by this book which introduces a totally unexpected though perfectly plausible and in a sense obvious reading of Madame Bovary From now on it will be impossible to ignore this work whenever a study of Flaubert's novel is undertaken Jean Pierre Richard

**The Shaping of Text** John Porter Houston, 1993 The Shaping of Text pays homage to the work of the late John Porter Houston who wrote extensively on style rhetoric and narrative and poetic techniques in Western European literature It is appropriate that the essays in this volume focus on the form of the literary work and the ways in which form determines meaning William Calin's essay on the saint's life analyzes the use of antithesis as a poetic and structural device that illustrates the saint's fundamental understanding of the relationship between the ephemeral reality of his physical existence and the absolute timeless reality to which he aspires Raymond LaCharite's study of Rabelais focuses on the author's self-conscious awareness of this relationship and of Renaissance preoccupation with reading as both an act of creation and interpretation George Joseph's study of three Renaissance poets focuses on the use of paradox as both a figure of speech and as a genre that serves both as a structure and as a basis for the interaction in the poetry David Rubin's essay on La Fontaine emphasizes the ways in which the register of style in the Fables is used to set the tone and control the meaning of the language In the chapters devoted to nineteenth and twentieth century literature one can see the continuing closer relationship between the book as a work of art and the reality in which it interacts Suzanne Nash analyzes the strategy Mme de Staël uses in writing *De l'Allemagne* a book written less to present an accurate portrayal of Germany than to promote her own republican ideals for France Ross Chambers's essay probes the question of the theme of melancholy in Romantic writing and its relationship to the social and political structures of the period Edward Kaplan shows how a growing ethical social concern can be seen in Baudelaire's revised *Les Fleurs du Mal* Rima Reck and Edward Kaplan reflect the growing use of literature as a vehicle for influencing public opinion Stirling Haig analyzes Flaubert's careful use of style and his awareness that reality is ultimately shaped by the beholder's perspective Finally Virginia La Charite's chapter on Proust returns to the idea of a structure within a structure in this case the architecture of the cathedral as a metaphor of synthesis an aesthetic device that gives an intelligible structure to Proust's enormous but intricately complex mass of details If John Porter Houston focused on form and style it is because he understood the semiotic nature of all things that a writer's style is a subtle form of refined communication or as Houston wrote style is an absolute manner of seeing things for Proust a question of vision and so constitutes the ultimate reality of literature

The Orient of Style Beryl Schlossman, 1991 In this study of modernist aesthetics Beryl Schlossman reveals how for such writers as Marcel Proust Gustave Flaubert and Charles Baudelaire the Orient came to symbolize the highest aspirations of literary representation She demonstrates that through allegory modernism became a style itself a style that married the ancient and the modern and that emerged as both a cause and an effect both an ideal construct and an textual materiality all symbolized by the Orient land of style place of plurality and site of the coexistence of holy lands Toward the end of *Remembrance of Things Past* the narrator describes the act of creating a work of art as a conversion of sensation into a spiritual equivalent By means of such allegories of conversion Schlossman shows the modernist artist disappeared within the work of art and left behind the trace of his sublime vocation a vocation in which he was transformed in Schlossman's words into a kind of priest kneeling at the altar of beauty before the masked divinity of representation The author shows how allegory the representation of the symbolic as something real was adapted by modernist writers to reflect subjectivity while masking an authorial origin She reveals how modernist allegory arose as Walter Benjamin suggests at the crossroads of history sociology

**The Intellectual Temptation** Frits Bolkestein, 2013-03-29 an absorbing and beautifully written study that deserves a very wide audience Joshua Muravchik an erudite account of where the vision of individual liberty comes from why some ideologues set themselves against it and how our contemporaries have ceased to treasure it Christopher Caldwell Bolkestein exposes today's fashionable yet dangerous ideas doing a great service not only to Europe but indeed to the whole of Western civilization Ayaan Hirsi Ali The dangers of intellectuals and their ideas in politics have rarely been written about by politicians themselves This is not surprising for few politicians are up to the task However Frits Bolkestein is a notable exception bringing rare if not unique qualifications to this examination Not only has he held national and international office in Europe but he has also studied read taught and published broadly The thesis of *The Intellectual Temptation* is simple but penetrating intellectuals' ideas are problematic as political ideas because they are often neither derived from nor falsifiable by experience These ideas are frequently dreams attempting to become reality through power politics There is also a cultural problem Intellectuals are pack animals looking to one another for approval This affects the quality of their ideas as they are susceptible to fashionable ideology and group pressure frequently attracted to ideas that are appealing rather than sound Very few of them are brave enough to stand against the prevailing orthodoxy Beginning with a history of ideology Bolkestein traces a nearly 300 year trend of bad ideas making worse politics sometimes disastrously so From his own experience he offers a vision of a politics of prudence proper pragmatism and Classicism as a way out of the intellectual temptation that we have fallen under
