Bach's music and its towering presence in our cultural memory have long affected how people hear his works. In his own time, however, Bach stood as just another figure among a number of composers, many of them more popular with the music-loving public. Eschewing the great composer style of music history, Andrew Talle takes us on a journey that looks at how ordinary people made music in Bach's Germany. Talle focuses in particular on the culture of keyboard playing as lived in public and private. As he ranges through a wealth of documents, instruments, diaries, account ledgers, and works of art, Talle brings a fascinating cast of characters to life. These individuals, amateur and professional performers, patrons, instrument builders, and listeners, inhabited a lost world, and Talle's deft expertise teases out the diverse roles music played in their lives and in their relationships with one another. At the same time, his nuanced re-creation of keyboard playing's social milieu illuminates the era's reception of Bach's immortal works.

The Indexing Companion Glenda Browne, Jon Jermey, 2007-04-23. The Indexing Companion first published in 2007 gives an overview of indexing for professional indexers, editors, authors, librarians, and others who may be called upon to write, contribute to, edit, or commission an index. It covers basic principles as well as examining controversial areas. It is based on publishing standards, textbooks, and the consensus of the indexing community gained from participation in various mailing lists. It discusses a wide range of document formats and subjects that require indexing, as well as dipping into new topics on the edge of indexing, such as folksonomies and the semantic web. Some people consider indexing to be a dry topic; at the end of this book, people should be thinking of indexing as a challenging and rewarding profession.
