
