Health Care Policy Reform in America: Innovations from the States Howard M. Leichter, 2019-10-25 This work tracks the role of the states in US health care policy reform It reviews the challenges faced by the states in dealing with rising costs and looks at their policy competence and role in managed care whilst focusing on the outcomes of policy reform in states such as Hawaii and Oregon

The Oxford Handbook of State and Local Government Donald P. Haider-Markel, 2014-04-03 The Oxford Handbook of State and Local Government is an historic undertaking It contains a wide range of essays that define the important questions in the field evaluate where we are in answering them and set the direction and terms of discourse for future work The Handbook will have a substantial influence in defining the field for years to come The chapters critically assess both the key works of state and local politics literature and the ways in which the sub field has developed It covers the main areas of study in subnational politics by exploring the central contributions to the comparative study of institutions behavior and policy in the American context Each chapter outlines an agenda for future research

Assertive Community Treatment Sandra J. Johnson, 2011-12-31 The twenty first century has witnessed an explosion in studies on comparative health studies but mental health remains virtually ignored Unlike the well researched topic of health policy there is a gap in the marketplace covering mental health policy and health care policymaking This book fills that gap it is a comparative analysis of the implementation of Assertive Community Treatment ACT an evidence based practice employed in two states that promises to empower the well being of individuals suffering from mental illness Assertive Community Treatment specifically examines the tension separating the notion of client recovery and evidence based programs Johnson challenges the assumption that practitioners should rely on evidence based practices to close the gap between scientific knowledge and practice She argues that in an era of managed care this encourages state mental health administrators to adopt policies that are overly focused on outcomes Programs that can measure the outcomes of care provided and evidence based practices have become central aspects of the quality care agenda This study traces the role of policy entrepreneurs throughout the Assertive Community Treatment policymaking process By differentiating mental health in general qualitative research increases the chances of observing similarities and differences in outcomes Johnson explains why the ACT model was adopted and implemented She concludes

that there is a clear monopoly by medical researchers and scientists within Assertive Community Treatment research and as a result too much emphasis is placed on the roles of policy entrepreneurs as the main innovators in the agenda and policy formulation stages Johnson presents a strong argument for more innovation in the implementation stage Stock Exchange Practices United States.
