## **Five Quarts A Personal And Natural History Of Blood:**

Five Quarts Bill B. Hayes, 2005-01-25 We are born in blood. Our family histories are contained in it, our bodies nourished by it. Daily, five quarts run through each of us along some sixty thousand miles of arteries, veins, and capillaries. From *Five Quarts*, the national bestseller, Sleep Demons, Bill Hayes took us on a trailblazing trip through the night country of insomnia. Now he is our guide on a whirlwind journey through history, literature, mythology, and science by means of the great red river that runs five quarts strong through our bodies. Profusely illustrated, the journey stretches from ancient Rome where gladiators drank the blood of vanquished foes to gain strength and courage to modern-day laboratories where high-tech machines test blood for diseases and dedicated scientists search for elusive cures. Along the way, there will be world-changing triumphs: William Harvey's discovery of the circulation of the blood; Antoni van Leeuwenhoek's advances in making the invisible world visible in the early days of the microscope; Dr. Paul Ehrlich's Nobel Prize-winning work in immunology; Dr. Jay Levy's codiscovery of the virus that causes AIDS. Yet there will also be ignorance and tragedy: the widespread practice of bloodletting via incision and the use of leeches which harmed more than it healed; the introduction of hemophilia into the genetic pool of nineteenth-century European royalty thanks to the dynastic ambitions of Queen Victoria; the alleged spread of contaminated blood through a phlebotomist's negligence in modern-day California. This is also a personal voyage in which Hayes recounts the impact of the vital fluid in his daily life from growing up in a household of five sisters and their monthly cycles to coming out as a gay man during the explosive early days of the AIDS epidemic in San Francisco to his enduring partnership with an HIV-positive man. As much a biography of blood as it is a memoir of how this rich substance has shaped one man's life, *Five Quarts* is by turns whimsical and provocative, informative and moving. It will get under your skin. **Five Quarts**

Bill B. Hayes, 2006-02-14 This beguiling brew of fascinating scientific facts and illuminating poignant anecdotes makes *Five Quarts* something like blood itself: vital and pulsing with energy. E. Poplaski, 2007 What do Richard Dawkins, Jackie Robinson, and St. Teresa have in common? They all can be found in this book. *360 of Reading* is a literature reference guide for high school students. It makes a great stocking stuffer at Christmas or end-of-school-year gift for that special student. Any student who wants to read great literature will benefit from this book. It has reference pages for 360 books that cover novels, drama, poetry, and a broad range of non-fiction. Each

reference page includes bibliographic information a descriptive note keywords and more Furthermore the books are indexed by author country of origin date of first publication and keywords It also has an appendix listing an additional forty titles Twenty four books by Pulitzer Prize winners and twenty six books by Nobel Prize in Literature winners are among the works listed in this reference guide     *An Eye on Race* John Beusterien,2006 Racism in the modern nation state is based on a Continental and an American model In the Continental model the racist differentiates the raced individual by religion Because this raced individual is indistinguishable from the racist a narrative is written to see that individual In turn in the American model the racist differentiates the raced individual based on skin color Because the sign of difference is obvious no story is written to justify racist thinking By 1550 both models form part of imperial thinking in the Iberian world system *An Eye on Race* Perspectives from Theater in Imperial Spain describes these models at work in imperial Spanish theater The study reveals how the display of blood in drama serves the Continental model and how the display of skin color serves the American model It also elucidates how Miguel de Cervantes celebrates a subaltern aesthetic as he discards both racial paradigms John Beusterien is Associate Professor of Spanish at Texas Tech University     *The Anatomist* Bill B. Hayes,2007-12-26 The classic medical text known as Gray s Anatomy is one of the most famous books ever written Now on the 150th anniversary of its publication acclaimed science writer and master of narrative nonfiction Bill Hayes has written the fascinating never before told true story of how this seminal volume came to be A blend of history science culture and Hayes s own personal experiences *The Anatomist* is this author s most accomplished and affecting work to date With passion and wit Hayes explores the significance of Gray s Anatomy and explains why it came to symbolize a turning point in medical history But he does much much more Uncovering a treasure trove of forgotten letters and diaries he illuminates the astonishing relationship between the fiercely gifted young anatomist Henry Gray and his younger collaborator H V Carter whose exquisite anatomical illustrations are masterpieces of art and close observation Tracing the triumphs and tragedies of these two extraordinary men Hayes brings an equally extraordinary era the mid 1800s unforgettably to life But the journey Hayes takes us on is not only outward but inward through the blood and tissue and organs of the human body for *The Anatomist* chronicles Hayes s year as a student of classical gross anatomy performing with his own hands the dissections and examinations detailed by Henry Gray 150 years ago As Hayes s acquaintance with death deepens he finds his understanding and appreciation of life deepening in unexpected and profoundly moving ways *The Anatomist* is more than just the story of a book It is the story of the human body a story whose beginning and end we all know and share but that like all great stories is infinitely rich in between     *How We Live Now* Bill Hayes,2020-08-25 Winner of the New York City Book Award From the beloved author of *Insomniac City* a poignant and profound tribute in stories and images to a city amidst a pandemic When the Covid 19 pandemic hit the United States in March 2020 and New York went into total lockdown writer and photographer Bill Hayes hit the largely deserted streets of Manhattan to try to document through words and photographs how the city was

changing virtually overnight *How We Live Now* records those first 100 days of the pandemic in real time a time of both hopefulness and great fear long before we had effective Covid testing and vaccines up to and including the historic Black Lives Matter demonstrations following the tragic murder of George Floyd Featuring Hayes's inimitable street photographs *How We Live Now* chronicles an unimaginable moment in time with his signature insight and grace offering a glimpse at our shared humanity

*Educating the Posthuman* John A. Catch and Release Lisa Jean Moore, 2018-01-02 The unexpected and fascinating interspecies relationship between humans and horseshoe crabs Horseshoe crabs are considered both a prehistoric and indicator species They have not changed in tens of millions of years and provide useful data to scientists who monitor the health of the environment From the pharmaceutical industry to paleontologists to the fishing industry the horseshoe crab has made vast but largely unknown contributions to human life and our shared ecosystem *Catch and Release* examines how these intersections steer the trajectory of both species lives and futures Based on interviews with conservationists field biologists ecologists and paleontologists over three years of fieldwork on urban beaches noted ethnographer Lisa Jean Moore shows how humans literally harvest the life out of the horseshoe crabs We use them as markers for understanding geologic time collect them for agricultural fertilizer and eat them as delicacies capture them as bait then rescue them for conservation and categorize them as endangered The book details the biomedical bleeding of crabs how they are caught drained of 40% of their blood and then released back into their habitat The model of catch and release is essential Horseshoe crabs cannot be bred in captivity and can only survive in their own ecosystems Moore shows how horseshoe crabs are used as an exploitable resource and are now considered a vulnerable species An investigation of how humans approach animals that are essential for their survival *Catch and Release* questions whether humans should have divine moral or ethical claims to any living being in their path

*Dark Banquet* Bill Schutt, 2009-10-06 A witty scientifically accurate and often intensely creepy exploration of sanguivorous creatures *San Francisco Chronicle* Bill Schutt turns whatever fear and disgust you may feel towards nature's vampires into a healthy respect for evolution's power to fill every conceivable niche Carl Zimmer author of *Parasite Rex* and *Microcosm* *E. coli* and the *New Science of Life* For centuries blood feeders have inhabited our nightmares and horror stories as well as the shadowy realms of scientific knowledge In *Dark Banquet* zoologist Bill Schutt takes us on a fascinating voyage into the world of some of nature's strangest creatures the sanguivores Using a sharp eye and mordant wit Schutt makes a remarkably persuasive case that blood feeders from bats to bedbugs are as deserving of our curiosity as warmer and fuzzier species are and that many of them are even worthy of conservation Examining the substance that sustains nature's vampires Schutt reveals just how little we actually knew about blood until well into the twentieth century We revisit George Washington on

his deathbed to learn how ideas about blood and the supposedly therapeutic value of bloodletting first devised by the ancient Egyptians and Greeks survived into relatively modern times *Dark Banquet* details our dangerous and sometimes deadly encounters with ticks chiggers and mites the latter implicated in Colony Collapse Disorder currently devastating honey bees worldwide Then there are the truly weird vampire finches And if you thought piranha were scary some people believe that the candiru or willy fish is the best reason to avoid swimming in the Amazon Enlightening and alarming *Dark Banquet* peers into a part of the natural world to which we are through our blood inextricably linked **Clot & Scab** Kristi Lew, 2017-08-01 Audisee eBooks with Audio combine professional narration and text highlighting for an engaging read aloud experience Have you ever crashed your bike and torn up your knee Or have you been hit in the face by a ball and gotten a big shiny bruise around your eye Have any of your scabs ever oozed with gross looking pus Blood bruises and scabs are all part of your body's healing process But sometimes you need a little extra help from stitches staples or maybe even maggots and leeches Hey people do crazy things Learn how your body repairs itself and what happens when something goes wrong like getting gangrene eew With close up pictures and lots of disgusting facts this book tells all about the gross science behind your body's functions *Blood Rush* Jan Verplaetse, 2020-03-16 As a young man Jan Verplaetse saw a hare suspended from a meat hook skinned and gutted What struck him so forcefully at the time was not the animal itself but the blood gently dripping from its mouth His reaction prompted the start of a quest he undertakes in this book to investigate our fascination with blood the most vital of fluids *Blood Rush* shows how throughout history blood has had the capacity to intoxicate us to the point that we lose ourselves whether in violence through hunting fighting or killing or in the vicarious thrill of watching sporting events horror films or video games Are these feelings physical or in our imagination Where does the magic of blood come from In his deeply researched and provocative narrative Verplaetse moves from antiquity to the present from magic to experimental psychology from philosophy to religion and scientific discoveries to demonstrate why blood at once attracts and repels us
