Five Films about Christo & Jean-Claude: A Maysles Films Production Maysles Films Production, 2004 *Ribbon of Darkness* Barbara Maria Stafford, 2019-06-18 Over the course of her career Barbara Stafford has established herself the preeminent scholar of the intersections of the arts and sciences articulating new theories and methods for understanding the sublime the mysterious the inscrutable Omnivorous in her research she has published work that embraces neuroscience and philosophy biology and culture pinpointing connections among each discipline s parallel concerns *Ribbon of Darkness* is a monument to the scope of her work and the range of her intellect At times associative but always incisive the essays in this new volume take on a distinctly contemporary purpose to uncover the ethical force and moral aspects of overlapping scientific and creative inquiries This shared territory Stafford argues offers important insights into and clarifications of current dilemmas about personhood the supposedly menial nature of manual skill the questionable borderlands of gene editing the potentially refining value of dualism and the limits of a materialist worldview Stafford organizes these essays around three concepts that structure the book inscrutability ineffability and intuitability All three she explains allow us to examine how both the arts and the sciences imaginatively infer meaning from the veiled behavior of matter bringing these historically divided subjects into a shared intellectual inquiry and imbuing them with an ethical urgency A vanguard work at the intersection of the arts and sciences this book will be sure to guide readers from either realm into unfamiliar yet undeniably fertile territory The Film Companion Peter Morris, 1984 *Five Films about Christo and Jeanne-Claude* Maysles Films New York, NY, 2004 **Saints, Clergy and Other Religious Figures on Film and Television, 1895-2003** Ann C. Paietta, 2015-01-24 The portrayal of clergy saints missionaries monks and other spiritual leaders dates back to the very beginnings of motion pictures and television Over the years filmmakers have portrayed religious figures as heroes and villains sinners and saints and nearly everything in between Through their works filmmakers have influenced how society viewed these religious figures and by extension religion itself This work details over 900 films and television series made from the 1890s through 2003 in which a religious figure plays a prominent or recurring role or in which a character poses as a religious figure For each motion picture full filmographic data are provided including title studio running time year of release director producer writer and cast along with a synopsis focusing on the role of the religious figure Television series are covered in a separate section For each show the entry includes the title under which the show was commonly known the original broadcast network the years the show ran running time and cast and a brief discussion of the religious character s role in the overall series Extensively indexed **Science Fiction Film Directors, 1895-1998** Dennis Fischer, 2011-12-14 This enormous and exhaustive reference book has entries on every major and minor director of science fiction films from the inception of cinema circa 1895 through 1998 For each director there is a complete filmography including television work a career summary a critical assessment and behind the scenes production information Seventy nine directors are covered in

especially lengthy entries and a short history of the science fiction film genre is also included **Provocative Plastics** Susan Lambert, 2021-01-07 Plastics have now been our most used materials for over fifty years This book adopts a new approach exploring plastics contribution from two perspectives as a medium for making and their value in societal use The first approach examines the multivalent nature of plastics materiality and their impact on creativity through the work of artists designers and manufacturers The second perspective explores attitudes to plastics and the different value systems applied to them through current research undertaken by design materials and socio cultural historians The book addresses the environmental impact of plastics and elucidates the ways in which they can and must be part of the solution The individual viewpoints are provocative and controversial but together they present a balanced and scholarly unpicking of the debate that surrounds this ubiquitous group of materials The book is essential reading for a wide academic readership interested in the Arts and Humanities especially Design and Design History Anthropology and Cultural Material and Social Histories *Avery Index to Architectural Periodicals*, 1995 Avery Library, 1997-02 **Free Speech Beyond Words** Mark V. Tushnet, Alan K. Chen, Joseph Blocher, 2020-02-15 A look at First Amendment coverage of music non representational art and nonsense The Supreme Court has unanimously held that Jackson Pollock s paintings Arnold Sch enberg s music and Lewis Carroll s poem Jabberwocky are unquestionably shielded by the First Amendment Nonrepresentational art instrumental music and nonsense all receive constitutional coverage under an amendment protecting the freedom of speech even though none involves what we typically think of as speech the use of words to convey meaning As a legal matter the Court s conclusion is clearly correct but its premises are murky and they raise difficult questions about the possibilities and limitations of law and expression Nonrepresentational art instrumental music and nonsense do not employ language in any traditional sense and sometimes do not even involve the transmission of articulable ideas How then can they be treated as speech for constitutional purposes What does the difficulty of that question suggest for First Amendment law and theory And can law resolve such inquiries without relying on aesthetics ethics and philosophy Comprehensive and compelling this book represents a sustained effort to account constitutionally for these modes of speech While it is firmly centered in debates about First Amendment issues it addresses them in a novel way using subject matter that is uniquely well suited to the task and whose constitutional salience has been under explored Drawing on existing legal doctrine aesthetics and analytical philosophy three celebrated law scholars show us how and why speech beyond words should be fundamental to our understanding of the First Amendment *Flash Art* , 1990 *Engaging Performance* Jan Cohen-Cruz, 2012-07-26 Engaging Performance Theatre as Call and Response presents a combined analysis and workbook to examine socially engaged performance It offers a range of key practical approaches exercises and principles for using performance to engage in a variety of social and artistic projects Author Jan Cohen Cruz draws on a career of groundbreaking research and work within the fields of political applied and community theatre to explore the impact of how differing genres of theatre respond to
