little further if you can learn from other people's difficulties you are two steps ahead Learning what they did to solve the problem may help you with the same problem and if you are lucky learning what caused their problem in the first place may enable you to avoid it happening to you I am now well into my eighth decade of life Some days I think I've seen solved most of the problems that may yet come up other days new problems come as unwanted surprises so I am still learning too I thought it was about time to share some of my experiences in the hope that what I've learned will help you There are few guarantees in life but with a little planning and forethought you can often tip the scales in your favor or you can change the odds a little more to your benefit As a result hopefully you will be able to avoid most major problems and minimize the impact caused by the others The trip you are about to take will highlight many experiences from my life some of which hopefully will stay with you and you will benefit from what I learned without pain to yourself I've always tried to see the fun parts of everything whenever the situation permits I also try to share what I've learned in appreciation to all those before me that shared with me what they learned Enjoy the trip I hope you will find many sections that you will pass along with your own experiences to benefit others We all are still learning 103

Towns,2019-05-15 We all get just one shot at this life there are no practice runs For some it s eighty years but for others considerably less However successful living is not measured in years but rather in quality Quality performance quality character and quality relationships A quality life does not happen unintentionally It takes conscious effort risk and sometimes hard work A lot happens in life that we cannot control but many times our efforts make a difference Critical to performance is having the will to consciously set goals and strategize a plan to achieve them and then discipline one s self to work the plan Knowing what is right and wrong is not that difficult doing what is right can be very difficult at times Being truthful and faithful runs counter to human nature We innately look out for number one Only with the help of the Spirit can we develop the character which rejects values outside ourselves Some relationships come easy They deepen and grow as we begin to enjoy each other Still other relationships are strained bumpy and even nonexistent due to missing grace Recognizing that relationships take two and often the hard work is done by the recipient rather than the aggressor can be hard to grasp Self control is difficult to exercise because it does not always allow us to vindicate ourselves In the end we must give up to God and trust that he will show us the bigger picture by pouring his wisdom over us **Conscious Spending.
