Eingeschloben Roman:

Leaders and Masses in the Roman World Malkin, Rubensohn, 2018-07-17 It is largely thanks to Zvi Yavetz that the Roman plebs has become salient. In numerous important studies Yavetz has focused his and our attention on the problem of the relationship between the ruler and the masses of the ruled. Thus it seemed natural to choose various aspects of this relationship as the topic of a volume in his honour. The articles here contributed by thirteen eminent friends and colleagues deal with historical and theoretical questions of the relationship between the one and the many covering a period from the second century B.C. through the times of the Late Republic and the Principate to Late Antiquity and finally to an intriguing view at modern totalitarianism as perceived from an Enlightenment perspective. *Contemporary German Fiction Writers* Wolfgang Iser, James N. Hardin, 1988 Contains alphabetically arranged essays that provide biographical and critical information about significant contemporary German fiction writers each with a list of principal works and a bibliography.

Dining Posture in Ancient Rome Matthew B. Roller, 2017-11-21 What was really going on at Roman banquets? In this lively new book veteran Romanist Matthew Roller looks at a little explored feature of Roman culture: dining posture. In ancient Rome where dining was an indicator of social position as well as an extended social occasion, dining posture offered a telling window into the day-to-day lives of the city's inhabitants. This book investigates the meaning and importance of the three principal dining postures: reclining, sitting, and standing in the period 200 B.C. to 200 A.D. It explores the social values and distinctions associated with each of the postures and with the diners who assumed them. Roller shows that dining posture was entangled with a variety of pressing social issues such as gender roles and relations, sexual values, rites of passage, and distinctions among the slave, freed, and freeborn conditions. Timely in light of the recent upsurge of interest in Roman dining, this book is equally concerned with the history of the body and of bodily practices in social contexts. Roller gathers evidence for these practices and their associated values not only from elite literary texts but also from subelite visual representations, specifically funerary monuments from the city of Rome and wall paintings of dining scenes from Pompeii. Engagingly written, *Dining Posture in Ancient Rome* will appeal not only to the classics scholar but also to anyone interested in how life was lived in the Eternal City. *Von Richthofen bis Remarque*, 2016-08-09 Der Band *Von Richthofen bis Remarque* ergnzt und schliet formal und inhaltlich an den von Hans Wagener 1997 herausgegebenen Band zur deutschen Kriegsprosa nach 1945. The Primacy of the Bishop of Rome and the Ecumenical Dialogue Adriano Garuti, 2004 The mixed results of the ecumenical dialogue since the Second Vatican Council have made it clear that the primacy of the Bishop of Rome remains the single most serious obstacle on the path of ecumenism In his landmark 1995 encyclical *Ut unum sint* Pope John Paul II reiterated the constant teaching that the Catholic Church has preserved the ministry of the Successor of the Apostle Peter the Bishop of Rome He also invited leaders and theologians of other Christian communities to engage in a patient and fraternal dialogue on this subject to find a way of exercising the primacy which while in no way renouncing what is essential to its mission is nonetheless open to a new situation This book explores in depth the discussion of papal primacy in the Catholic Orthodox Catholic Lutheran and Catholic Anglican dialogues along with an appendix on the concept of Sister Churches Each chapter describes how the primacy is viewed in the respective churches or ecclesial communities then it analyzes the documents of the official ecumenical dialogue and realistically evaluates the results achieved thus far
