

A Liv Wilde Mystery

The background of the book cover is a painting of a large, multi-arched stone bridge spanning a wide river. The scene is set at dusk or dawn, with a deep blue sky and the bridge's reflection visible in the water. The title 'Flashes of Insight' is written in a large, flowing, yellow script across the middle of the image, partially obscuring the bridge and the river.

Peirce's Theory of Abduction KT Fann,2020-10-15 This monograph attempts to clarify one significant but much neglected aspect of Peirce s contribution to the Philosophy of Science Peirce claimed that besides deduction and induction there was another type of reasoning which he called abduction Abduction is the reasoning process by which new ideas explanatory hypotheses and scientific theories are engendered It is the logic of discovery and the essence of Pierce s pragmatism Peirce returned repeatedly to the investigation of the logic of abduction during his long creative life His writings on the subject are typically fragmentary and diverse They fall roughly into

two periods In the early period Peirce treated inference and hence abduction as an evidencing process The three kinds of inference were considered independent forms of reasoning In the later period the concept of inference was widened to include methodological as well as evidencing process The three types of reasoning became three stages of inquiry The author has reconstructed a consistent account of Peirce's theory of abduction In Part I the attention is focused on the chronological development of Peirce's early theory so that the later theory may be understood more clearly in the light of the earlier views Part II contains a systematic presentation of the later theory and a critical analysis of Peirce's contribution to the study of the logic of discovery

Negotiating Toward Truth George David Miller,2021-09-20 For far too many people for far too many years schooling has been a debilitating demoralizing and ultimately dehumanizing experience Make shift half hearted and watered down reform measures have proved ineffective Reform throws out the bath water but keeps the baby Radicalism recognizes not a baby but a beast lurks in the bath water and throws both out This dramatic redefinition of schooling examines four models of dynamism as provided by Nietzsche Whitehead Dewey and Freire Nietzsche's affirmation of dynamism is marred by his elitism Whitehead understands that inert cripple schooling Without dialogue ideas remain inert Dewey misunderstands thinking and does not grasp its inherent double movement toward order and disorder Freire's pedagogy is transcended with emphasis on negotiation between prime values The final chapter

expounds a radical pedagogy of dynamism Miller argues that teaching and learning are not separate acts but form a continuum Within the teaching learning continuum all participants are spontaneous and receptive and seek to overcome fear of process ambiguity and doubt The key to radical schooling is a pro active stance toward creativity that allows for a dynamic integration of difference in dialogue Negotiating Toward Truth is a call to arms for all educators The book asks us to look closely what is in the bath water and to have the courage to throw the beast out with the bath water
