Elephants' Graveyard Declan Varley, 2016-12-12 A rural Irish village is transfixed when anonymous lottery winner offers to fund the development of a long delayed community centre But the gathering of characters who are thrown together by this quirk of fortune reveal old sores that had never healed in the life of this Galway village

How Animals Grieve Barbara J. King, 2013-03-28 A touching and provocative exploration of the latest research on animal minds and animal emotions from the renowned anthropologist and author The Washington Post Scientists have long cautioned against anthropomorphizing animals arguing that it limits our ability to truly comprehend the lives of other creatures Recently however things have begun to shift in the other direction and anthropologist Barbara J King is at the forefront of that movement arguing strenuously that we can and should attend to animal emotions With How Animals Grieve she draws our attention to the specific case of grief and relates story after story from fieldsites farms homes and more of animals mourning lost companions mates or friends King tells of elephants surrounding their matriarch as she weakens and dies and in the following days attending to her corpse as if holding a vigil A housecat loses her sister from whom she's never before been parted and spends weeks pacing the apartment wailing plaintively A baboon loses her daughter to a predator and sinks into grief In each case King uses her anthropological training to interpret and try to explain what we see to help us understand this animal grief properly as something neither the same as nor wholly different from the human experience of loss The resulting book is both daring and down to earth strikingly ambitious even as it's careful to acknowledge the limits of our understanding Through the moving stories she chronicles and analyzes so beautifully King brings us closer to the animals with whom we share a planet and helps us see our own experiences attachments and emotions as part of a larger web of life death love and loss

The Emotional Lives of Animals (revised) Marc Bekoff, 2024-04-09 A seminal exploration of animal emotion sentience and cognition revised and expanded to incorporate a surge of new science When award winning scientist Marc Bekoff penned the first edition of this book in 2007 he predicted that over time our understanding of animal cognition and emotion would grow richer more accurate and possibly different Since then not only has the field seen an explosion of new and startling research but the popular interest in the subject has grown as well spawning countless podcasts articles and bestselling books Bekoff skillfully blends extraordinary stories of animal joy empathy grief embarrassment anger and love with the latest scientific research confirming the existence of emotions that common sense and experience have long implied Filled with light humor and compassion The Emotional Lives of Animals is a clarion call for reassessing both how we view and how we treat animals

The Entelligent Idiot Colin

Evans,2014-12-02 This beautiful world is going to go through major changes in the not to distant future and none of them will be for the better Because your children and most certainly your grandchildren will grow up in a very different world to the one we knew when we were little and there will be some irreparable damage done Because within a minimum of twenty years to a maximum of forty years the polar ice caps will have melted away and most of the creatures that live there will be extinct Including the already struggling polar bears and many parts of this world will be lost forever due to the rising sea levels All thanks to global warming mostly caused by the use of fossil fuels also the oil industry who are now drilling for oil in the Arctic are also seen as a threat by many people due to the distruption they will cause plus of course the very real and most probable risk of an oil spill which would be devastating Also most of the fish in our oceans will be extinct thanks to over fishing and all of this will happen thanks to mankind's needless destruction of this planet in his constant search to make that all important profit

The Animal Game Daniel E. Bender,2016-11-07 Tracing the global trade and trafficking in animals that supplied U S zoos Daniel Bender shows how Americans learned to view faraway places through the lens of exotic creatures on display He recounts the public's conflicted relationship with zoos decried as prisons by activists even as they remain popular centers of education and preservation

The Moral Rights of Animals Mylan Engel Jr.,Gary Lynn Comstock,2016-03-16 Edited by Mylan Engel Jr and Gary Lynn Comstock this book employs different ethical lenses including classical deontology libertarianism commonsense morality virtue ethics utilitarianism and the capabilities approach to explore the philosophical basis for the strong animal rights view which holds that animals have moral rights equal in strength to the rights of humans while also addressing what are undoubtedly the most serious challenges to the strong animal rights stance including the challenges posed by rights nihilism the kind argument against animal rights the problem of predation and the comparative value of lives In addition contributors explore

the practical import of animal rights both from a social policy standpoint and from the standpoint of personal ethical decisions concerning what to eat and whether to hunt animals Unlike other volumes on animal rights which focus primarily on the legal rights of animals and unlike other anthologies on animal ethics which tend to cover a wide variety of topics but only devote a few articles to each topic this volume focuses exclusively on the question of whether animals have moral rights and the practical import of such rights The Moral Rights of Animals will be an indispensable resource for scholars teachers and students in the fields of animal ethics applied ethics ethical theory and human animal studies as well as animal rights advocates and policy makers interested in improving the treatment of animals *Giant Book of Jokes* Dave Phillips, 2005-08
