Fitting In Four Generations Of College Life:

Fitting in Barbara A. Schreier,1991 A nostalgic and sometimes shocking tour of life and fashion on U S college campuses The Scrapbook in American Life Susan Tucker,Katherine Ott,Patricia Buckler,2006 This book explores the history of scrapbook making its origins uses changing forms and purposes as well as the human agents behind the books themselves Scrapbooks bring pleasure in both the making and consuming and are one of the most enduring yet simultaneously changing cultural forms of the last two centuries Despite the popularity of scrapbooks no one has placed them within historical traditions until now This volume considers the makers their artefacts And The viewers within the context of American culture The volume s contributors do not show the reader how to make scrapbooks or improve techniques but instead explore the curious history of what others have done in the past and why these splendid examples of material and visual culture have such a significant place in many households **Displays!** Susan P. Phillips,2014-01-10 Just about any librarian needs new ideas for dynamic topical library displays This new second volume offers ideas on a wide range of subjects including women of note news worthy events Mother Nature great moments in time prominent figures in history global cultures and more Each display topic includes a comprehensive background discussion along with detailed assembly instructions an explanation of the genesis of the idea and suggestions on ways to adapt these designs to fit into larger spaces The author includes everyday items prized collectibles and authentic antiques in each of the 45 displays featured College Belonging Lisa M. Nunn,2021-02-12 College Belonging reveals how colleges and universities efforts to foster a sense of belonging in their students are misguided Colleges bombard new students with the message to get out there and find your place by joining student organizations sports teams clubs and the like Nunn shows that this reflects a flawed understanding of what belonging is and how it works Drawing on the sociological theories of Emile Durkheim College Belonging shows that belonging is something that members of a community offer to each other It is something that must be given like a gift Individuals cannot simply walk up to a group or community and demand belonging That s not how it works The group must extend a sense of belonging to each and every member It happens by making a person feel welcome to feel that their presence matters to the group that they would be missed if they were gone This critical insight helps us understand why colleges push for students simply to get out there does not always work **American Book Publishing Record** ,1992

Harvey, Teresa Heinz House, 2011-09-26 Gain a greater understanding of the academic cultural and social experiences of first generation college students FGS Fascinating heart touching and important the research and the stories presented here enlighten what FGS often have to overcome to successfully complete their degrees With an emphasis on improving FGS college success retention and graduation rates this volume first covers common obstacles and the trend of FGS continuing on for graduate degrees Section Two discusses the complex interplay of social academic emotional and financial influences on academic performance The chapters collectively affirm that the commitment of university resources is critical to college success This is the 127th volume of the Jossey Bass higher education quarterly report New Directions for Teaching and Learning which offers a comprehensive range of ideas and techniques for improving college teaching based on the experience of seasoned instructors and the latest findings of educational and psychological researchers

Postsecondary Education for First-Generation and Low-Income Students in the Ivy League Kerry H. Landers, 2017-10-03 This book examines how previously excluded high achieving low income students are faring socially and academically at an Ivy League college in New England In the past research conducted on low income students in elite schools focused mainly on the admissions process As a result there is a dearth of research on what happens to low income students once they are admitted and attend classes This book chronicles an ethnographic study of twenty low income men and women in their senior year at Dartmouth College and follows up with them four and twelve years post graduation By helping to bring visibility and self awareness to low income students and expose class issues and struggles the author hopes to encourage elite institutions to change their policies and practices to address the needs of these students

Class and Campus Life Elizabeth M. Lee, 2016-05-10 In 2015 the New York Times reported The bright children of janitors and nail salon workers bus drivers and fast food cooks may not have grown up with the edifying vacations museum excursions daily doses of NPR and prep schools that groom Ivy applicants but they are coveted candidates for elite campuses What happens to academically talented but economically challenged first gen students when they arrive on campus Class markers aren't always visible from a distance but socioeconomic differences permeate campus life and the inner experiences of students in real and sometimes unexpected ways In Class and Campus

Life Elizabeth M Lee shows how class differences are enacted and negotiated by students faculty and administrators at an elite liberal arts college for women located in the Northeast Using material from two years of fieldwork and more than 140 interviews with students faculty administrators and alumnae at the pseudonymous Linden College Lee adds depth to our understanding of inequality in higher education An essential part of her analysis is to illuminate the ways in which the students and the college s practices interact rather than evaluating them separately as seemingly unrelated spheres She also analyzes underlying moral judgments brought to light through cultural connotations of merit hard work by individuals and making it on your own that permeate American higher education Using students own descriptions and understandings of their experiences to illustrate the complexity of these issues Lee shows how the lived experience of socioeconomic difference is often defined in moral as well as economic terms and that tensions often unspoken undermine students senses of belonging

The First Generation Student Experience Jeff Davis,2023-07-03 Co published with More first generation students are attending college than ever before and policy makers agree that increasing their participation in higher education is a matter of priority Despite this there is no agreed definition about the term few institutions can quantify how many first generation students are enrolled or mistakenly conflate them with low income students and many important dimensions to the first generation student experience remain poorly documented Few institutions have in place a clear well articulated practice for assisting first generation students to succeed Given that first generation students comprise over 40% of incoming freshmen increasing their retention and graduation rates can dramatically increase an institution s overall retention and graduation rates and enhance its image and desirability It is clearly in every institution s self interest to ensure its first generation students succeed to identify and count them and understand how to support them This book provides high level administrators with a plan of action for deans to create the awareness necessary for meaningful long term change sets out a campus acclimation process and provides guidelines for the necessary support structures At the heart of the book are 14 first person narratives by first generation students spanning freshman to graduate years that help the reader get to grips with the variety of ethnic and economic categories to which they belong The book concludes by defining 14 key issues that institutions need to address and offers a course of action for addressing them This book is intended for everyone who serves these students faculty academic advisors counselors student affairs professionals admissions officers and administrators and offers a set of best practices for how two and four year institutions can improve the success of their first generation student populations An ACPA Publication *Colleges in New York* Peterson's,2009-09 This annually updated and comprehensive guide helps students and parents compare colleges within a specific geographic area New York Accredited regional colleges and universities are profiled with the latest information on financial aid admissions and student body statistics *Remaking the American College Campus* Jonathan Silverman,Meghan M. Sweeney,2016-10-06 The built and landscaped spaces of colleges and universities radiate and absorb the values of the cultures in which they were created As economic and political

forces exert pressure on administrators and as our understanding of higher education shifts these spaces can transform dramatically Focusing on the utopian visions and the dystopian realities of American campus life this collection of new essays examines campus spaces from the perspective of those who live and work there Topics include disability sustainability first year writing underrepresented groups on campus online education adjunct labor and the way profit driven agendas have shaped colleges and universities

Debunking the Myth of Job Fit in Higher Education and Student Affairs Brian J. Reece, Vu T. Tran, Elliott N. DeVore, Gabby Porcaro, 2023-07-03 Co published with This groundbreaking book examines a concept that has gone unexamined for too long The concept of job fit in the student affairs profession Fit is a term used by nearly everyone in student affairs throughout the hiring process from search committees and hiring managers to supervisors and HR professionals This book opens a conversation about the use of job fit as a tool for exclusion that needs to be critically investigated from multiple standpoints This edited collection brings together a number of voices to look at the issues involved through various lenses to explore the ways policies procedures environments and cultural norms provide inequitable job search experiences for individuals from various marginalized groups These include looking at the legal aspects employer definitions communication barriers as well as scholarly personal narratives looking at the concept from the perspective of class race gender and sexual orientation Emerging from the Commission for Social Justice of ACPA the personal narratives and critical explorations in this book are an attempt to provide graduate students and professionals with a resource that is relevant to the job search in an increasingly competitive job market while taking into account the complex realities of their identities The normative assumptions of fit are analyzed by the authors to make visible the barriers those assumptions create for those with non dominant identities The student affairs profession strives for inclusion and acceptance as a core value and an essential competency The profession has made progress in the way it serves students but there is a disconnect between the conversation about students and the way those same values play out in the treatment of practitioners and scholars in the field This book aims to help job seekers looking to evaluate fit in their current and possible future positions as well as hiring managers who face challenges in creating equitable hiring processes Challenging the norms and rhetoric about job fit in student affairs means that scholars and practitioners alike must be able to incorporate this topic explicitly into various aspects of the profession

Degrees of Inequality Ann L. Mullen, 2011-01-03 2011 Educator s Award Delta Kappa Gamma Society International 2011 Outstanding Publication in Postsecondary Education American Educational Research Association Division J *Degrees of Inequality* reveals the powerful patterns of social inequality in American higher education by analyzing how the social background of students shapes nearly every facet of the college experience Even as the most prestigious institutions claim to open their doors to students from diverse backgrounds class disparities remain Just two miles apart stand two institutions that represent the stark class contrast in American higher education Yale an elite Ivy League university boasts accomplished alumni including national and world leaders in business and politics Southern Connecticut State

University graduates mostly commuter students seeking credential degrees in fields with good job prospects Ann L Mullen interviewed students from both universities and found that their college choices and experiences were strongly linked to social background and gender Yale students most having generations of family members with college degrees are encouraged to approach their college years as an opportunity for intellectual and personal enrichment Southern students however perceive a college degree as a path to a better career and many work full or part time jobs to help fund their education Moving interviews with 100 students at the two institutions highlight how American higher education reinforces the same inequities it has been aiming to transcend *Advances in Experimental Social Psychology* Bertram

Gawronski,2023-09-16 The *Advances in Experimental Social Psychology* series is the premier outlet for reviews of mature high impact research programs in social psychology Contributions to the series provide defining pieces of established research programs reviewing and integrating thematically related findings by individual scholars or research groups Topics discussed in Volume 68 include numeracy and decision making social psychological phenomena in everyday life social evaluative threat judgments of change and action control Provides one of the most cited series in the field of experimental social psychology Contains contributions of major empirical and theoretical interest Represents the best and brightest in new research theory and practice in social psychology *Narratives on Becoming* Emilie Clucas Leaderman,Jennifer S.

Jefferson,Jo Ann Gammel,Sue L. Motulsky,Amy Rutstein-Riley,2021-07-01 Learning and identity development are lifetime processes of becoming The construction of self of interest to scholars and practitioners in adult development and adult learning is an ongoing process with the self both forming and being formed by lived experience in privileged and oppressive contexts Intersecting identities and the power dynamics within them shape how learners define themselves and others and how they make meaning of their experiences in the world The series *I Am What I Become Constructing Identities as Lifelong Learners* is an insightful and diverse collection of empirical research and narrative essays in identity development adult development and adult learning The purpose of this series is to publish contributions that highlight the intimate and intricate connections between learning and identity The series aims to assist our readers to understand and nurture adults who are always in the process of becoming We hope to promote reflection and research at the intersection of identity and adult learning at any point across the adult lifespan The rich array of qualitative research designs as well as autobiographic and narrative essays transform and expand our understanding of the lived experience of people both like us and unlike us from the U S and beyond *Narratives on Becoming Identity and Lifelong Learning* Volume Three of the series explores a myriad of ways that authors personal and professional growth has influenced identity development These chapters provide insights into the intersectional identities and learning of writers Drawing from the multiple paths that comprise the journey of lifelong learning these authors present powerful stories that identify the ways relationships environments culture travel and values shape their identities use literacy teaching and learning as vehicles for experimenting with new identities negotiate multiple

identities contexts and transitions involved in becoming and construct meaning Through their narrative essays and ethnographic autobiographical accounts the authors in this volume illuminate the power of transformational learning during life changing events and transitions Praise for Narratives on Becoming Identity and Lifelong Learning The third volume in the I Am What I Become series Narratives on Becoming Identity and Lifelong Learning invites readers into the lives of educators from around the world This book includes important narratives from students secondary educators and post secondary educators alike highlighting how race class gender and a wide range of other intersectional identities shape the diverse lived experiences of educators and their students This volume also serves as an important reminder for all of us that the learning process continues across a lifetime and transcends the limits of the traditional classroom Brian Bicknell President Manchester Community College We all pay lip service to the importance of lifelong learning but what is it exactly and how does it come about The connections between identity and learning are intriguing and complex especially when it comes to adult learners In this very thoughtfully organized collection researchers present qualitative and narrative studies along with personal narratives to explore identity development in formal and informal learning environments Contributions from varied cultural contexts most with powerful and moving stories to tell provide insight into how identity meaning making and adult learning and development intersect and influence each other Psychologists scholars and educators interested in identity development and meaning making will find inspiration and fresh understanding in this innovative and enlightening series Ruthellen Josselson Author Paths to Fulfillment Women s Search for Meaning and Identity This innovative series on adult development is inspiring and substantive We hear voices from the margins and stories of courage We read identity formation narratives by young adults and experienced professionals who share impressive capacities for transparency vulnerability and self reflection Many of the narratives are embedded in rigorous qualitative research that highlights diverse ways that identity is shaped through social positionality lived experience the quest for individuation and willingness to encounter life as a dynamic learning process Jared D Kass Lesley University Author A Person Centered Approach to Psychospiritual Maturation Mentoring Psychological Resilience and Inclusive Community in Higher Education Clearing the Path for First-Generation College Students Bedelia Nicola Richards,Ashley C. Rondini,Nicolas P. Simon,2018-06-07 Clearing the Path for First Generation College Students comprises a wide range of studies that explore the multidimensional social processes and meanings germane to the experiences of first generation college students before and during their matriculation into institutions of higher education The chapters offer timely empirical examinations of the ways that these students negotiate experiences shaped by structural inequities in higher education institutions and the pathways that lead to them This volume provides insight into the dilemmas that arise from the transformation of students class identities in pursuit of upward mobility as well as their quest for community and a sense of belonging on college campuses that have not been historically designed for them While centering first generation status this collection also critically engages the ways in which

other dimensions of social identity intersect to inform students educational experiences in relation to dynamics of race ethnicity socioeconomic class gender and immigration Additionally this book takes a holistic approach by exploring the ways in which first generation college students are influenced by and engage with their families and communities of origin as they undertake their educational careers
