Ghostly Warnings:

A Warning to the Curious - A Collection of Ghostly Tales (Fantasy and Horror Classics) M. R. James, 2016-01-18
M R James was born in Kent England in 1862 James came to writing fiction relatively late not publishing his first collection of short stories *Ghost Stories of an Antiquary* 1904 until the age of 42 Modern scholars now see James as having redefined the ghost story for the 20th century and he is seen as the founder of the antiquarian ghost story We are republishing these classic works in affordable high quality modern editions with a brand new introductory biography of the author [Ghostly Apparitions](#) Stefan Andriopoulos, 2013-08-02 A media archaeology that traces connections between new media technologies and distinct cultural realms considering topics that range from Kant's philosophy to somnambulist clairvoyants Drawing together literature media and philosophy *Ghostly Apparitions* provides a new model for media archaeology Stefan Andriopoulos examines the relationships between new media technologies and distinct cultural realms tracing connections between Kant's philosophy and the magic lantern's phantasmagoria the Gothic novel and print culture and spiritualist research and the invention of television As Kant was writing about the possibility of spiritual apparitions the emerging medium of the phantasmagoria used hidden magic lanterns to terrify audiences with ghostly projections Andriopoulos juxtaposes the philosophical arguments of German idealism with contemporaneous occultism and ghost shows In close readings of Kant Hegel and Schopenhauer he traces the diverging ways in which these authors appropriate optical media effects and spiritualist notions The spectral apparitions from this period also intersect with an exploding print market and the rise of immersive reading practices Andriopoulos explores the circulation of ostensibly genuine ghost narratives and Gothic fiction which was said to produce reading addiction and a loss of reality Romantic representations of animal magnetism and clairvoyance similarly blurred the boundary between fiction and reality In the 1840s Edgar Allan Poe adapted a German case history that described a magnetic clairvoyant as arrested in the moment of dying Yet even though Poe's tale belonged to the realm of literary fiction it was reprinted as an authentic news item Andriopoulos extends this archaeology of new media into the early twentieth century Tracing a reciprocal interaction between occultism and engineering he reveals how spiritualist research into the psychic television of somnambulist clairvoyants enabled the concurrent emergence of the technical medium
