System of Ghosts Lindsay Tighe, 2016-04-01 In System of Ghosts Lindsay Tighe details the way landscape speaks to isolation and personhood how virtual and lived networks alter experience She questions how built environments structure lives how we seek out information within these spaces and most fundamentally how we live Rooted in the personal the speaker of this collection moves through society and history with the aim of firmly placing herself within her own life and loss Facts become an essential bridge between spatial and historical boundaries She connects us to the disappearance of species abandoned structures and heartbreak abandoned spaces that tap into the searing grief woven into society s public places There is solace in research one system this collection uses to examine the isolation of contemporary life alongside personal historical and ecological loss While her poems are intimate and personal Tighe never turns away from the larger contexts within which we all live System of Ghosts is at its core an act of reaching out across time space history and across the room

Wanderlust Magazine **Best of Covered Wagon Women** Kenneth L. Holmes,2011-11-28 The diaries and letters of women who braved the overland trails during the great nineteenth century westward migration are treasured documents in the study of the American West These eight firsthand accounts are among the best ever written They were selected for the power with which they portray the hardship adventure and boundless love for friends and family that characterized the overland experience Some were written with the skilled pens of educated women Others bear the marks of crude cabin learning with archaic and imaginative spelling and a simplicity of expression All convey the profound effect the westward trek had on these women For too long these diaries and letters were secreted away in attics and basements or collected dust on the shelves of manuscript collections across the country Their publication gives us a fresh perspective on the pioneer experience

Historic Avalanches in the Northern Front Range and the Central and Northern Mountains of Colorado M. Martinelli,Charles F. Montoya,David Duniway,Kenneth L. Holmes,1999-04-01 The overland trails in the 1860s witnessed the creation of stage stations to facilitate overland travel These stations placed every twenty or thirty miles ensured that travelers would be able to obtain grain for their livestock and food for themselves They also sped up the process of mail delivery to remote Western outposts Tragically the easing of overland travel coincided with renewed conflicts with the Cheyenne and other Plains Indians The massacre of Black Kettle s people at Sand Creek instigated two years of bloody reprisals and counterreprisals Amid this turmoil and change these daring women continued to build on the example set by earlier women pioneers As Harriet Loughary wrote upon her arrival in California after two thousands of miles in an ox team making an average of eighteen miles a day enduring privations and

dangers When we think of the earliest pioneers we feel an untold gratitude towards them *Colorado Women* Gail M. Geary, 2016-03-31 Sculpted into graceful contours by countless centuries of wind and water the Great Sand Dunes sprawl along the eastern fringes of the vast San Luis Valley of south central Colorado Covering an area of nearly thirty square miles they are the tallest aeolian or wind produced dunes in North America towering 750 feet above the valley floor With the addition of the enormous Baca Ranch and other adjacent lands the dunes originally designated as a National Monument in 1932 attained official National Park status in 2004 In *Sea of Sand* Michael M Geary guides readers on a historical journey through this unique ecosystem which includes an array of natural and cultural wonders from the main dunefield and verdant wetlands to the summits of the Sangre de Cristo Mountains Described by explorer Zebulon Pike as a sea in a storm and by frontier photographer William Henry

Jackson as a curious and very singular phase of nature's freak the Great Sand Dunes are a nexus of more than 10 000 years of human history from Paleolithic big game hunters to nomadic Native Americans from Spanish conquistadores and transcontinental explorers to hard rock miners and modern day tourists in motor homes Like these successive waves of visitors Sea of Sand follows the water analyzing its critical role in the settlement and development of the region Geary also describes the profound impact that waves of human use and settlement have had on the land which ultimately inspired the early grassroots efforts by San Luis Valley citizens to protect the dunes from further exploitation He examines as well the more recent legislative effort led by an unprecedented coalition of local state and federal agencies and organizations including The Nature Conservancy and the National Park Service to secure the Great Sand Dunes national park designation Amply illustrated Sea of Sand is the definitive history of the natural cultural and political forces that helped shape this incomparable landscape
