Fishery Management In Japan Fao Fisheries Technical Paper No 238:

Fishery Management in Japan FAO.,1983 *Catalogue of Accessioned Publications* World Data Center A--Oceanography,1984 *FAO Fisheries Technical Paper* ,2001 Co-operative Management of Local Fisheries Evelyn Pinkerton,2011-11-01 In recent years concern over the mismanagement and depletion of our natural resources has grown Innovative responses to this trend have been developed in the management of fisheries when groups or communities of fishermen and various levels of government in Canada and the United States have worked out agreements to share decision making This book is the first to consolidate information on the different routes by which these co operative management arrangements have evolved The authors include anthropologists environmental planners biologists economists fishery managers and tribal and governmental leaders Their contributions examine the process of achieving co management the institutions created by co management arrangements and the benefits which result Some of these benefits include more efficient and equitable management less conflict between government and fishermen and better co operation between groups of fishermen As the cost of centralized government rises and as resource dependent regions demand greater control over development co operative management will become one of the most important means of regulating the use of certain natural resources Co operative Management of Local Fisheries looks at successes and failures of these arrangements for shared decision making and offers guidelines for viable co operative management *Fishery Management in Japan Fao Fisheries Technical Paper 238* Yohoji Asada,2017-08-24 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work was reproduced from the original artifact and remains as true to the original work as possible Therefore you will see the original copyright references library stamps as most of these works have been housed in our most important libraries around the world and other notations in the work This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work As a reproduction of a historical artifact this work may contain missing or blurred pages poor pictures errant marks etc Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge alive and relevant *Fishery Management* Rekha R. Gaonkar,2008 Study conducted in Goa State India **Handbook of Environmental Economics** Karl-Goran Maler,Jeffrey R. Vincent,2003-05-20 The Handbook of Environmental Economics focuses on the economics of environmental externalities and environmental public goods Volume I examines environmental degradation and policy responses from a microeconomic institutional standpoint Its perspective is dynamic including a consideration of the dynamics of natural systems and global with attention paid to issues in both rich and poor nations In addition to chapters on well established topics such as the theory and practice of pollution regulation it includes chapters on

new areas of environmental economics research related to common property management regimes population and poverty mechanism design political economy of regulation experimental evaluations of policy instruments and technological change

Using Market Mechanisms to Manage Fisheries Smoothing the Path OECD,2006-04-04 This study demystifies the concept of market like instruments in order to help policy makers make better use of market like instruments in fisheries management

The Fisheries Forecasting System in Japan for Coastal Pelagic Fish I. Yamanaka,1988-01-01 The fisheries forecasting system currently employed in Japan has been reviewed from both a technical and administrative point of view The methodology technology data information and data processing employed the result and benefits derived have been discussed and appraised in some detail The system contribution to the total Japanese fisheries production and the socio economic benefits to the nation have also been discussed The linkage between forecasting and the fisheries management scheme employed in Japan has been examined Finally a review of general requirements for and guidelines on the establishment of a fisheries forecasting system in other countries have been given

Fisheries Management in Japan Mitsutaku Makino,2011-08-26 Japan is one of the world s largest fish eating countries with a long history and has developed its own customs and values in terms of managing fisheries resources The first half of this book introduces the history and institutional features of capture fisheries management in Japan with 9 case studies from sub arctic to tropical ecosystems from sedentary to migratory species and from small scale coastal to offshore industrial fisheries For example coastal fisheries management is more community based and local people have the authority and take priority in the decision making process In contrast offshore fisheries are more industrialized and commercially oriented and the national government plays a major role in their management One of the main challenges in world fisheries is to implement the ecosystem approach but there is no one size fits all solution for its implementation The second half of this book considers the advantages and limitations of the Japanese fisheries management regime and discusses the necessary environmental policy measures to bridge the gaps between fisheries management and ecosystem based management As a case study management measures in the Shiretoko World Natural Heritage area are analyzed In closing the Grand Plan of Japanese fisheries policy for the next 20 years and three future scenarios are presented

Overcoming Factors of Unsustainability and Overexploitation in Fisheries Food and Agriculture Organization of the United Nations,2005-01-01 This international workshop was organized in order to identify factors of unsustainability and over exploitation in fisheries and review major issues in the implementation of international fisheries instruments The Workshop was based on a review of discussion papers that took into account the outcomes of the previous workshops on these issues It addressed the following thematic issues governance and fisheries management causes or solutions for unsustainability access and fishing rights fishery management and sustainability dimensions and small scale issues and developing country perspective This document contains the report of the Workshop and eighteen discussion papers submitted by participants

Population Pressure and Management of Natural Resources Jean-Marie

Baland, Jean-Philippe Platteau, 1996-01-01 Halting Degradation of Natural Resources Jean-Marie Baland, Jean-Philippe Platteau, 1996 Stress is then laid on the global context within which user groups operate including the nature and the forms of state intervention and the effects of increasing market integration To date this context has generally been uncongenial to community based resource management therefore the authors recommend that whenever a co management approach is feasible the concrete institutional form adopted is tailored to the specific features of local cultures Handbook of New Institutional Economics Claude Ménard, Mary M. Shirley, 2005-10-27 New Institutional Economics NIE has skyrocketed in scope and influence over the last three decades This first Handbook of NIE provides a unique and timely overview of recent developments and broad orientations Contributions analyse the domain and perspectives of NIE sections on legal institutions political institutions transaction cost economics governance contracting institutional change and more capture NIE s interdisciplinary nature This Handbook will be of interest to economists political scientists legal scholars management specialists sociologists and others wishing to learn more about this important subject and gain insight into progress made by institutionalists from other disciplines This compendium of analyses by some of the foremost NIE specialists including Ronald Coase Douglass North Elinor Ostrom and Oliver Williamson gives students and new researchers an introduction to the topic and offers established scholars a reference book for their research **The Last Fish Swimming** Gohar A. Petrossian, 2019-05-17 This book examines the global local and specific environmental factors that facilitate illegal fishing and proposes effective ways to reduce the opportunities and incentives that threaten the existence of the world s fish Humans are deeply dependent on fishing globally fish comprise 15 percent of the protein intake for approximately 3 billion people and 8 percent of the global population depends on the fishing industry as their livelihood The global fishing industry is plagued by illegal fishing however and many highly commercial species such as cod tuna orange roughy and swordfish are extremely vulnerable Through criminological analysis The Last Fish Swimming emphasizes the importance of looking at specific environmental factors that make illegal fishing possible It examines such factors as proximity to known ports where illegally caught fish can be landed without inspection i e ports of convenience fisheries monitoring control and surveillance efforts formal surveillance and resource attractiveness in 53 countries that altogether represent 96 percent of the world s fish catch The book calls upon the global community to address the illegal depletion of the world s fish stock and other similar threats to the world s food supply and natural environment in order to ensure the sustainability of the planet s fish and continuation of the legal fishing industry for generations to come **Catalogue of Accessioned Publications, 1957-67** World Data Center A--Oceanography, 1984 *The Privatization of the Oceans* Rögnvaldur Hannesson, 2004 Why exclusive use rights in particular individual transferable quotas provide the most efficient way to use fishing resources theory plus case studies of ITQs in six countries *Management of Multispecies Resources and Multi-gear Fisheries* Fukuz? Nagasaki, S. Chikuni, 1989-01-01 The management of multispecies fisheries employed in Japan has been reviewed from both a

global and a region subject specific point of view The discussion focuses on five major principles involved in the management of multispecies resources and multi gear fisheries in the coastal waters around Japan with examples from past experience The topics discussed include the legal and political arrangements for the management and coordination of the fisheries including the autonomous regulatory system established by the fishermen themselves 2 the successional fishing employed in two small fishing communities 3 the demersal fish fisheries along the entire coast of Japan 4 the coastal pelagic fish fisheries with special reference to large changes in stock abundance and species composition and 5 the comprehensive utilization of resources in the Seto Inland Sea The last topic presents a clear example of a practical application of the comprehensive management measures being applied to a limited sea area where complicated multispecies resources are exploited In particular the discussion considers how to cope with changes in the resources brought about by either natural or man made causes including the successes and failures of past management An overall discussion of findings focuses specifically on a few critical problems that must be taken into account when the management of multispecies resources and multi gear fisheries is planned and or implemented Finally guidelines for such management are set down to facilitate the assessment of such a system in the countries where similar management issues have not yet been experienced

Japan's International Fisheries Policy Roger D. Smith, 2014-09-19 Few nations rely upon the ocean as much as Japan for livelihood culture and transport The seas have long played a vital role for the Japanese helping to support the economic and social life of a nation that possesses few resources and little arable land and sustain a population that has nearly tripled in the last century Fish are a distinctive feature of the Japanese diet constituting nearly half of all animal protein consumed the highest rate in the world The industry itself has provided an impetus for coastal community growth and national economic development over the past century while fisheries have worked their way into Japanese culture and customs serving as a dominant symbol in traditional arts and folklore This book explores the overarching rationale that motivated Japanese international fisheries policy throughout the post war period until today highlighting the importance of international fisheries to Japan and the stature this resource has occupied as a national interest It provides a comparative view of Japanese foreign policy at various ocean conferences treaty negotiations bilateral diplomatic initiatives and other maritime relations that constitute ocean policy over half a century and investigates the domestic constituents of national policy Roger Smith argues that the rationale for international fisheries policy may be best viewed as deriving from Japan s unique defence strategy for its national interests comprehensive security Encompassing non military elements and most importantly defence of economic interests Japan s international fisheries policy provides an interesting case study of how comprehensive security is conceptualised and carried out Taking a broad view of Japan s international fisheries policies from 1945 to the present this book highlights the key trends in policy motives and means throughout the post war period As such it will be of great interest to students and scholars of Japanese studies international and environmental law resource management and international relations as well as

to policy makers working in the field
