taking advantage of its scripting language ActionScript 2.0 which offers a more robust programming model and better object oriented programming support than ever before. Here to take the fear factor out of learning it are Flash veterans and best selling authors Derek Franklin and Jobe Makar who demonstrate that scripting is an instinctual process you already know by translating real life activities into ActionScript scripts. In these pages you will find methodologies and techniques for building over 40 real life Flash ActionScript projects including sample games, applications, Web sites and more. New in this edition are coverage of ActionScript 2.0 Web services, Components, Printing, Video and more. On the companion CD you will find all the project files and images you need to complete each project.

The British National Bibliography Arthur James Wells, 2006
Macromedia Flash MX Game Design Demystified Jobe Makar, 2003 So you wanna be a hotshot game designer? Well, if you have a basic grasp of Macromedia Flash MX you can. Unafraid to tackle some of the more complicated aspects of game creation including physics and trigonometry, this comprehensive reference covers it all. Macromedia Flash Game Design Demystified starts out with the basics, planning, adapting ActionScript techniques using introductory Flash game techniques and more. Then it gets down to the real business of building simple games. You will tackle simple logic and quiz games before moving on to multiplayer and complex logic games, chess, for example, learning about importing 3D graphics, adding sound effects and licensing your games in the process. The book's companion CD includes the source files for a number of games as well as the tutorials and lessons that go along with the book and XML server software to facilitate multiplayer games. If you're tired of the games that you have and want to make your own action, this book offers comprehensive coverage of sophisticated techniques but put in easy to grasp practical terms.

Foundation ActionScript for Flash 8 Kristian Besley, Sham Bhangal, Eric Dolecki, David Powers, 2006-12-06

ActionScript is the native scripting language of Flash. ActionScript knowledge is essential within the world of Flash design and development as Flash remains a leading tool for cutting edge interactive design and development. ActionScript is what gives Flash its power but with that power comes a certain level of complexity which can be intimidating. This beginners book significantly updated since the last edition covers all of the basics of ActionScript using version 8 of Flash. The skills acquired by working through this book will enable you to move on to more advanced friends of ED books such as *Foundation PHP 5 for Flash*, *Foundation ActionScript Animation* or *Foundation XML for Flash*. This book contains all you need to understand and make use of ActionScript and to have some fun while learning. The Foundation series teaching style is ideal if you're a non programmer who wants to learn Flash programming quickly and thoroughly. The authors teach the basics and provide an all around proficiency in ActionScript as well as Flash components within Flash 8. You will gain the practical skills to build ActionScript based Flash projects including making initial design decisions, structuring code and testing. An ongoing case study means that by the end of the book you will have constructed a cutting edge Flash site to showcase your newly learned skills.
