[A Brief Guide to Ghost Hunting](#) Leo Ruickbie,2013-08-15 There has been an upsurge in books television programmes films and

websites exploring the reality or otherwise of the spirit world Not since the founding of The Ghost Club in 1862 and the Society for Psychical Research in 1882 has ghost hunting been so popular Television and the internet in particular have fueled this new level of interest creating a modern media phenomenon that spans the globe But while the demand for information is high good information remains scarce A Brief Guide to Ghost Hunting leads us through the process of ghost hunting from initially weighing the first report to choosing equipment and investigating and identifying the phenomena with an analysis of the best places to go looking methods of contacting the spirit world how to explain paranormal activity and crucially how to survive the encounter However it is also a book about ghost hunting itself drawing on 130 years of research in the cavernous archives of the Society for Psychical Research and even older history to find the earliest ghost stories A Ghost Hunting Survey makes use of interviews with those billing themselves as ghost hunters to find out their views motivations and experiences New and original research makes use of statistics to map the nebulous world of apparitions while a Preliminary Survey of Hauntings offers an analysis of 923 reported phenomena from 263 locations across the UK This is as far as possible an objective presentation of ghosts and ghost hunting It is no wonder that mainstream science largely refuses to deal with the subject it is too complicated Without trying to convince you of any viewpoint this book is intended to help you understand more

Haunted E. Jay Gilbert, 2024-09-12 We all know the same ghosts it's simply a question of how doggedly they haunt us Part chilling tale part memoir part cultural exploration Haunted Ghost Stories and Their Afterlives takes us through some of the most chilling and enduring ghost stories and discusses what they reveal about the listener the teller and the times we live in E Jay Gilbert has been collecting tales of the supernatural from her local area a small village outside of Newcastle for years and what surprised her most is how universal those are not only in terms of recurring spectres that haunt us the world over I'm looking at you White Ladies but also how similar our experience of ghost telling is wherever we grew up The result is a book which explores more widely the ghosts of the British Isles and how they have endured and changed through the ages how they reflect the communities in which they originate and how they are similar to and different from similar stories from across the world Haunted doesn't just thrill with the tales of the inexplicable but also asks why are we so fascinated by ghost stories and what do they tell us about the community and people who cultivate them Why are some tropes universal while others are very much unique to the place they haunt Do we actually care about the identity of the ghost Or are we more concerned about how the alleged sighting made us feel Aimed at both believers and sceptics it's not only for those who are looking to be frightened a little but also for those interested in the psychology and history of the long tradition of supernatural storytelling Absolutely irresistible a fascinating account of the stories we tell ourselves and the ghosts we keep close Amanda Mason A delightfully personal adventure into the paranormal worlds of these isles seeking all sorts of spectres from banshee to black dogs Dr James Canton
