Spooky Technology: A reflection on the invisible and otherworldly qualities in everyday technologies Daragh Byrne, Dan Lockton, Matthew Cruz, Christi Danner, Karen Escarcha, Katherine Giesa, Meijie Hu, Yiwei Huang, Miranda Luong, Anuprita Ranade, Gordon Robertson, Elizabeth Wang, Lisa (Yip Yan) Yeung, Catherine Yochum, 2021-08-31 Spooky Technology explores our understanding of the invisible technologies in our everyday lives from objects with intelligence to systems in our homes that talk to us and each other The book is an inventory of spooky technologies compiled by Carnegie Mellon students reviewing work across art design HCI psychology human factors research and other fields that has been done in this field or adjacent to it both historically and more recently with commentary essays and interviews with creators and artists We often hear that the technologies in our everyday lives would appear to be magic and potentially terrifying to people in the past instantaneous communication with people all over the world access to a vast ever growing resource of human knowledge right there in the palm of our hand objects with intelligence that can sense and talk to us and each other But rarely are these otherworldly dimensions of technologies explored in more detail There is an often unspoken presumption that the march of progress will inevitably mean we all adopt new practices and incorporate new products and new ways of doing things into our lives all cities will become smart cities all homes will become smart homes But these systems have become omnipresent without our necessarily understanding them They are not just black boxes but invisible entities in our homes and everyday lives which work through hidden flows of data unknown agendas imaginary clouds mysterious sets of rules which we perhaps dismiss as algorithms or even AI without really understanding what that means On some level the superstitions and sense of wonder and ways of relating to the unknown and the supernatural deities spirits ghosts which humanity has felt in every culture throughout history have not gone away but started to become transferred and transmuted into new forms

Smith, 2011-09-06 Before last summer I was just a normal grad student from California but then I went to Europe to track down my grandmother's family and my life changed forever Mistaken for Ruli a runaway princess who it turned out was actually my cousin I was drugged abducted and taken to Dobrenica a tiny and very unusual little kingdom in Eastern Europe The handsome man who kidnapped me was Alec Ruli's fiancé the man who was slated to rule Dobrenica Like so many things in this odd little kingdom their marriage would have a magical component for when certain members of two royal lines married at a particular point in time Dobrenica vanished The solution should have been simple right Find Ruli and bring her home Except Ruli didn't want to come home Alec and Ruli disliked each other and to complicate matters further Alec and I well I've always been a romantic at heart In the end we all did the right thing Brokenhearted yet resolute I returned to America but I just couldn't seem to forget Alec or Dobrenica But then I learned that though Ruli and Alec had married Dobrenica was still in our world Still in my world The magic had failed and no one knew why So back I went but my trip became even more dangerous than it was the first time I expected personal conflict and politics even sword fighting I was also prepared for Dobrenica's ever present specters But I was not prepared for murder mystery or the chillingly real presence of the undead The Best Ghost Stories Ever Told Stephen Brennan, 2011-09-07
