Flash Gordon Treachery On Mongo By:

Flash Gordon ,1977 **Flash Gordon Into the Water World of Mongo** Alex Raymond,1971 Flash Gordon - The Storm Queen of Valkir Dan Barry, **Flash Gordon Dailies: Austin Briggs - Radium Mines of Electra** Don Moore,2022-01-19 It s 1941 and the Earth has been plunged into a global conflict by a tyrannical fantastic megalomaniac known as The Dictator and only one man Flash Gordon can save the day However marooned on the planet Mongo Flash Dale Arden and Dr Hans Zarkov will first have to escape Ming the Merciless s seemingly endless supply of rocket ships and troops In order to make it back to Earth Flash must also battle carnivorous dinosaurs cannibalistic ape men unite two warring tribes find a hidden kingdom and fend off two lovelorn princesses and the jealous rage of his girlfriend Dale Radium Mines of Electra reprints the first two years of Austin Briggs four year run on Flash Gordon from May 1940 to September 1942

Alex Raymond's Flash Gordon Alex Raymond,2003 The second of Checker s re issues of the colour Flas Gordon strips from the pen and bush of its unsurpassed originator Alex Raymond The work of a master at his best these colour strips were originally published in 1935 and 1936 *Serials and Series* Buck Rainey,2015-06-08 While many fans remember The Lone Ranger Ace Drummond and others fewer focus on the facts that serials had their roots in silent film and that many foreign studios also produced serials though few made it to the United States The 471 serials and 100 series continuing productions without the cliffhanger endings from the United States and 136 serials and 37 series from other countries are included in this comprehensive reference work Each entry includes title country of origin year studio number of episodes running time or number of reels episode titles cast production credits and a plot synopsis **Science Fiction Serials** Roy Kinnard,2015-08-13 Destination Moon George Pal s 1950 Technicolor epic is generally cited as the first noteworthy science fiction film Usually ignored or casually dismissed in genre histories are the serials the low budget chapterplays exhibited as Saturday matinee fare and targeted almost exclusively at children Lacking stars and top notch writers or directors the serials went largely unnoticed and unacknowledged by either critics or by the film industry Yet serials were financially important to the Hollywood studios and were often free to exploit risky or outlandish subjects that producers of distinguished movies would not touch Influential serials such as The Phantom Empire 1935 and Flash Gordon 1936 finally brought science fiction themes to the big screen Those serials and 29 others are exhaustively covered in this work which provides complete cast and credit information along with plot descriptions and historical commentary for each serial Video distributors if available are also listed *Flash Gordon Escapes to Arboria* Alex Raymond,1977 Flash Gordon Dale Arden and Professor Zarkov are three earthlings sharing danger and adventure in the many strange and wondrous kingdoms of the planet Mongo Their major foe is the satanic Ming the self appointed emperor of Mongo In order to avert a war between Ming and the kingdom of Arboria Flash leaves his friends behind and disappears into the jungle But war is declared and Flash single handedly succeeds in wreaking havoc amongst the invading foes As the result of an explosion Flash is captured and dragged through the Mongo

Desert Dale and Princess Aura Ming's daughter set off with an ailing Zarkov to attempt the rescue of Flash who is now near death as a result of his brutal march across the desert How Star Wars Conquered the Universe Chris Taylor, 2015-10-06

In 1973 a young filmmaker named George Lucas scribbled some notes for a far fetched space fantasy epic. Some forty years and 37 billion later Star Wars related products outnumber human beings, a growing stormtrooper army spans the globe and Jediism has become a religion in its own right. Lucas's creation has grown into far more than a cinematic classic; it is quite simply one of the most lucrative, influential and interactive franchises of all time. Yet incredibly, until now the complete history of Star Wars, its influences and impact, the controversies it has spawned, its financial growth and long term prospects has never been told. In How Star Wars Conquered the Universe, veteran journalist Chris Taylor traces the series from the difficult birth of the original film through its sequels, the franchise's death and rebirth, the prequels and the preparations for a new trilogy. Providing portraits of the friends, writers, artists, producers and marketers who labored behind the scenes to turn Lucas's idea into a legend, Taylor also jousts with modern day Jedi tinkers with droid builders and gets inside Boba Fett's helmet all to find out how Star Wars has attracted and inspired so many fans for so long. Since the first film's release in 1977, Taylor shows Star Wars has conquered our culture with a sense of lightness and exuberance while remaining serious enough to influence politics in far flung countries and spread a spirituality that appeals to religious groups and atheists alike. Controversial digital upgrades and poorly received prequels have actually made the franchise stronger than ever. Now with a savvy new set of bosses holding the reins and Episode VII on the horizon, it looks like Star Wars is just getting started. An energetic, fast moving account of this creative and commercial phenomenon, How Star Wars Conquered the Universe explains how a young filmmaker's fragile dream beat out a surprising number of rivals to gain a diehard, multigenerational fan base and why it will be galvanizing our imaginations and minting money for generations to come. **The Great Science Fiction**

Pictures James Robert Parish, Michael R. Pitts, 1977 **Encyclopedia of American Short Films, 1926-1959** Graham Webb, 2020-07-27. Short subject films have a long history in American cinemas. These could be anywhere from 2 to 40 minutes long and were used as a filler in a picture show that would include a cartoon, a newsreel, possibly a serial and a short before launching into the feature film. Shorts could tackle any topic of interest: an unusual travelogue, a comedy, musical revues, sports, nature or popular vaudeville acts. With the advent of sound on film in the mid to late 1920s, makers of earlier silent short subjects began experimenting with the short films, using them as a testing ground for the use of sound in feature movies. After the Second World War and the rising popularity of television, short subject films became far too expensive to produce and they had mostly disappeared from the screens by the late 1950s. This encyclopedia offers comprehensive listings of American short subject films from the 1920s through the 1950s. *Hollywood's Miracles of Entertainment* John Howard Reid, 2005-05. 120 movies are detailed in this 8th book in the Hollywood Classics series. The movies range from marvels of special effects like King Kong to the first sound on disc feature Don Juan. Charismatic film stars like Humphrey Bogart

Jeanette MacDonald Bing Crosby Deanna Durbin John Wayne Errol Flynn Eddie Cantor Lana Turner Alan Ladd Elizabeth Taylor Barbara Stanwyck Kay Francis John Garfield Jane Powell and Roy Rogers enlivened many of these classic films

Science Fiction, Fantasy, and Horror Film Sequels, Series, and Remakes Kim R. Holston, Tom Winchester, 1997
Science fiction fantasy and horror films have spawned more sequels than any other film genre While the perhaps overly familiar Dracula and Frankenstein have inspired dozens of additional films such movies as Quatermass and The Omen have also produced several sequels Over 400 horror science fiction and fantasy films are analyzed in this comprehensive reference to the genre s sequels series and remakes Filmographies are given for each film providing year of release studio running time cast and credits This is followed by a plot synopsis reviews of the work and a critical analysis **Wolves of Anubis** Tim Arnzen, 2024-07-26 She Follows the Moon III Does the Hollow Earth hold a power source to empower humanity to the stars To prevent the return of Orion Is an entrance below Area 51 The exciting conclusion to She Follows the Moon and the Titans of Mars Science Fiction in the Media John Hamilton, 2006-08-15 Introduces young readers to the world of science fiction
